

BASE PROSPECTUS

BANCA IMI

BANCA IMI S.p.A.

(incorporated with limited liability in the Republic of Italy)

STRUCTURED NOTE PROGRAMME

Under this Structured Note Programme (the **Programme**) Banca IMI S.p.A. (the **Issuer**) may from time to time issue notes in bearer or registered form (respectively, **Bearer Notes** and **Registered Notes** and, together, the **Notes**) denominated in any currency determined by the Issuer.

For the purposes of Directive 2003/71/EC, as amended (which includes the amendments made by Directive 2010/73/EU to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area) (the **Prospectus Directive**) and relevant implementing measures in Ireland, this document (the **Base Prospectus**) constitutes a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Ireland for the purpose of giving information with regard to the issue of the Notes under the Programme during the period of 12 months after the date hereof.

The Base Prospectus has been approved by the Central Bank of Ireland, as competent authority under the Prospectus Directive. The Central Bank of Ireland only approves this Base Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive. Such approval relates only to the Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange plc trading as Euronext Dublin (**Euronext Dublin**) or other regulated markets for the purposes of Directive 2014/65/EU (**MiFID II**) or which are to be offered to the public in a Member State of the European Economic Area.

Application has been made to Euronext Dublin for Notes issued under the Programme to be admitted to the official list (the **Official List**) and trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of MiFID II.

Notes may, in certain circumstances, also be admitted to the electronic order book for retail bonds (the **ORB**) of the London Stock Exchange plc (the **London Stock Exchange**).

The Notes will be issued in such denominations as may be specified by the Issuer and indicated in the applicable Final Terms (as defined below) save that the minimum denomination of each Note admitted to trading on a European Economic Area exchange or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive will be €1,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions which are applicable to each Tranche of Notes will be set out in a final terms document (the **Final Terms**) which, with respect to Notes listed on Euronext Dublin, will be delivered to the Central Bank of Ireland on or before the date of issue of the Notes of such Tranche.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchange(s) or markets as the Issuer may determine. The Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market.

Notes may be issued on a continuing basis and may be distributed by way of private or public placement as specified in the applicable Final Terms. If the applicable Final Terms so specify, Notes may be distributed to one or more Managers (each a **Manager**).

The Issuer has been rated Baa1 (long-term) and P-2 (short-term) with stable outlook by Moody's Italia S.r.l. (**Moody's**), BBB (long-term) and A-2 (short-term) with negative outlook by S&P Global Ratings Italy S.r.l. (**S&P Global**) and BBB (long-term) and F2 (short-term) with negative outlook by Fitch Ratings Ltd. (**Fitch**). Each of Moody's, S&P Global and Fitch is established in the European Union and is registered under the Regulation (EC) no. 1060/2009 (as amended) (the **CRA Regulation**). As such each of Moody's, S&P Global and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) in accordance with the CRA Regulation. Notes issued under the Programme may be rated or unrated by any one or more of the rating agencies referred to above. Where a Tranche of Notes is rated, such rating will be specified in the applicable Final Terms. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. It is the responsibility of prospective purchasers to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other business evaluation of the merits and risks of investing in the Notes and are not relying on the advice of the Issuer or, if relevant, any Manager in that regard. See "Risk Factors" on pages 37 to 66.

IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Amounts payable under the Notes may be calculated or otherwise determined by reference to one or more reference rates that may constitute "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the "**Benchmark Regulation**" or "**BMR**"). If any such reference rate does constitute such a benchmark the applicable final terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the BMR. Not every reference rate will fall within the scope of the Benchmark Regulation. Furthermore, pursuant to article 51 of the BMR, transitional provisions in the Benchmark Regulation may have the result that the

administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable final terms. The registration status of any administrator under the BMR is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the applicable final terms to reflect any change in the registration status of the administrator. Amounts payable under the Notes may be calculated by reference to EURIBOR, EONIA Rate, LIBOR and certain CMS Rates, which are provided by the European Money Markets Institute ("**EMMI**") (with respect to EURIBOR and EONIA) and ICE Benchmark Administration Limited ("**ICE**") (with respect to LIBOR and certain CMS Rates). As at the date of this Base Prospectus, only ICE appears on the register of administrators and benchmarks established and maintained by the ESMA pursuant to article 36 of the Benchmark Regulation. As far as the Issuer is aware, the transitional provisions of article 51 of the Benchmarks Regulation apply, such that EMMI is not currently required to obtain authorisation or registration.

If the applicable Final Terms specify that Condition 8(ii) is applicable, the Issuer is not obliged to gross up any payments in respect of the Notes and shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the Securities Act), and may not be offered, delivered, or sold within the United States to, or for the account or benefit of, U.S. persons (as defined in regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. The Notes are being offered and sold outside the United States in reliance on Regulation S under the Securities Act. There will be no public offering of the Notes in the United States. See "Subscription and Sale".

The Notes will be issued in bearer form or in registered form. See "*Form of the Notes*" for further description of the manner in which Notes will be issued.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to United States persons, except in certain transactions permitted by U.S. Treasury Regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended (the "Code"), and the U.S. Treasury Regulations promulgated thereunder.

IMPORTANT INFORMATION RELATING TO PUBLIC OFFERS OF NOTES WHERE THERE IS NO EXEMPTION FROM THE OBLIGATION UNDER THE PROSPECTUS DIRECTIVE TO PUBLISH A PROSPECTUS

Restrictions on Public Offers of Notes in Relevant Member States where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus.

Certain Tranches of Notes with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a **Public Offer**. This Base Prospectus has been prepared on a basis that permits Public Offers of Notes in each Member State in relation to which the Issuer has given its consent, as specified in the applicable Final Terms (each specified Member State a **Public Offer Jurisdiction** and together the **Public Offer Jurisdictions**).

Any person making or intending to make a Public Offer of Notes on the basis of this Base Prospectus must do so only with the Issuer's consent to use this Base Prospectus as provided under "*Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)*" and provided such person complies with the conditions attached to that consent.

Save as provided above, neither the Issuer nor any Manager have authorised, nor do they authorise, the making of any Public Offer of Notes in circumstances in which an obligation arises for the Issuer or any Manager to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)

In the context of a Public Offer of such Notes, the Issuer accepts responsibility, in each of the Public Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an **Investor**) who acquires any Notes in a Public Offer made by any Manager or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

None of the Issuer or any Manager makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Public Offer and none of the Issuer or any Manager has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraph, the Issuer has not authorised the making of any Public Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Public Offer of Notes. Any Public Offer

made without the consent of the Issuer is unauthorised and neither the Issuer nor, for the avoidance of doubt, any Manager accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Public Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

- (b) the financial intermediary accepts the Issuer's offer to grant consent to the use of this Base Prospectus by publishing on its website the following statement (with the information in square brackets completed with the relevant information) (the **Acceptance Statement**):

The **Authorised Offeror Terms**, being the terms to which the relevant financial intermediary agrees in connection with using the Base Prospectus, are that the relevant financial intermediary:

- (i) will, and it agrees, represents, warrants and undertakes for the benefit of the Issuer and the relevant Manager that it will, at all times in connection with the relevant Public Offer:
- (A) act in accordance with, and be solely responsible for complying with, all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the **Rules**), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by any person and disclosure to any potential Investor, and will immediately inform the Issuer and the relevant Manager if at any time such financial intermediary becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
 - (B) comply with the restrictions set out under "Subscription and Sale" in this Base Prospectus which would apply as if it were a Manager;

 - (F) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the Issuer and the relevant Manager or directly to the FSA (or the appropriate authority with jurisdiction over any Manager) in order to enable the Issuer or any Manager to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to the Issuer or any Manager;
 - (G) ensure that no holder of Notes or potential Investor in the Notes shall become an indirect or direct client of the Issuer or the relevant Manager for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;

- (H) co-operate with the Issuer and the relevant Manager in providing such information (including, without limitation, documents and records maintained pursuant to paragraph (F) above) upon written request from the Issuer or the relevant Manager as is available to such financial intermediary or which is within its power and control from time to time, together with such further assistance as is reasonably requested by the Issuer or the relevant Manager:

 - (ii) in connection with any complaints received by the Issuer and/or the relevant Manager relating to the Issuer and/or the relevant Manager or another Authorised Offeror including, without limitation, complaints as defined in rules published by the FSA and/or any other regulator of competent jurisdiction from time to time; and/or
 - (iii) which the Issuer or the relevant Manager may reasonably require from time to time in relation to the Notes and/or as to allow the Issuer or the relevant Manager fully to comply within its own legal, tax and regulatory requirements,

in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process;

- (I) during the period of the initial offering of the Notes: (i) not sell the Notes at any price other than the Issue Price specified in the applicable Final Terms (unless otherwise agreed with the relevant Manager); (ii) not sell the Notes otherwise than for settlement on the Issue Date specified in the relevant Final Terms; (iii) not appoint any sub-distributors (unless otherwise agreed with the relevant Manager); (iv) not pay any fee or remuneration or commissions or benefits to any third parties in relation to the offering or sale of the Notes (unless otherwise agreed with the relevant Manager); and (v) comply with such other rules of conduct as may be reasonably required and specified by the relevant Manager;
- (J) either (i) obtain from each potential Investor an executed application for the Notes, or (ii) keep a record of all requests such financial intermediary (x) makes for its discretionary management clients, (y) receives from its advisory clients and (z) receives from its execution-only clients, in each case prior to making any order for the Notes on their behalf, and in each case maintain the same on its files for so long as is required by any applicable Rules;
- (K) ensure that it does not, directly or indirectly, cause the Issuer or the relevant Manager to breach any Rule or subject the Issuer or the relevant Manager to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- (L) immediately inform the Issuer and the relevant Manager if at any time it becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;

- (M) comply with the conditions to the consent referred to under "*Common conditions to consent*" above and any further requirements or other Authorised Offeror Terms relevant to the Public Offer as specified in the applicable Final Terms;
 - (N) make available to each potential Investor in the Notes the Base Prospectus (as supplemented as at the relevant time, if applicable), the applicable Final Terms and any applicable information booklet provided by the Issuer for such purpose and not convey or publish any information that is not contained in or entirely consistent with the Base Prospectus and the applicable Final Terms; and
 - (O) if it conveys or publishes any communication (other than the Base Prospectus or any other materials provided to such financial intermediary by or on behalf of the Issuer for the purposes of the relevant Public Offer) in connection with the relevant Public Offer, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the Issuer, that such financial intermediary is solely responsible for such communication and that none of the Issuer and the relevant Manager accept any responsibility for such communication and (C) does not, without the prior written consent of the Issuer or the relevant Manager (as applicable), use the legal or publicity names of the Issuer or the relevant Manager or any other name, brand or logo registered by an entity within their respective groups or any material over which any such entity retains a proprietary interest, except to describe the Issuer as issuer of the relevant Notes on the basis set out in the Base Prospectus;
- (ii) agrees and undertakes to indemnify each of the Issuer and the relevant Manager (in each case on behalf of such entity and its respective directors, officers, employees, agents, affiliates and controlling persons) against any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements or the making by such financial intermediary of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the Issuer or the relevant Manager; and
 - (iii) agrees and accepts that:
 - (A) the contract between the Issuer and the financial intermediary formed upon acceptance by the financial intermediary of the Issuer's offer to use the Base Prospectus with its consent in connection with the relevant Public Offer (the **Authorised Offeror Contract**), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;

- (B) subject to (D) below, the courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Authorised Offeror Contract (including a dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a **Dispute**) and the Issuer and financial intermediary submit to the exclusive jurisdiction of the English courts;
- (C) for the purposes of (B) above and (D) below, the financial intermediary waives any objection to the courts of England on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
- (D) to the extent permitted by law, the Issuer and the Manager may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions; and
- (E) each relevant Manager will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for its benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms.

The financial intermediaries referred to in paragraphs (1)(b) and 1(c) under "*Consent – Specific Consent*" and paragraph (2) under "*Consent – General Consent*" are together the **Authorised Offerors** and each an **Authorised Offeror**.

Any Authorised Offeror who meets all of the conditions set out in "*Specific Conditions to General Consent*" and "*Common Conditions to Consent*" above who wishes to use this Base Prospectus in connection with a Public Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE PUBLIC OFFER OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. **THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER.** NONE OF THE ISSUER OR, FOR THE AVOIDANCE OF DOUBT, ANY MANAGER (EXCEPT WHERE SUCH MANAGER IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF THE INFORMATION DESCRIBED ABOVE.

Public Offers: Issue Price and Offer Price

Notes to be offered pursuant to a Public Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the

relevant Manager at the time of the relevant Public Offer and will depend, amongst other things, on the interest rate applicable to the Notes and prevailing market conditions at that time. The Offer Price of such Notes will be the Issue Price or such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Notes to such Investor. Neither the Issuer nor the relevant Manager(s) will be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Notes to such Investor.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF NOTES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer does not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuer which is intended to permit a public offering of any Notes in any jurisdiction or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States or its possessions, the European Economic Area (including the Republic of Italy, France, the United Kingdom, Spain, Ireland, the Czech Republic, Germany, Hungary, the Republic of Poland, the Slovak Republic, the Netherlands, the Republic of Slovenia, the Portuguese Republic, the Grand Duchy of Luxembourg, Belgium, Croatia, Denmark, Sweden, Austria, Cyprus, Greece, Malta) and Japan (see "Subscription and Sale").

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Notes may only do so (i) in circumstances in which no obligation arises for the Issuer or any Manager to publish a prospectus pursuant to Article 3 of the Prospectus Directive or publish a supplement to a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State and (in either case) published, all in accordance with the Prospectus Directive, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus

or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the Issuer nor any Manager has authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer or any Manager to publish or supplement a prospectus for such offer.

In connection with the issue of any Tranche of Notes, the person or persons (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager(s) (or persons acting on behalf of a Stabilisation Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the final terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

[Call Interest[s]

The Notes bear interest [from their date of issue/from [●]] to [●] equal to the product of (A) [●] (the **Nominal Amount**) and (B) [the lower of (i) [●] (the **Maximum Rate**); and (ii) [the higher of (x) [●] (the **Minimum Rate**) and (y)] the performance of [Underlying] [Basket] (the **Call Performance**) multiplied by [●] (the **Participation Factor**) [[plus/minus] a margin of [●] per cent (the **Margin**)]. [Depending on the performance of the Underlying][I][i]Interest will be paid in arrear on [●] [and [●]] (the **Call Interest Payment Date[s]**) [in each year].

The Call Interests embed an option that provides exposure to the Call Performance, calculated as [single value (**European Call Option**)][arithmetic mean (**Asian Call Option**)].

[The Call Option will be [activated][deactivated] upon occurrence of a [Knock-in Event][Knock-out Event]. In particular, the [Knock-in Event][Knock-out Event] will occur when the Reference Value, on [●] ([each a][the] **Knock[-in][-out] Observation Date[s]**) or at any time during the period from [●] to [●] (the **Knock[-in][-out] Observation Period**) [is [higher than] [higher than or equal to] [lower than] [lower than or equal to] [●] (the **Knock[-in][-out] Level**)] [falls within [●] and [●] (the **Knock[-in][-out] Range**)]

[Put Interest[s]

The Notes bear interest [from their date of issue/from [●]] to [●] equal to the product of (A) [●] (the **Nominal Amount**) and (B) [the lower of (i) [●] (the **Maximum Rate**); and (ii) [the higher of (x) [●] (the **Minimum Rate**) and (y)] the performance of [Underlying] [Basket] (the **Put Performance**) multiplied by [●] (the **Participation Factor**) [[plus/minus] a margin of [●] per cent (the **Margin**)]. [Depending on the performance of the Underlying][I][i]Interest will be paid in arrear on [●] [and [●]] (the **Put Interest Payment Date(s)**) [in each year].

The Put Interests embed an option that provides exposure to the Put Performance, calculated as [single value (**European Put Option**)][arithmetic mean (**Asian Put Option**)].

[insert any of the following features where applicable to the Call Interest or Put Interest:

[Cliquet Option: the calculation of the performance of the Underlying is based on a series of forward start options. Each option enters into force on [●][specify dates]. The value used in the calculation of the Underlying's performance, being the level that is compared to the Final Reference Value in order to determine the performance of the Underlying (the [Call][Put] **Strike**) of each forward start option is reset when the option enters into force.]

[Himalaya Option: On [●][specify dates] (the **Himalaya Valuation Period[s]**), the Basket Constituent having the best Performance [specify how the performance will be determined in accordance to Condition 3] will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same [Call][Put] Interest Payment Date (but shall not be removed in respect of subsequent [Call][Put]Interest Payment Dates). Therefore, once the

Basket Constituent has been selected in relation to a Himalaya Valuation Period, it will not be taken into account for the following Himalaya Valuation Period(s) relating to the same [Call][Put] Interest Payment Date. On each such subsequent Himalaya Valuation Period, other best performing Basket Constituents will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same [Call][Put] Interest Payment Date. As a result, for the purposes of the calculation of the [Call][Put] Performance, the Calculation Agent will consider the arithmetic mean of the performance of the Basket Constituents having the best Performances in the relevant Himalaya Valuation Periods according to the selection process described above.]

[Rainbow Option: [specify (i) the weightings (expressed as percentages) and (ii) how such weightings will be assigned to each Basket Constituent on the basis of such Basket Constituent's performance compared to the performances of the other Basket Constituents.]

[Worst Of Option: [where there is a single Underlying or Basket, the Calculation Agent will select the [first] [second] [third] [●] [specify, on the basis of the number of the Underlyings] [worst performance of [Underlying] [Basket] among those determined on [●] and on [●] [and on [specify other periods]]] [where there are two or more Underlyings, or two or more Baskets, the Calculation Agent will select the [first] [second] [third] [●] [specify, on the basis of the number of the Underlyings] [worst performance compared with the other [Underlyings] [Baskets]]]

SECTION D – RISKS

D.2	<p>Key risks regarding the issuer</p> <p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect its business and ability to make payments due under the Notes.</p> <p>These factors include:</p> <ul style="list-style-type: none"> • In accordance to the Intesa Sanpaolo Group's 2018-2021 Business Plan, Banca IMI will be merged into the parent company Intesa Sanpaolo S.p.A.. Merger transactions could cause uncertainties to business operations, particularly when unrelated companies are involved. Considering that Intesa Sanpaolo S.p.A. is the parent company of Banca IMI and that the merger takes place between two entities belonging to the same banking group, such merger is not expected to have any material adverse effects on the business of Banca IMI or the parent company; • Banca IMI's business may be adversely affected by international and Italian economic conditions, by financial markets trends, and by the developments and conditions in the markets in which Banca IMI operates; • Banca IMI's business is exposed to counterparty credit risk; • Deterioration in Banca IMI's loan portfolio to corporate customers may affect Banca IMI's financial performance; • Banca IMI's business is exposed to market risk; • Banca IMI's business is exposed to operational risks; • Banca IMI's business is exposed to liquidity risk; • Legal risks; • Banca IMI is exposed towards governments, with particular reference to the Republic of Italy, and other public bodies in Europe and outside the Eurozone; • Banca IMI's business is exposed to risks arising from assumptions and methodologies for assessing financial assets and liabilities measured at fair value and linked to the entry into force of new accounting principles and to the amendments to the applicable accounting principles ; • Banca IMI operates within a highly regulated industry and it is subject to the supervision

	<p>activity carried out by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB);</p> <ul style="list-style-type: none"> • In the normal course of its business, Banca IMI is exposed to different types of risk (liquidity risk, credit risk, operational risk, risks linked to the compliance, business risk, as well as reputational risk); and • Banca IMI's business is exposed to risk related to transactions in financial derivatives.
D.3	Key risks regarding the Notes
	<p>There are also risks associated with specified types of Notes and with the Notes and the markets generally, including:</p> <ul style="list-style-type: none"> • the Notes may not be a suitable investment for all investors; • [the value of the Notes may be adversely affected by movements in market interest rates;] • [the value of the Notes may be adversely affected by fluctuations in currency exchange rates. In particular, in the case of negative fluctuations of the relevant exchange rates, the potential investor may be exposed to a partial loss of the capital invested;] • [[the Underlying] [the following Basket Constituent [•]] qualifies as a benchmark (the "Benchmark") within the meaning of Regulation (EU) 2016/1011 (the "Benchmark Regulation") which most provisions apply since 1 January 2018. According to the Benchmark Regulation, a Benchmark could not be used as such if its administrator does not obtain authorisation or is based on a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the "equivalence" conditions, is not "recognised" pending such a decision and is not "endorsed" for such purpose. Consequently, it might be not possible to further utilise the Benchmark as [Underlying][Basket Constituent] of the Notes. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted. RISK FACTORS

The Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme and/or are material for the purpose of assessing the market risks associated with Notes issued under the Programme. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur or arise for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Additional risks and uncertainties not presently known to the Issuer or that the Issuer currently believes to be immaterial could also have a material impact on its business operations or the Notes. Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Terms used in this section and not otherwise defined shall have the meanings given to them in "Terms and Conditions of the Notes".

Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

Risk related to the merger of Banca IMI into the parent company Intesa Sanpaolo S.p.A.

On 6 February 2018 the Board of Directors of Intesa Sanpaolo S.p.A., the parent company of the Issuer, approved the Group's 2018-2021 Business Plan (the "**Plan**"). The Plan lays down measures aimed, *inter alia*, at cost reduction through further simplification of the operating model. According to the Plan, 12 legal entities of the Intesa Sanpaolo Group, including Banca IMI, will be merged into the parent company Intesa Sanpaolo S.p.A..

Merger transactions could cause uncertainties to business operations, particularly when unrelated companies are involved.

Considering that Intesa Sanpaolo S.p.A. is the parent company of Banca IMI and that the merger takes place between two entities belonging to the same banking group, such merger is not expected to have any material adverse effects on the business of Banca IMI or the parent company.

Banca IMI's business may be adversely affected by international markets and economic conditions

Banca IMI's business may be adversely affected in a material extent by conditions in the global financial markets and economic conditions generally both in Italy and internationally. Factors such as the liquidity of the global financial markets; the level and volatility of equity and bond prices; interest rates and commodities prices; investor sentiment; inflation; and the availability and cost of credit may significantly affect Banca IMI's business and as a result Banca IMI's operating results, financial condition and prospects. The possibility that one or more EU Member State may leave the European Monetary Union or, in an extreme scenario, the European Monetary Union may be dissolved, may affect as well with unpredictable consequences Banca IMI's business and as a result Banca IMI's operating results, financial condition and prospects.

The International macroeconomic situation is currently characterized by uncertainty, due in part to: (i) the recovery and strengthening of the economic growth of certain countries, such as United States and China, which have seen important growth in the last years; (ii) the future developments of the monetary policy of the European Central Bank in the Euro-zone and of the Federal Reserve in the Dollar zone; (iii) the consequences of the United Kingdom's exit from the European Union (**Brexit**), insofar as the impacts of Brexit on the United Kingdom's economy, on the international economy, on financial markets and on the Italian and Issuer's condition are not reasonably foreseeable; (iv) the United States commercial policies, tending to isolationism and protectionism, that may affect world trade; (v) the Italian political situation. Political tensions between the European Union and Turkey, and between the European Union and Russia, together with geopolitical conflicts, in particular in Syria, and with the increase in terrorist attacks, may adversely affect the European security and monetary situation.

Although Banca IMI operates in many countries, Italy is its primary market. Banca IMI's businesses are therefore particularly sensitive to adverse macroeconomic conditions in Italy. In Italy, the acceleration in the economic growth depends on (i) the uncertainties which characterized the international framework; (ii) a fragile domestic demand; (iii) the improving of the labour market, which is still characterized by certain areas of weaknesses; and (iv) the situation of public finances, despite some areas of flexibility negotiated with the European authorities, still restricts the use of taxation.

In addition, any downgrade of the Italian sovereign credit rating, or the perception that such a downgrade may occur, may destabilise the markets and have a material adverse effect on the Banca IMI's operating results, financial condition and prospects.

As Banca IMI's businesses and revenues are mainly derived from operations in the Italian and Euro-zone markets, they may be subject to negative fluctuations as a result of the above considerations. There can be no assurance that Banca IMI will not suffer losses in the future arising from its trading activities or operations in the Italian and Euro-zone markets. In addition, there is no assurance that the debt crisis in the Euro-zone will not affect Banca IMI's liquidity sources and funding capabilities.

Banca IMI's business is exposed to counterparty credit risk

Counterparty credit risk is the risk of losses due to the failure on the part of Banca IMI's counterparties to meet their payment and/or deliveries obligations to the Issuer, or the risk that Banca IMI's counterparties creditworthiness may be adversely affected. Counterparty credit risk refers to all claims against customers, mainly loans, but also liabilities in the form of other extended credits, guarantees, holding of securities, approved and undrawn credits, as well as counterparty risk arising through derivatives (including over-the-counter derivatives) and foreign exchange contracts.

In particular, Banca IMI routinely executes transactions with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, funds and other institutional and corporate clients. Many of these transactions expose Banca IMI to the risk that the Banca IMI's counterparty in a foreign exchange, interest rate, commodity, equity or credit derivative contract defaults on its obligations prior to maturity when Banca IMI has an outstanding claim against that counterparty. Due to volatility in foreign exchange and fixed income markets during the past years, this risk has remained at an elevated level compared to the period preceding the global financial and economic crisis.

Banca IMI's counterparties may be unable to meet their obligations to the Issuer due to bankruptcy, lack of liquidity, operational malfunctioning or for any other reasons and any such default could have an adverse effect on Banca IMI's operating results, financial condition and prospects.

In addition, the default of any important participant in the financial market or even the likelihood of such a default, even where such a participant is not a direct Banca IMI's counterparty, may give rise to significant liquidity problems or losses or defaults on the part of other banks, which in turn could have an adverse effect on the Issuer. Furthermore, a downgrading in the credit rating of third parties in which the Issuer holds securities and bonds could result in losses and/or have an adverse effect on the Issuer's capacity to enter into transactions on such securities or bonds, or to use such securities for liquidity purposes. A significant downgrading of the Issuer's counterparties could therefore have a negative impact on the Issuer's own results. Whereas, in many cases, the Issuer may be entitled to ask for additional guarantees from counterparties in financial difficulties, disputes may arise regarding the amounts of the guarantees that the Issuer is entitled to receive and/or the value of the assets required as security and/or additional security. Defaults, credit rating downgradings and disputes with counterparties regarding the valuation of guarantees usually increase substantially in circumstances where market turmoil and illiquidity are prevailing.

The credit quality of Banca IMI's on-balance sheet and off-balance sheet assets may be affected by business conditions. In a poor economic environment there is a greater likelihood that more of Banca IMI's customers or counterparties could become delinquent on their loans or other obligations to Banca IMI which, in turn, could result in a higher level of charge-offs and provision for credit losses, all of which are likely to adversely affect Banca IMI's operating results, financial condition and prospects.

Deterioration in Banca IMI's loan portfolio to corporate customers may affect Banca IMI's financial performance

Banca IMI makes provisions for loan losses in accordance with IFRS; however, the provisions made are based on available information, estimates and assumptions and are subject to uncertainty, and there can be no assurances that the provisions will be sufficient to cover the amount of loan losses as they occur. Adverse changes in the credit quality of Banca IMI's borrowers or decreases in collateral values are likely to affect the recoverability and value of Banca IMI's assets and require an increase in Banca IMI's individual provisions and potentially in collective provisions for impaired loans, which in turn would adversely affect Banca IMI's financial performance. In particular, Banca IMI's exposure to corporate customers is subject to adverse changes in credit quality should the economic environment in the Banca IMI's markets deteriorate. Further, actual loan losses vary over the business cycle. It should also be pointed out that the Issuer's loan portfolio is subject to the asset quality review diligence by European Central Bank acting in cooperation with national supervisory authorities.

A significant increase in the size of the Banca IMI's allowance for loan losses and loan losses not covered by allowances would have a material adverse effect on the Banca IMI's business, financial condition and results of operations.

Banca IMI's business is exposed to market risk

Banca IMI is exposed to market risk, as the value of the financial and other assets held by Banca IMI in its trading portfolio may decrease as a result of changes in market variables (such as interest rates, exchange rates and currencies, stock market prices, the prices of raw materials, credit spreads and/or other variables). Such changes could be generated by changes in general economic trends, changes in investors' propensity to invest, monetary and fiscal policies, market liquidity on a global scale, reduced availability and increased cost of capital, rating agency decisions, political events at both local and international level, military conflicts.

To the extent volatile market conditions persist or recur, the fair value of Banca IMI's bond, derivative and credit portfolios, as well as other classes, could fall more than estimated, and therefore cause Banca IMI to record write-downs. Future valuations of the asset for which Banca IMI has already recorded or

estimated write-downs, which will reflect the then prevailing market conditions, may result in significant changes in the fair values of these assets. Further, the value of certain financial instruments are recorded at fair value, which is determined by using financial models incorporating assumptions, judgments and estimations that are inherently uncertain and which may change over time or may ultimately be inaccurate. Any of these factors could require Banca IMI to recognise further write-downs or realise impairment charges. There can be no assurance that any reduction in value of the financial and other assets held by Banca IMI in its trading portfolio could not materially adversely affect Banca IMI's operating results, financial condition and prospects.

In addition, because Banca IMI's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Banca IMI's trading and investment income, or result in a trading loss, which in turn could have a material adverse effect on the Banca IMI 's business, financial condition and results of operations.

Banca IMI's business is exposed to operational risks

Operational risk is the risk of incurring losses as a result of the inappropriateness or the malfunctioning of procedures, mistakes or shortcomings of human resources and internal systems, or external events. Among the main sources of operational risk there are: frauds, mistakes, business interruption, insecure information systems, failures to meet contractual obligations and finally social and environmental impacts. Legal risk is included, while strategic and reputational risks are not. It is not possible to identify a prevailing source of operational risk constantly present within the Group, since said risk is inherent in all corporate processes and activities.

Operational risk differs from credit and market risk since the Issuer does not assumed such type of risk on the basis of strategic choices, but it is inherent in Issuer's business.

Banca IMI is exposed to many types of operational risk, and operational losses, including fraud from employees and other third parties, non-authorized transactions from employees and operating errors which may result from inadequacies or failures in internal processes, systems (for example, information technology ("IT") systems).

Banca IMI has implemented risk controls and has taken other actions to mitigate exposures and/or losses. If any of policies and internal procedure of risks control used by Banca IMI fail or have other significant shortcomings, Banca IMI's business, financial condition and results of operations could be materially adversely affected.

Banca IMI's business is exposed to liquidity risk

Liquidity risk is the risk that Banca IMI will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost; as the risk of being unable to meet payment obligations caused by inability to obtain funding (the Funding Liquidity Risk) and the presence of restrictions on the ability to sell assets without incurring in a capital loss, due to the illiquid nature of the market and/or due to the timing required for the transaction (the Market Liquidity Risk).

Potential conditions that could negatively affect Banca IMI's funding capability include events making Banca IMI unable to obtain access to capital markets by issuing debt instruments (with or without security) or materially impairing such ability, to receive funds from external counterparties or from the Group, to sell assets or redeem investments or it may be affected by unexpected outflows of cash or the obligation to provide greater security. This situation may arise from circumstances not dependent on the Issuer's will, as market crisis, an operational issue which may affect the Issuer or third parties, or the perception of market participants are experiencing an increased liquidity risk. Liquidity risk or the loss of

market confidence in financial institutions may increase Issuer's funding costs and limit its access to traditional funding sources.

The main sources of liquidity risk could be the failure of an important market participant or the concerns of breach by such market participants that could entail considerable liquidity issues or default by other banks, which in turn affects the Issuer. Moreover, a source of liquidity risk could be a downgrading in the credit rating of third parties in which the Issuer holds securities and bonds that could entail losses and/or have an adverse effect on the Issuer's ability to make new arrangements for such securities or bonds, or to utilize them in another manner for liquidity purposes.

Although the Issuer monitors constantly its liquidity risk, a potential adverse development in markets, in the general economic scenario and /or in the Issuer's credit rating, accompanied by the Issuer's need to adapt its liquidity situation to the legal requirements introduced for the implementation of new European legislation may adversely affect Banca IMI's business, financial condition and results of operations.

Legal risks

In the normal course of its business, Banca IMI is party to a number of legal proceedings including civil, tax and administrative proceedings, as well as investigations or proceedings brought by regulatory agencies. Such actions brought against Banca IMI may result in judgments, settlements, fines, penalties or other results adverse to Banca IMI which could materially adversely affect Banca IMI's business, financial condition or results of operation, or cause it serious reputational harm.

As at 31 December 2017, provisions for risks and charges are in the amount of approximately € 18.5 million. The valuations of the liabilities is calculated on the basis of the most recent information available and necessarily requires to rely on estimates and assumptions. Therefore, the provisions for risks and charges may be insufficient to cover the potential costs which could arise from the pending proceedings and the actual costs related to pending proceedings might be significantly higher, with a resulting negative impact on Banca IMI's business, financial condition or results of operation.

Provisions for risks and charges refer to liabilities of an uncertain amount or maturity, which represent consequences deriving from a past event. Such provisions shall be charged to net income if it is probable that an outlay is due to meet obligations to pay compensation or the liabilities, and the amount of the provision could be calculated on the basis of valuations.

No provisions are made for liabilities that are merely potential but not probable.

Currently, the risk of outlay for pending proceedings is not considered probable or, otherwise, significant, or has involved cash disbursement.

For more detailed information, see Paragraph headed "Legal and Arbitration Proceedings" under Section headed "Description of Banca IMI S.p.A.".

Risks related to Banca IMI's exposure to sovereign debt

Banca IMI is exposed towards governments, with particular reference to the Republic of Italy, and other public bodies in Europe and outside the Eurozone.

As at 31 December 2017 the Issuer's exposure to the sovereign debt was about EUR 21.3 billion (of which about EUR 11.5 billion in relation to the Republic of Italy), compared to about EUR 20.9 billion as at 31 December 2016.

The worsening of the sovereign debt market and its volatility, with particular reference to differential in yield between Italian government bonds and other benchmark government bonds (the so-called spread), may have adverse effects on the Banca IMI's business, financial condition or operating results.

Risks arising from assumptions and methodologies for assessing financial assets and liabilities measured at fair value and linked to the entry into force of new accounting principles and to the amendments to the applicable accounting principles

Issuer's accounting policies and methods are fundamental to how the Issuer records and reports its financial condition and results of operations. Some of these policies require use of estimates and assumptions that may affect the value of Banca IMI's assets or liabilities and financial results and are critical because they require management to make difficult, subjective and complex judgments about matters that are inherently uncertain.

Estimates and assumptions are strongly influenced, inter alia, by the national and international market and economic context, the financial markets' performance, the volatility of financial parameters and credit quality, all factors that by their very nature are unpredictable and may have a significant impact on interest rate movements, price fluctuations and counterparties creditworthiness. Consequently, the estimates and assumptions used may vary from time to time and, as a result, in subsequent financial years the current values may differ, even significantly, due to changes in subjective assessments made or be otherwise reviewed to take account of changes occurred in that period.

Moreover, in the context of the regulatory interventions to accounting principles, the Issuer is exposed to both the effects deriving from the entry into force of new accounting principles and to the amendments to the existing ones, in particular concerning the international accounting principles IAS/IFRS. In this respect, it should be considered the new international accounting principle IFRS 9 “*Financial Instruments*” that will replace principle IAS 39, concerning the classification and measurement of financial instruments.

Such new principle, approved by EU Regulation No. 2067/2016, entered into force on 1 January 2018. It is divided into three different areas:

classification & measurement: as regards this first area, a new model for the classification of financial assets is introduced, and it is guided, on one side, by the contractual characteristics of the cash flows of the instrument itself and, on the other, by the management intention (business model) with which the instrument is held.

impairment: with regard to this second area, for instruments recognised at amortized cost and at fair value through equity (different from equity instruments), a model is introduced based on the concept of “expected loss” instead of the current “incurred loss”; the new model is intended to allow prompter recognition of impairment losses in the income statement. More specifically, IFRS 9 requires companies to record expected losses in the following 12 months (stage 1) right from the initial recognition of the financial instrument. The time frame for calculating the expected loss extends to the entire remaining life of the asset from the moment the credit quality of the financial instrument suffers a “significant” deterioration compared with the initial measurement (stage 2) or if it turns out to be “impaired” (stage 3);

hedge accounting: with reference to hedge accounting, the new model concerning specific hedges aims to align accounting elements with risk management activities and to strengthen the disclosure of risk management activities undertaken by the reporting entity.

The main expected impacts of applying the new standard include:

- the change in the accounting portfolios where nowadays financial instruments are classified according to IAS 39 and there is an expected increase in financial instruments measured at fair value;
- greater volatility in profit and loss due to the passage of financial instruments from stage 1 to stage 2 or vice versa, due to the different procedures for determining impairment and reversals of impairment compared to the current ones, and to greater convergence in the use of fair value through profit and loss;
- the greater the impact on the measurement of impairment in determining the expected “lifetime” loss on performing loans classified in stage 2, the greater the duration of each individual relationship;
- the redefinition of the mission of certain operating units – with the resulting implications on governance of portfolios, control procedures, risk measures and the related limits and ceilings.

The introduction of IFRS 9 may determine the reclassification of the financial instruments that are now measured at the amortised cost within the categories measured at fair value through income statement. Such reclassification depends on the asset management model and/or the specific characteristics of the individual instrument. At the same time, the adoption of the new impairment model will determine the remeasurement of the values recorded in the financial statements for the same instruments, which are consistent with the provisions of IAS 39.

Both such effects will be reflected in the Issuer's opening balance at 1 January 2018. The differences among the values determined on the basis of IAS 39 and those determined on the basis of IFRS 9 will be detected among the equity reserves at the moment of the new standard's First Time Adoption (FTA); to those effects will be associated the corresponding fiscal effect. The effects of the evaluations of the same instruments following 1 January 2018 will be included within the Issuer's income statement or the equity reserves, for an amount corresponding to the difference with the detection of the FTA.

Based on the initial analyses conducted and on the current implementations, it is estimated that the effects on Banca IMI's equity and prudential requirements of the first-time adoption of the new accounting principle will not be critical compared with the present Banca IMI balance sheet capital and regulatory levels. The final impact will mainly depend on the composition of the credit portfolios at the transition date, on the macroeconomic forecast for the future years that will be defined at the date of transition to IFRS 9 and on certain legal interpretation and implementing provisions that are still subject to the national and international debate.

Banca IMI operates within a highly regulated industry and its business and results are affected by the regulations to which it is subject including the Banking Resolution and Recovery Directive

Banca IMI operates within a highly regulated environment and it is subject to extensive regulation and supervision by the Bank of Italy, the Italian Securities and Exchange Commission (CONSOB), the European Central Bank and the European System of Central Banks. The regulations to which Banca IMI is subject will continue to have a significant impact on Banca IMI's operations and the degree to which it can grow and be profitable. Regulators to which Banca IMI is subject have significant power in reviewing Banca IMI's operations and approving its business practices.

Areas where changes or developments in regulation and/or oversight could have an adverse impact include, but are not limited to (i) changes in monetary, interest rate and other policies, (ii) general changes in government and regulatory policies or regimes which may significantly influence investor decisions or may increase the costs of doing business in the markets where Banca IMI carries out its business, (iii) changes in capital adequacy framework, imposition of onerous compliance obligations, restrictions on business growth or pricing and requirements to operate in a way that prioritises other objectives over shareholder value creation, (iv) changes in competition and pricing environments, (v) differentiation

amongst financial institutions by governments with respect to the extension of guarantees to banks and the terms attaching to such guarantees, and (vi) further developments in the financial reporting environment.

The regulatory framework governing international financial markets has been amended in response to the credit crisis, and new legislation and regulations have been introduced in Italy and the European Union that will affect Banca IMI. Such initiatives include, but are not limited to, requirements for liquidity, capital adequacy and handling of counterparty risks, regulatory tools provided to authorities to allow them to intervene in scenarios of distress and the introduction of a common system of financial transaction tax in the euro area.

In detail, the Basel Committee on Banking Supervision has proposed a number of fundamental reforms to the regulatory capital framework for internationally active banks, the principal elements of which are set out in its papers released on December 2010, January 2011 and July 2011 ("**Basel III**"). The European Commission proposed a legislative package to strengthen the regulation of the banking sector through the combination of an amendment to the Capital Requirements Directive (Directive 2013/36/EU, known as the **CRD IV**) and the implementation of the Capital Requirements Regulation (Regulation 575/2013, known as the **CRR**, together with the **CRD IV**, the **CRR/CRD IV Package**). The CRD IV and the CRR have entered into force on 1 January 2014 based on a progressive implementation plan.

Developments in the regulatory framework include, among the main innovations, increased level and enhanced quality of banks' capital (with the introduction of the Common Equity Tier 1 - CET1), the introduction of the Leverage Ratio (ratio between the Core Tier I and Total Assets, including the off balance sheet adjusted for the actual exposure in derivatives), changes to the assessment of counterparty risk and introduction of two new regulatory liquidity ratios (Liquidity Coverage Ratio - LCR and Net Stable Funding Ratio - NSFR).

On 2 July 2014, the Directive 2014/59/EU of the Parliament and of the Council of the European Union establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) entered into force. It is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures or supervisory action would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest:

- (i) the sale of business – which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms;
- (ii) the creation and use of a bridge institution – which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control);
- (iii) asset separation – which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and

- (iv) bail-in which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims including Notes to equity, which equity could also be subject to any future application of the bail-in tool.

The BRRD also provides as a last resort the right for a Member State, having assessed and utilised the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

When applying the bail-in, the resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. If and if only this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings.

The BRRD excludes certain liabilities from the application of the bail-in tool and provides also that the resolution authorities may exclude or partially exclude certain further liabilities from the application of the bail-in tool. Accordingly, *pari passu* liabilities may be treated unequally and, for example, holders of Notes of a Series may be subject to write-down or conversion upon an application of the bail-in tool while other Series of Notes (or other *pari passu* ranking liabilities) are partially or fully excluded from such application of the bail-in tool. As a result, the claims of other holders of junior or *pari passu* liabilities may be excluded from the application of the bail-in tool and therefore the holders of such claims may receive a treatment which is more favourable than that received by Noteholders.

Furthermore, the resolution authorities will have the power to cancel debt instruments, and the power to amend or alter the maturity of debt instruments and other eligible liabilities or amend the amount of interest payable under such instruments and other eligible liabilities, or the date on which the interest becomes payable, including by suspending payment for a temporary period.

The powers set out in the BRRD will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

Furthermore, when implemented in the Member States, the relevant provisions, including the bail-in tool, may be applied to the outstanding financial instruments, even to those already issued before 1 January 2016 and, therefore, it may have retroactive effect. In addition, the BRRD does not prevent Member States, from amending national insolvency regimes to provide other types of creditors, such as holders of deposits or other operating liabilities of the Banca IMI with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors such as the Noteholders. In Italy, the provisions of the BRRD have been implemented into national law through Legislative Decrees no. 180 and no. 181, published in the Official Gazette on 16 November 2015 (the "**Decrees**").

Noteholders should be aware that, as part of the reforms introduced by the Decrees, an extended depositor preference will be applicable in national insolvency hierarchy. In particular, all deposits (including large corporate and interbank deposits) will be preferred in the insolvency hierarchy ahead of all other unsecured senior creditors. Therefore, in addition to the statutory preference provided by Article 108 of

the BRRD to (i) covered deposits and (ii) non-covered deposits from natural persons and micro, small and medium-sized enterprises (preferred after covered deposits), applicable as of 16 November 2015, the Decrees establish a further preference for all other deposits that is expected to enter into force from 1 January 2019.

The Notes may thus be subject to write-down or conversion into equity on any application of the bail-in tool, which may result in such holders losing some or all of their investment.

The powers set out in the BRRD and in the Decrees will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Holders of Notes may be subject to writedown or conversion into equity on any application of the general bail-in tool, which may result in such holders losing some or all of their investment. The exercise of any power under the BRRD and the Decrees or any suggestion of such exercise could therefore materially adversely affect the rights of Noteholders, the price or value of their investment in any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes.

The Regulation 806/2014/EU of the European Parliament and of the Council of 15 July 2014 establishes a Single Resolution Mechanism (**SRM**) for the Banking Union (i.e. Euro-zone and participating countries). Under this Regulation, a centralised power of resolution is established and entrusted to a Single Resolution Board and to the national resolution authorities. The SRM is directly applicable in participating EU countries (including Italy) starting since 1 January 2016. It is aimed at ensuring a full harmonisation of the resolution, including the bail-in tool, in the Banking Union.

Under the Single Supervisory Mechanism (SSM), the European Central Bank has been granted direct powers of supervision over banks resident in the Euro area and other Member States that are part of the Banking Union with the responsibility to ensure inter alia consistent application of legal provisions across the Euro Area. The Issuer belongs to the Intesa Sanpaolo Group, which is one of the Italian banking groups that is monitored by the European Central Bank.

Such enhanced capital requirements, restrictions on liquidity, increased ratios applicable to the Issuer on the basis of laws and/or regulations that will be adopted and/or will enter into force in the future, are expected to have a significant impact on the capital and asset and liability management of Banca IMI and costs involved could have a material adverse effect on the Banca IMI's business, financial condition and results of operations.

In addition, as Banca IMI expands its international operations, its activities will become subject to an increasing range of laws and regulations that will likely impose new requirements and limitations on certain of Banca IMI's operations.

Banca IMI's framework for managing its risks may not be effective in mitigating risks and losses

Banca IMI's risk management framework is made up of various processes and strategies to manage Banca IMI's exposure. Types of risk to which Banca IMI is subject include liquidity risk, credit risk, market risk, operational risk, reputational and legal risk among others.

There can be no assurance that Banca IMI's framework to manage risk, including such framework's underlying assumption, will be effective under all conditions and circumstances. There can be no assurance that, should Banca IMI's risk management prove to be ineffective and/or ineffective in certain conditions or circumstances, this will not result in Banca IMI suffering unexpected losses or that such risk management inefficiency will not materially adversely affect Banca IMI's business, financial condition or results of operation.

Banca IMI is exposed to risk related to transactions in financial derivatives

The Issuer is party to a large number of derivative transactions, including credit derivatives with financial and insurance companies, commercial and investment banks, funds and other institutional market participants.

As at 31 December 2017 the Issuer's exposure to financial derivatives was about EUR 34 billion against overall financial assets for Euro 148 billion.

Derivatives transactions expose the Issuer to the risk that the counterparty in derivative contracts defaults on its obligations or becomes insolvent before the relevant contract expires, when amounts are still payable to the Issuer by such party. This risk may arise notwithstanding the presence of collaterals, if – against the exposure to financial derivatives – said collaterals may be disposed of or liquidated at a value that is not sufficient to cover the exposure to the counterparty. For more information in this respect, see Paragraph "Banca IMI's business is exposed to counterparty credit risk" above.

The Issuer is also exposed to possible changes in the value of the financial instruments held (including financial derivatives), due to fluctuations in interest rates, exchange rates and currencies, the prices of equity markets and commodity markets, credit spreads, counterparty risk, risk of default of the reference entity with regard to derivatives exposure and/or other risks.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement and all the information contained in the applicable Final Terms;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments but as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential

investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. Prospective purchasers of Notes bearing Structured Rate Interest should be experienced with respect to options and option transactions, should understand the risks of transactions involving the relevant Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Notes in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Notes and the particular underlying(s), as specified in the applicable Final Terms.

Risks related to the structure of a particular issue of Notes

(i) General consideration in respect of Structured Rate Interest

A wide range of Notes may be issued under the Programme. An investment in Notes which bear interest (**Structured Rate Interest**) which is determined by reference to one or more values of shares, indexes, commodities, commodity futures contracts, exchange rates, inflation rates, interest rates, funds, swap rates and Baskets composed of the aforementioned financial reference assets, either directly or inversely, may entail the risk that the resulting interest rate or interest amount will be less than that payable on a conventional debt security at the same time. Potential investors should be aware that:

- (a) the market price of such Notes may be volatile;
- (b) movements in the underlying asset may adversely affect the amount of interest to be paid to the Noteholder and may also affect the market value of the Notes;
- (c) they may receive no interest.

A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common features. In particular:

Certain consideration associated with Structured Rate Interest linked to Inflation Rates

The Issuer may issue Structured Notes bearing Structured Rate Interest linked to the performance of one or more rates of inflation. A relevant consumer price index or other formula linked to a measure of inflation to which the Structured Rate Interest is linked may be subject to significant and unforeseeable fluctuations that may not correlate with general changes in interest rates, currencies or other indices. The timing of changes in the relevant consumer price index or other formula linked to a measure of inflation to which the Structured Rate Interest is linked may affect the amount that investors in Structured Notes receive, even if the average level is consistent with their expectations.

A relevant consumer price index or other formula linked to a measure of inflation to which the Structured Rate Interest is linked is only one measure of inflation for the relevant jurisdiction and may not correlate perfectly with the rate of inflation experienced by holders of the relevant Structured Notes in such jurisdiction.

Certain consideration associated with Structured Rate Interest linked to Interest Rates

An investment in Structured Notes bearing Structured Rate Interest linked to interest rates may not provide the same level of return as a direct investment in the underlying interest rate.

An investment in Structured Notes bearing Structured Rate Interest linked to interest rates may bear similar market risks to a direct interest rate investment and potential investors should take advice accordingly.

Potential investors in any such Notes should be aware that, depending on the terms of the underlying interest rate, they may receive no or a limited amount of interest. In addition, movements in interest rates may be subject to significant fluctuations that may not correlate with changes in other indices and the timing of changes in the interest rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in interest rates, the greater the effect on yield.

Interest rates are determined by various factors which are influenced by macro economic, political or financial factors, speculation and central bank and government intervention. In recent years, interest rates have been relatively low and stable, but this may not continue and interest rates may rise and/or become volatile. Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in interest rates will affect the value of Structured Notes.

If the amount of interest payable is dependent upon movements in interest rates and is determined in conjunction with a multiplier greater than one or by reference to some other participation factor, the effect of changes in the interest rates on interest payable will be magnified.

The market price of such Structured Notes may be volatile and, if the amount of interest payable is dependent upon movements in interest rates, may depend upon the volatility of interest rates. Movements in interest rates may be dependent upon economic, financial and political events in one or more jurisdictions.

Certain consideration associated with Structured Rate Interest linked to Exchange Rates

The Issuer may issue Structured Notes where the amount of interest payable is dependent upon movements in currency exchange rates.

Changes in currency exchange rates cannot be predicted. Although historical data with respect to currency exchange rates may be available, the historical performance of currency exchange rates should not be taken as an indication of future performance.

Potential investors in any such Structured Notes should be aware that, depending on the terms of the Structured Notes, they may receive no or a limited amount of interest. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

If the amount of interest payable is dependent upon movements in currency exchange rates and is determined in conjunction with a multiplier greater than one or by reference to some other participation factor, the effect of changes in the currency exchange rates on interest payable will be magnified.

The market price of such Notes may be volatile and, if the amount of interest payable is dependent upon movements in currency exchange rates, may depend upon the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

Certain consideration associated with Structured Rate Interest linked to Commodities

The Issuer may issue Structured Notes where the amount of interest payable is dependent upon the price or changes in the price of a commodity or basket of commodities.

Changes in the price of a commodity or basket of commodities cannot be predicted. Although historical data with respect to a commodity or basket of commodities may be available, the historical performance of a commodity or basket of commodities should not be taken as an indication of future performance.

Potential investors in any such Notes should be aware that depending on the terms of the Structured Notes they may receive no or a limited amount of interest. In addition, the movements in the price of the commodity or commodities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the commodity or the commodities may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the commodities, the greater the effect on yield.

If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the commodity or commodities on interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the volatility of the price of the commodities. The price of commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any such commodities may be traded.

Certain consideration associated with Structured Rate Interest linked to Commodity Futures Contracts

The yield on Structured Notes where the amount of interest payable is linked to commodity futures contracts may not be perfectly correlated to the trend in the price of the underlying commodities, as the use of commodity futures contracts generally involves a rolling mechanism. This means that any commodity futures contracts which expire prior to the relevant payment date under the applicable Structured Notes are replaced with commodity futures contracts that have a later expiry date. Investors may, therefore, only marginally benefit from any rise or fall in the price of the commodities.

Certain consideration associated with Structured Rate Interest linked to Funds

The Issuer may issue Structured Notes where the amount of interest payable is dependent upon the price or changes in the price of units or shares in a fund or funds.

Changes in the price of units or shares in a fund or funds cannot be predicted. Although historical data with respect to the units or shares in a fund or funds may be available, the historical performance of the units or shares in a fund or funds should not be taken as an indication of future performance.

Potential investors in any such Notes should be aware that depending on the terms of the Structured Notes they may receive no or a limited amount of interest. In addition, the movements in the price of units or shares in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units or shares in the fund or funds, the greater the effect on yield.

If the amount interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the volatility of the price of units or shares in the fund or funds. The price of units or shares in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the fund or funds may be traded.

Certain consideration associated with Structured Rate Interest linked to Shares

The Issuer may issue Notes where the amount of interest payable is dependent upon the price of or changes in the price of equity securities or a basket of equity securities.

Changes in the price of equity securities or a basket of equity securities cannot be predicted. Although historical data with respect to the equity securities or a basket of equity securities may be available, the historical performance of the equity securities or a basket of equity securities should not be taken as an indication of future performance.

Potential investors in any such Notes should be aware that depending on the terms of the Structured Notes they may receive no or a limited amount of interest. In addition, the movements in the price of the equity security or basket of equity securities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the equity security or equity securities may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the equity security or equity securities, the greater the effect on yield.

If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the equity security or equity securities on interest payable will be magnified.

The market price of such Structured Notes may be volatile and may be affected by the volatility of the equity security or equity securities, the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant equity security or equity securities as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such securities may be traded.

Certain consideration associated with Structured Rate Interest linked to Indices

The Issuer may issue Notes where the amount of interest payable is dependent upon the level of an index or indices.

Changes in the value of the index or indices cannot be predicted. Although historical data with respect to the index or indices may be available, the historical performance of the index or indices should not be taken as an indication of future performance.

Potential investors in any such Notes should be aware that depending on the terms of the Structured Notes (i) they may receive no or a limited amount of interest, and (ii) the market price of such Notes may be volatile. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index or result of a formula, the greater the effect on yield.

If the amount of interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on interest payable will be magnified.

The market price of such Notes may be volatile and may depend on the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded.

Structured Notes are not in any way sponsored, endorsed, sold or promoted by the sponsor of the relevant Index(ices) (the **Sponsor**) and the Sponsor(s) make(s) no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the Index(ices) and/or the figure at which the Index(ices) stands at any particular time on any particular day or otherwise. The Sponsor(s) shall not be liable (whether in negligence or otherwise) to any person for any error in the Index(ices) and the Sponsor(s) shall not be under any obligation to advise any person of an error therein.

Certain consideration associated with Structured Rate Interest linked to a Basket

Where the Notes are linked to a Basket, investors will be exposed to the value of the Baskets and will bear risk in relation to the level or price of each of the financial asset (each, a Basket Constituent) in the Baskets.

Investors should be aware that, even in the case of a positive performance of one or more of the Basket Constituents in the Basket, the value of the Basket as a whole may be negative if the performance of any or all of the other Basket Constituents in the Basket is negative to a greater extent.

Investors should also be aware that the value of a Basket that includes fewer Basket Constituents will generally be affected to a greater extent by changes in the level or price of any particular Basket Constituent included in the Basket than a Basket that includes a greater number of Basket Constituents.

Where the Basket Constituents in a Basket are subject to weighting, the performance of a Basket Constituent with a greater weighting in the Basket will generally have a greater effect on the performance of the Basket than a Basket Constituent with a lesser weighting in the Basket.

(ii) Risks related to Disruption Events

Structured Notes may be subject to risks related to additional disruption events, market disruption events, disrupted days and other events that have a material effect on the Notes, if applicable (each as defined in the relevant Final Terms, the **Disruption Events**).

The occurrence of any Disruption Event may result in the postponement of the relevant observation date relating to any Underlying or affected Basket Constituent, the postponement of the relevant payment date for interest or redemption of the Notes by the Issuer.

Investors should be aware that the Calculation Agent has a large amount of discretion upon the occurrence of any Disruption Event. The Calculation Agent may make adjustments to the Conditions as it considers appropriate and may determine the fair market value of the relevant Underlying or good faith estimate of the level of the Index, as applicable, as specified in the relevant Final Terms.

Any postponement of the observation date or payment date or any amendment to the Conditions may have an adverse effect on the value of the Notes. The occurrences of any such event may also adversely affect the investors' investment schedule, timetable or plans in relation to which the payment dates of the Notes are connected.

An investor in the Notes should ensure he fully understands the nature of the Disruption Events and the possible consequences and fallbacks that could impact the Notes or any relevant Underlying.

(iii) Features relating to the method of calculation of Structured Rate Interest

Since Structured Rate Interest amounts are linked to the performance of underlying asset(s), then certain features of such Notes may determine amounts due thereunder. Investors must ensure that they read the terms and conditions of such Notes to fully understand the risks thereof.

For instance, and without prejudice to further features or options disclosed in the terms and conditions of the Notes, one or more of the following features or options may be applicable:

Best Of Option: (i) where there is a single Underlying or Basket, the method by which the Calculation Agent selects the Best Of value, being the first, the second or the third and so forth (as specified in the applicable Final Terms) best performance of such Underlying or Basket among those determined for two or more periods specified in the applicable Final Terms; or (ii) where there are two or more Underlyings, or two or more Baskets, the method by which the Calculation Agent selects the Best Of Underlying or Basket, as the case may be, being the Underlying or Basket with the first, the second or the third and so forth (as specified in the applicable Final Terms) best performance compared with the other Underlyings or Baskets, as the case may be;

Cliquet Option: the method of calculation of the performance of the Underlying which is based on a series of forward start options. Each option enters into force on the date specified in the applicable Final Terms. The Call /Put Strike of each forward start option is reset when the option enters into force;

Himalaya Option: the method of calculation of the performance of a Basket based on a selection process in accordance with which, in each Himalaya Valuation Period, the Basket Constituent having the best Performance will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same Call/Put Interest Payment Date (but shall not be removed in respect of subsequent Call/Put Interest Payment Dates). Therefore, once the Basket Constituent has been selected in relation to a Himalaya Valuation Period, it will not be taken into account for the following Himalaya Valuation Period(s) relating to the same Call/Put Interest Payment Date. On each such subsequent Himalaya Valuation Period, other best performing Basket Constituents will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same Call/Put Interest Payment Date. As a result, for the purposes of the calculation of the Call/Put Performance, the Calculation Agent will consider the arithmetic mean of the performance of the Basket Constituents having the best Performances in the relevant Himalaya Valuation Periods according to the selection process described above;

Knock-in Event: the event specified in the applicable Final Terms that has to occur on a Knock-in Observation Date or at any time during the Knock-in Observation Period (as specified in the relevant Final Terms) for the applicability of the Call/Put Option.

Knock-out Event: the event specified in the applicable Final Terms that has to occur on a Knock-in Observation Date or at any time during the Knock-in Observation Period (as specified in the relevant Final Terms) for the non-applicability of the Call/Put Option.

Rainbow Option: a method for calculating the relevant Interest Amount when the Underlying is constituted by a Basket. Pursuant to such method of calculation, the Issuer will specify in the applicable Final Terms the weightings (expressed as percentages) potentially applicable to the Basket Constituents in the Basket and then such weightings will be assigned to each Basket Constituent on the basis of such Basket Constituent's performance compared to the performances of the other Basket Constituents.

Spread Option: is an option that provides exposure to the difference between the values or the performance of two Underlyings multiplied by the Participation Factor;

Worst Of Option: (i) where there is a single Underlying or Basket, the method by which the Calculation Agent selects the Worst Of value, being the first, the second or the third and so forth (as specified in the applicable Final Terms) worst performance of such Underlying or Basket among those determined for two or more periods specified in the applicable Final Terms; or (ii) where there are two or more Underlyings, or two or more Baskets, the method by which the Calculation Agent selects the Worst Of Underlying or Basket being the Underlying or Basket with the first, the second or the third and so forth (as specified in the applicable Final Terms) worst performance compared with the other Underlyings or Baskets, as the case may be.

(iv) *Occurrence of events/conditions*

Whether an event or a condition has occurred or not may be determined by reference (a) to one or more Underlying(s) and, in the case of each such Underlying, whether it is lower than, lower than or equal to, higher than, higher than or equal to or within specified values or levels; (b) to specified dates only or during a period; and/or (c) to the performance of such Underlying(s), or by reference to the level/price/value of the relevant Underlying(s) continuously observed of the relevant Underlying or determined on a specified date.

Investors must ensure that they read and understand what constitutes each relevant event/condition in respect of the Notes as the relevant contingencies will influence if certain amounts are paid or not.

(v) *Participation factors, Maximum Rates, Minimum Rates applied to the calculation of Interest*

The determination of amounts due under the Notes may be subject, *inter alia*, to one or a combination of the following features:

- a Minimum Rate and/or a Maximum Rate;
- a Participation Factor;

- the addition or subtraction of a Margin;
- a Global Cap or a Global Floor.

In such circumstances, the relevant calculation will not be made only by reference to the performance of the relevant Underlying(s) and the application of such features may result in the calculation being subject to a minimum and/or maximum amount or otherwise increasing or decreasing the amount that would otherwise have been calculated had no such feature(s) been applicable. Movements in the value of the relevant Underlying will be magnified where a participation factor applies and may therefore result in greater gains or losses than if no participation rate applied.

(vi) Mandatory Early Redemption

If "Mandatory Early Redemption" is specified as applicable in the applicable Final Terms, then such Final Terms will specify what constitutes a "Mandatory Early Redemption Event" and, following the occurrence of a Mandatory Early Redemption Event, the Notes will be redeemed on the relevant Mandatory Early Redemption Payment Date and the relevant Mandatory Early Redemption Amount specified in the applicable Final Terms will become payable and no further amount shall be payable in respect of such Notes. In this case, investors are subject to a reinvestment risk, as they may not be able to replace their investment in such Notes with an investment that has a similar profile of chances and risks as the relevant Notes.

If any Notes are redeemed early in accordance with the above, the amount received by the relevant holders will be limited to the Mandatory Early Redemption Amount irrespective of the price of the relevant Underlying(s) or any other reference factor(s) applicable to such Underlying(s). Furthermore, investors will not benefit from any movement in the price of relevant Underlying(s) that may occur during the period between the relevant date of early redemption and the maturity date.

(vii) Risks relating to Notes that include an option for the Issuer to switch the method for the calculation of interest

Notes may bear Interest at a rate that the Issuer may elect to convert, for example, from a structured rate to a floating rate, or from a structured rate to a fixed rate and so forth. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing.

(viii) The rate of Fixed Rate Reset Interest will reset on each Reset Date, which can be expected to affect the interest payment on an investment in Notes bearing Fixed Rate Reset Interest and could affect the market value of Notes bearing Fixed Rate Reset Interest

Notes bearing Fixed Rate Reset Interest will initially earn interest at the Initial Rate of Interest until (but excluding) the first Reset Date. On the first Reset Date, however, and on each Reset Date (if any) thereafter, the interest rate will be reset to a different fixed rate of interest per annum (each such interest rate, a **Reset Rate of Interest**). The Reset Rate of Interest for any Reset Period could be less than Initial Rate of Interest or the Reset Rate of Interest for prior Reset Periods and could affect the market value of an investment in the Notes bearing Fixed Rate Reset Interest.

(ix) Risks relating to Dual Currency Notes

The Issuer may issue Dual Currency Interest Notes and/or Dual Currency Redemption Notes (together, **Dual Currency Notes**) where the interest and/or principal is payable in one or more currencies which

may be different from the currency in which the Notes are denominated. An investment in Dual Currency Notes will entail significant risks not associated with a conventional debt security.

Currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors. In particular, in the case of negative fluctuations of the relevant exchange rates, the potential investor may be exposed to a partial loss of the capital invested.

If any FX Market Disruption Event occurs or exists Noteholders should be aware that the Issuer may either direct the Calculation Agent (i) to make such consequential adjustments to the Notes (including any payment obligations or the currency of payment) as it determines and/or (ii) to determine any Reference Exchange Rate or to substitute any affected Reference Exchange Rate with a substitute Reference Exchange Rate.

In addition, investors who intend to convert gains or losses from the exercise, redemption or sale of Dual Currency Notes into their home currency may be affected by fluctuations in exchange rates between their home currency and the Payment Currency (as defined below) of the Notes. Currency values may be affected by complex political and economic factors, including governmental action to fix or support the value of a currency/currencies, regardless of other market forces.

(x) *Maximum Rate of Interest*

Potential investors should consider that where the underlying interest rate rises above the level of the Maximum Rate of Interest, comparable investments in notes which pay interests based on a rate which is higher than the Maximum Rate of Interest are likely to be more attractive to potential investors than an investment in the Notes. Under those conditions, investors in the Notes may find it difficult to sell their Notes on the secondary market (if any) or might only be able to realise the Notes at a price which may be substantially lower than the nominal amount.

To the extent a Maximum Rate of Interest applies, investors should be aware that the Interest Rate is capped at such Maximum Rate of Interest level. Consequently, investors may not participate in any increase of market interest rates, which may also negatively affect the market value of the Notes.

(xi) *Notes issued at a substantial discount or premium*

The market value of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(xii) *Notes subject to optional redemption by the Issuer (Issuer Call)*

An optional redemption feature of Notes (Issuer Call) is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

In respect of Notes which are conventional debt securities, the Issuer may be expected to redeem such Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(xiii) *Euro-system Eligibility*

The European Central Bank maintains and publishes a list of assets which are recognised as eligible collateral for Eurosystem monetary and intra-day credit operations. In certain circumstances, recognition may impact on (among other things) the liquidity of the relevant assets. Recognition (and inclusion on the list) is at the discretion of the Eurosystem and is dependent upon satisfaction of certain Eurosystem eligibility criteria and rules. If application is made for any Notes to be recognised and added to the list of eligible assets, there can be no assurance that such Notes will be so recognised, or, if they are recognised, that they will continue to be recognised at all times during their life.

(xiv) *Calculation Agent's Discretion and Conflicts of Interest*

Under the Terms and Conditions of the Notes, the Calculation Agent may make certain determinations in respect of the Notes, and certain adjustments to the Terms and Conditions of the Notes, which could affect amounts of interest and/or principal payable by the Issuer in respect of the Notes. The Terms and Conditions of the Notes will specify the circumstances in which the Calculation Agent will be able to make such determinations and adjustments. In exercising its right to make such determinations and adjustments the Calculation Agent is entitled to act in its sole and absolute discretion.

Where the Issuer acts as Calculation Agent or the Calculation Agent is an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and Noteholders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Notes that may influence amounts of interest and/or principal payable by the Issuer in respect of the Notes.

The Issuer may at the date hereof or at any time hereafter, be in possession of information in relation to an underlying asset that is or may be material in the context of the Notes and may or may not be publicly available to Noteholders. There is no obligation on the Issuer or, if relevant, any Manager to disclose to Noteholders any such information.

The Issuer and/or any of its affiliates may have existing or future business relationships with any underlying asset (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Noteholder.

(xv) *Risk arising from the Benchmark Regulation*

The Underlying or a Basket Constituent may qualify as a benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council dated 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark Regulation**"), most of which provisions apply since 1 January 2018. According to the Benchmark Regulation, a Benchmark could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the "equivalence" conditions, is not "recognised" pending such a decision and is not "endorsed" for such purpose. Consequently, it might be not possible to further utilise a Benchmark as Underlying or Basket Constituent of the Notes. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted.

Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise

participating in the setting of a Benchmark and complying with the Benchmark Regulation. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks, adversely affect the performance of a Benchmark or lead to the disappearance of certain Benchmarks. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Notes.

(xvi) *Future discontinuance of LIBOR and EURIBOR may adversely affect the value of the Notes*

On 27 July 2017, the Chief Executive of the United Kingdom Financial Conduct Authority, which regulates LIBOR announced that it does not intend to continue to use its powers to complete panel banks to submit rates for the calculation of LIBOR to the administrator of LIBOR after 2021. The announcement indicates that the continuation of LIBOR on the current basis is not guaranteed after 2021. It is not possible to predict whether, and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR going forward. This may cause LIBOR to perform differently than it did in the past and may have other consequences which cannot be predicted.

Investors should carefully consider that also EURIBOR may be subject, in the future, to cessations or changes in the calculation method in relation to one or more tenors, as already occurred on 14 June 2018 when the European Money Markets Institute (EMMI), the administrator of EURIBOR, approved the cessation of the 2 week, 2 month and 9 month tenors.

Investors should be aware that, if LIBOR or EURIBOR were discontinued or otherwise unavailable, the rate of interest on floating rate Notes which reference LIBOR or EURIBOR will be determined for the relevant period by the fall-back provisions applicable to such Notes. Depending on the manner in which the LIBOR or EURIBOR rate is to be determined under the Terms and Conditions, this may (i) if ISDA Determination applies, be reliant upon the provision by reference banks of offered quotations for the LIBOR or EURIBOR rate which, depending on market circumstances, may not be available at the relevant time or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR or EURIBOR were available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any floating rate Notes which reference to LIBOR or EURIBOR.

Risks related to the Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

(i) Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Agent and the Issuer may, without the consent of Noteholders, agree to (i) any modification (subject to certain specific exceptions) of the Notes or the Coupons or the Agency Agreement which is not prejudicial to the interests of the Noteholders or (ii) any modification of the Notes, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of law.

The Issuer (or any previously substituted company from time to time) shall, without the consent of the Noteholders, be entitled at any time to substitute for the Issuer any other company as principal debtor in relation to any Series of Notes subject to certain conditions precedent being satisfied. In addition, the Issuer shall have the right to change the branch through which it is acting for the purposes of any Series of Notes. Upon any such substitution of Issuer or branch, the Terms and Conditions of the Notes will be amended in all consequential respects.

(ii) The proposed European financial transactions tax

On 14 February 2013, the European Commission published a proposal (the **Commission Proposal**) for a Directive for a common financial transaction tax (**FTT**) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (each, a **participating Member State**).

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

A joint statement issued in May 2014 by ten of the eleven participating Member States indicated an intention to implement the FTT progressively, such that it would initially apply to shares and certain derivatives, with this implementation occurring by 1 January 2016.

On 27 January 2015, the Finance Ministers of Austria, Belgium, Estonia, France, Germany, Italy, Portugal, Slovakia, Slovenia and Spain issued a joint statement (the **Statement**) setting out their renewed commitment to agree on a directive implementing the FTT. The 2015 Statement notes that the FTT should be taxed on the widest possible base and at low rates. The participating Member States reiterated their “*willingness to create the conditions necessary*” to implement the FTT on 1 January 2016. However, on 16 March 2016, Estonia completed the formalities required to cease participating in the enhanced cooperation on FTT.

The FTT proposal remains subject to negotiation between the remaining participating Member States and the scope of any such tax is uncertain. It may therefore be altered prior to any implementation. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

(iii) *Taxation*

Potential purchasers and sellers of Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred and/or any asset(s) are delivered or in other jurisdictions.

In addition, it is not possible to predict whether the taxation regime applicable to Notes on the date of purchase or subscription will be amended during the term of the Notes. If such amendments are made, the taxation regime applicable to the Notes may differ substantially from the taxation regime in existence on the date of purchase or subscription of the Notes.

(iv) *No Gross Up in respect of Certain Series of Notes*

If the applicable Final Terms specify that Condition 8(ii) is applicable, the Issuer is not obliged to gross up any payments in respect of the Notes and shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

(v) *U.S. Withholding and Foreign Account Tax Compliance Act*

The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, “foreign passthru payments” (a term not yet defined) made two years after the date of publication of final U.S. Treasury Regulations defining the term “foreign passthru payment”, or later. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the “grandfathering date,” which is the date that is six months after the date on which final U.S. Treasury Regulations defining the term foreign passthru payment are filed with the Federal Register, or are issued on or before the grandfathering date and are materially modified thereafter, and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

While the Notes are in global form and held within the clearing systems, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect

payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. FATCA also may affect payment to any ultimate investor that is a financial institution not entitled to receive payments free of FATCA withholding, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary under FATCA for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Notes are discharged once it has paid the common depositary, or safekeeper, for the clearing systems (as bearer or registered holder of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the clearing systems and custodians or intermediaries. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a FATCA non-compliant holder could be subject to FATCA withholding.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from payments on the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive a lesser amount than expected. Holders of Notes should consult their own tax advisers for a more detailed explanation of FATCA and how FATCA may apply to payments they receive under the Notes.

FATCA is particularly complex and its application to the Issuer, the Notes, and investors in the Notes are uncertain at this time. The application of FATCA to "foreign passthrough payments" on the Notes or to Notes issued or materially modified after the grandfathering date may be addressed in the relevant Final Terms or a supplement to the Base Prospectus, as applicable.

On 10 January 2014, representatives of the Governments of Italy and the United States signed an intergovernmental agreement to implement FATCA in Italy (the "IGA"). The IGA entered into force on 1st July 2014. The IGA ratification law entered into force on 8 July 2015 (Law No. 95 dated 18 June 2015, published in the Official Gazette – general series No. 155, on 7 July 2015). Under these rules, the Issuer, as a reporting financial institution, will be required to collect and report certain information in respect of its account holders and investors to the Italian tax authorities, which would automatically exchange such information periodically with the U.S. Internal Revenue Service. Please consider that if the Issuer or any other relevant withholding agent determines that withholding tax is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

(vi) *U.S. Dividend Equivalent Payments*

U.S. Treasury Regulations under Section 871(m) of the Code imposing a withholding tax on certain "dividend equivalents" under certain "equity linked instruments" exclude from their scope instruments issued before calendar year 2019 that do not have a "delta of one" with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes (each an "Underlying Security"). Specifically, and subject to a pre-2021 exemption described below, Section 871(m) of the Code will apply to a financial instrument if it meets either (i) a "delta" test, if it is a "simple" contract, or (ii) a "substantial equivalence" test, if it is a "complex" contract. Section 871(m) of the Code provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations, as well as instruments that track such indices. Section 871(m) of the Code generally imposes a 30% withholding tax on dividend

equivalents paid or deemed paid to non-U.S. holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (such equities and indices, “U.S. Underlying Equities”), but equity-linked instruments issued before calendar year 2019 will be exempt unless they have a “delta” of one (meaning that the fair market value of the equity-linked instrument must replicate changes to the value of the U.S. Underlying Equities exactly) and are “simple” financial instruments. If the terms of a financial instrument issued before calendar year 2019 (that is exempt from withholding under Section 871(m) of the Code) are “significantly modified” sometime after calendar year 2020 such that the financial instrument is treated as retired and reissued for U.S. federal income tax purposes, it will lose this exemption. Section 871(m) of the Code is complex and its application may depend on your particular circumstances, including whether you enter into other transactions with respect to an Underlying Security. You should consult your tax advisor regarding the potential application of Section 871(m) of the Code to the Notes.

(vii) *The Common Reporting Standard*

The common reporting standard (“CRS”) framework was first released by the OECD in February 2014 as a result of the G20 members endorsing a global model of automatic exchange of information in order to increase international tax transparency.

On 21 July 2014, the Standard for Automatic Exchange of Financial Account Information in Tax Matters was published by the OECD and this includes the CRS. The goal of the CRS is to provide for the annual automatic exchange between governments of financial account information reported to them by local reporting financial institutions (as defined) (“FIs”) relating to account holders who are tax resident in other participating jurisdictions.

Council Directive 2011/16/EU on Administrative Co-operation in the Field of Taxation (as amended by Council Directive 2014/107/EU) (“DAC II”) implements the CRS in a European context and creates a mandatory obligation for all EU Member States to exchange financial information in respect of residents in other EU Member States on an annual basis which commenced in 2017 in respect of the 2016 calendar year (or from 2018 in the case of Austria).

At present, over 100 jurisdictions have publicly committed to implement the CRS, with 49 committed to exchange from September 2017, a further 52 taking up exchanges in September 2018, and a further 7 taking up exchanges by 2019/2020.

The Issuer (or any nominated service provider) will agree that information (including the identity any Noteholder) supplied for the purposes of CRS and DAC II compliance is intended for the purposes of satisfying CRS and DAC II requirements and the Issuer (or any nominated service provider) will agree, to the extent permitted by applicable law, that it will take reasonable steps to treat such information in a confidential manner, except that the Issuer may disclose such information (i) to its officers, directors, agents and advisors, (ii) to the extent reasonably necessary or advisable in connection with tax matters, including achieving CRS and DAC II compliance, (iii) to any person with the consent of the applicable Noteholder or (iv) as otherwise required by law or court order or on the advice of its advisors.

(viii) *Change of law*

The Terms and Conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

(ix) *Notes where denominations involve integral multiples: definitive Notes*

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

(x) *Reliance on Euroclear and Clearstream, Luxembourg procedures*

Notes issued under the Programme will be represented on issue by one or more Global Notes that may be deposited with a common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg (see "*Form of the Notes*"). Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each of Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants.

While the Notes are represented by Global Notes, the Issuer will discharge its payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

(xi) *Public offers*

If Notes are distributed by means of a public offer, under certain circumstances indicated in the relevant Final Terms, the Issuer and/or other entities specified in the Final Terms may have the right to withdraw the offer, which in such circumstances will be deemed null and void according to the terms indicated in the relevant Final Terms.

In this case, investors who have already paid or delivered subscription monies for the relevant Notes will be entitled to reimbursement of such amounts, but will not receive any interest that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Notes.

Furthermore, under certain circumstances indicated in the relevant Final Terms, the Issuer and/or the other entities specified in the Final Terms may have the right to postpone the closing of the offer period and, if so, the Issue Date of the Notes.

In this case, investors who have paid or delivered subscription monies for the relevant Notes prior to the communication of the postponement of the Issue Date will not receive any interest that would have accrued if the Notes had been issued on the original Issue Date.

(xii) United Kingdom's exit from the European Union

On 23 June 2016, the United Kingdom ("UK") held a referendum on the UK's membership of the EU. The result of the referendum's vote was to leave the EU and the UK Government invoked article 50 of the Lisbon Treaty relating to withdrawal on 29 March 2017. Under article 50, the Treaty on the European Union and the Treaty on the Functioning of the European Union cease to apply in the relevant state from the date of entry into force of a withdrawal agreement or, failing that, two years after the notification of intention to withdraw, although this period may be extended in certain circumstances.

There are a number of areas of uncertainty in connection with the future of the UK and its relationship with the European Union and the negotiation of the UK's exit terms and related matters may take several years. Given this uncertainty and the range of possible outcomes, it is not currently possible to determine the impact that the referendum, the UK's departure from the European Union and/or any related matters may have on general economic conditions in the UK and the European Union. It is also not possible to determine the impact that these matters will have on the Issuer or any other party to the transaction documents, or on the regulatory position of any such entity or of the transactions contemplated by the transaction documents under EU regulation or more generally. Risks related to the market generally.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

(i) The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

If an entity is appointed as market maker or liquidity provider or price maker in the secondary market in respect of any Notes, this may, in certain circumstances, affect the price of the Notes in the secondary market.

In the event that an entity is appointed as price maker pursuant to the Italian Securities and Exchange Commission (CONSOB) communication no. DEM/DME/9053316 of 8 June 2009 (as supplemented or amended) or in the case of agreements relating to the repurchase of the Notes at pre-determined conditions pursuant to the Italian Securities and Exchange Commission (CONSOB) resolution no. 18406 of 13 December 2012 (as supplemented or amended), the Issuer will provide the information required by the above communication and resolution, also in respect of any applicable trading commission.

(ii) *The Issuer will act as liquidity provider*

If the relevant Final Terms provide so, the Issuer may act as liquidity provider in relation to the Notes, among other things, also by publishing on his website the indicative value of the Notes determined by taking into consideration, for instance, the bid and ask prices in respect of the Notes and the hedging and/or unwinding costs. In this case, investors should take into account that such indicative value may significantly differ from the value of the Notes as quoted by other market makers and it should not be construed as the fair market price of such Notes nor as a fair estimation of consideration in respect of any disposal of such Notes.

(iii) *Exchange rate risks and exchange controls*

The Issuer will pay principal and interest on the Notes in the Specified Currency or, if Dual Currency Interest and/or Dual Currency Redemption is specified as being applicable in the Final Terms, the Issuer will pay principal and/or interest on the Notes in a currency different to the Specified Currency (the **Payment Currency**). This presents certain risks relating to currency conversion if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency and/or, as applicable, the Payment Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency and/or, as applicable, the Payment Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency and/or, as applicable, the Payment Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The above risks may be increased for currencies of emerging market jurisdictions.

(iv) *Interest rate risks*

Investment in Notes bearing Fixed Rate Interest involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes. Investment in Notes bearing Floating Rate Interest involves the risk that interest rates may vary from time to time, resulting in variable interest payments to Noteholders.

(v) *Credit ratings may not reflect all risks*

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in

accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by the European Securities and Markets Authority (**ESMA**) in accordance with the CRA Regulation is not a conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between the publication of the updated ESMA list and certain supervisory measures being taken against the relevant rating agency. If any credit ratings are assigned to the Notes, certain information with respect to the relevant credit rating agencies and ratings will be disclosed in the Final Terms.

Any decline in the credit ratings of the Issuer may affect the market value of the Notes

The credit ratings of the Issuer are an assessment of its ability to pay its obligations, including those on the Notes. Consequently, actual or anticipated declines in the credit ratings of the Issuer may affect the market value of the Notes.

Legal risks

Legal investment considerations may restrict certain investments

Each prospective purchaser of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its (or if it is acquiring the Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or if it is acquiring the Notes in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. Potential investors should consult with their own tax, legal, accounting and/or financial advisers before considering investing in the Notes.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

No reliance

A prospective purchaser may not rely on the Issuer, the Managers, if any, or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above. None of the Issuer, the Managers, if any, or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

Risks relating to holding CREST Depository Interests

CREST Depository Interests are separate legal obligations distinct from the Notes and holders of CREST Depository Interests will be subject to provisions outside the Notes

Holders of CDIs (**CDI Holders**) will hold or have an interest in a separate legal instrument and will not be holders of the Notes in respect of which the CDIs are issued (the **Underlying Notes**). The rights of

CDI Holders to the Notes are represented by the relevant entitlements against the CREST Depository (as defined herein) which (through the CREST Nominee (as defined herein)) holds interests in the Notes.

Accordingly, rights under the Underlying Notes cannot be enforced by CDI Holders except indirectly through the intermediary depositaries and custodians. The enforcement of rights under the Notes will be subject to the local law of the relevant intermediaries. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Notes in the event of any insolvency or liquidation of any of the relevant intermediaries, in particular where the Notes held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer, including the CREST Deed Poll (as defined herein). Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual (as defined herein) and the CREST Rules (as defined herein) contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository. CDI Holders are bound by such provisions and may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of, and returns received by, CDI Holders may differ from those of holders of Notes which are not represented by CDIs.

In addition, CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Notes through the CREST International Settlement Links Service. Potential investors should note that none of the Issuer, the relevant Manager and the Paying Agents will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

For further information on the issue and holding of CDIs see the section entitled "*Clearing and Settlement*" in this Base Prospectus.

Any statement contained herein or in a document which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Base Prospectus to the extent that a statement contained in any such subsequent document which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Base Prospectus.

Any non-incorporated parts of a document referred to herein are either deemed not relevant for an investor or are otherwise covered elsewhere in this Base Prospectus.

Copies of documents incorporated by reference in this Base Prospectus can be obtained from the registered office of the Issuer and from the specified offices of the Paying Agent for the time being in Luxembourg.

The Issuer will in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus, which is capable of affecting the assessment of any Notes, prepare a supplement to this Base Prospectus, which supplement will be approved by the Central Bank of Ireland in accordance with Article 16 of the Prospectus Directive, or publish a new prospectus for use in connection with any subsequent issue of Notes.

FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest Coupons attached (**Bearer Notes**), or registered form, without Coupons attached (**Registered Notes**). Registered Notes will not be exchangeable for Bearer Notes and *vice versa*.

Bearer Notes

The applicable Final Terms will specify whether the TEFRA D Rules or the TEFRA C Rules are applicable in relation to the Bearer Notes, provided that if the Notes do not have a maturity of more than 365 days, the applicable Final Terms will specify that the TEFRA Rules are not applicable.

An issuance of Notes to which the TEFRA C Rules apply may initially be represented by a permanent global note (a **Permanent Bearer Global Note**) or a temporary bearer global note (a **Temporary Bearer Global Note**) (Permanent Bearer Global Notes and Temporary Bearer Global Notes are referred to collectively herein as **Bearer Global Notes**). In all other cases, each Tranche of Notes with a maturity of more than 365 days will be initially issued in the form of a Temporary Bearer Global Note. In either case, the Bearer Global Notes will:

- (i) if the Bearer Global Notes are intended to be issued in new global note (**NGN**) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking, S.A. (**Clearstream, Luxembourg**); and
- (ii) if the Bearer Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg.

If the Notes are intended to be held in a manner which would allow Eurosystem eligibility, this will mean that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper (and, in case of registered notes, registered in the name of a nominee of one of the ICSDs acting as common safekeeper) and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global Note (if the Temporary Bearer Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not United States persons or persons who have purchased for resale directly or indirectly to any United States person or to a person within the United States or its possessions, as required by U.S. Treasury Regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein for interests in a Permanent Bearer Global Note of the same Series against certification of beneficial ownership in accordance with U.S. Treasury Regulations, as described above

unless such certification has already been given. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Bearer Global Note (if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

A Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached (1) upon not less than 60 days' written notice given to the Agent by Euroclear and/or Clearstream, Luxembourg acting on the instructions of any holder of an interest in this Global Note or (2) upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) and have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available, or (iii) as a result of a change in law, the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 15 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Agent.

The following legend will appear on all Bearer Notes (other than Temporary Bearer Global Notes) with a maturity of more than 365 days and on all and interest coupons relating to such Notes:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes or interest coupons.

Registered Notes

Registered Notes of each Tranche will initially be represented by a global note in registered form, without Receipts or Coupons, (a **Registered Global Note**) which will be deposited with a common depository for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg or, in the case of Registered Global Notes issued under the new global note structure, registered in the name of a nominee of one of the International Central Securities Depositories acting as Common Safekeeper, as specified in the applicable Final Terms. Prior to expiry of the Distribution Compliance Period applicable to each Tranche of the Notes, beneficial interests in a Registered Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 1 of the Terms and Conditions of the Notes and such Registered Global Note will bear a legend regarding such restrictions on transfer.

For so long as any of the Notes is represented by a Registered Global Note issued under the new global note structure and held by a Common Safekeeper on behalf of Euroclear and/or Clearstream, Luxembourg, each person who is for the time being shown in the records of Euroclear and/or Clearstream, Luxembourg as entitled to a particular nominal amount of Notes shall be deemed to be the holder of such nominal amount of Notes for all purposes other than with respect to the payment of principal, premium (if any), interest or other amounts on such Notes, for which purpose the registered holder (as shown in the Register) of the relevant Registered Global Note, such Common Safekeeper, shall be deemed to be the holder of such nominal amount of Notes in accordance with and subject to the terms of the relevant Registered Global Note and the expressions "Noteholder" and "Noteholders" and related expressions shall be construed accordingly. Transfers of beneficial interests in the underlying Registered Notes represented by a Registered Global Note will be effected only through the book-entry system maintained by Euroclear and/or Clearstream, Luxembourg.

Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under certain circumstances, to receive physical delivery of definitive Notes in fully registered form.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will be made to the persons shown on the Register (as defined in Condition 1(a) of the Terms and Conditions of the Notes) as the registered holder of the Registered Global Notes. None of the Issuer any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 4(i) of the Terms and Conditions of the Notes) immediately preceding the due date for payment in the manner provided in that Condition. A Registered Note in definitive form may be transferred by the transferor or a person duly authorised on behalf of the transferor (i) surrendering the Registered Note, and (ii) depositing at the specified office of the Registrar a duly completed transfer certificate (a **Transfer Certificate**) in the form set out in the Agency Agreement (copies of which are available from the Registrar) signed by or on behalf of the transferor. The Registrar shall, after due and careful enquiry, and upon being satisfied with the documents of title and the identity of the person making the request, subject to the regulations set out under the Agency Agreement, enter the name of the transferee in the Register for the definitive Registered Notes as the noteholder of the Registered Notes specified in the form of transfer.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without Receipts, Coupons or Talons attached upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available, or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 15 of the Terms and Conditions of the Notes if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than ten days after the date of receipt of the first relevant notice by the Registrar.

General

Notes which are represented by a Bearer Global Note or Registered Global Note (together, a **Global Note**) will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Notes*"), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then the Global Note will become void at 8.00 p.m. (London time) on such day and, in the case of Notes represented by a Registered Global Note, the corresponding entry in the Register kept by the Registrar will become void. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and/or Clearstream, Luxembourg on and subject to the terms of a deed of covenant (the **Deed of Covenant**) dated on or about 17 December 2018 and executed by the Issuer.

Crest Depository Interests

Investors may also hold interests in the Notes indirectly through Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) (**CREST**) through the issuance of dematerialised depository interests (**CREST Depository Interests** or **CDIs**) issued, held, settled and transferred through CREST, representing interests in the relevant Notes in respect of which the CDIs are issued (the **Underlying Notes**). CREST Depository Interests are independent securities distinct from the Notes, constituted under English law and transferred through CREST and will be issued by CREST Depository Limited (the **CREST Depository**) pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated) (the **CREST Deed Poll**). See "*Clearing and Settlement*" for more information regarding holding CDIs.

APPLICABLE FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes issued under the Programme.

Notes may also provide for a Maximum Rate of Interest (also referred to as the **Maximum Rate**) or a Minimum Rate of Interest (also referred to as the **Minimum Rate**), determined in accordance with Condition 3(i) below.*

Interest calculated by reference to a structured rate (**Structured Rate Interest**) will be payable in respect of each Interest Period as set out in this Condition 3(a).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest

Payment Date shall be brought forward to the immediately preceding Business Day; or

- (3) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Therefore, once the Basket Constituent has been selected in relation to a Himalaya Valuation Period, it will not be taken into account for the following Himalaya Valuation Period(s) relating to the same Call Interest Payment Date. On each such subsequent Himalaya Valuation Period, other best performing Basket Constituents will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same Call Interest Payment Date. As a result, for the purposes of the calculation of the Call Performance, the Calculation Agent will consider the arithmetic mean of the performance of the Basket Constituents having the best Performances in the relevant Himalaya Valuation Periods according to the selection process described above in this definition.

I-2:

Call Interest provides exposure, to the extent of the relevant Participation Factor, to the performance of an Underlying, calculated as a single value (if the applicable Final Terms specify as applicable European Call Option) or calculated as an arithmetic mean (if the applicable Final Terms specify as applicable Asian Call Option).

Each Call Interest Amount will be paid to the Noteholder in arrear on the relevant Call Interest Payment Date. The Maturity Date may fall on the same day as the Call Interest Payment Date or, if there is more than one Call Interest Payment Date, it may fall on one of the Call Interest Payment Dates.

The applicable Final Terms will specify whether, in relation to one or more Call Interest Amounts, the Maximum Rate and/or the Minimum Rate, the Best Of Option, the Worst Of Option, the Rainbow Option and/or the Cliquet Option are applicable.

Call Interest Amounts may be equal to zero, depending on the performance of the relevant Underlying and on the Minimum Rate of Interest (if applicable pursuant to the relevant Final Terms).

I-3:

The amount of each Call Interest Amount will be calculated by the Calculation Agent in accordance with the applicable formula set out in paragraph I-4, where such amount shall be rounded to the nearest EUR cent, (with 0.005 EUR being rounded upwards) and it will be equal to the product of (A) the Nominal Amount, (B) the lower of (i) the Maximum Rate (if applicable); and (ii) the higher of (x) the Minimum Rate (if applicable) and (y) the Call Performance multiplied by the Participation Factor and increased or decreased by the Margin (if applicable) and (C) the Day Count Fraction.

Whether or not the Call Option is applicable (and, as a result, whether the Call Performance will be calculated) may depend on the occurrence, respectively, of a Knock-in Event or a Knock-out Event, if so specified in the applicable Final Terms.

The Participation Factor may be equal to, lower than or higher than 1 (100%) or equal to 0. In the case the Participation Factor is equal to 100%, the Call Interest Amount will depend upon the total performance of the Underlying. Conversely, if the applicable Participation Factor is lower than 100%, the Call Interest Amount will depend upon a fraction of the performance of the Underlying. Finally, if the applicable Participation Factor is higher than 100%, the Call Interest Amount will depend upon a multiple of the performance of the Underlying;

more periods specified in the applicable Final Terms. In such case, the Worst Performance will be determined as follows:

- i. the Calculation Agent will determine the performance of the Underlying or Basket, for the periods specified in the applicable Final Terms, in accordance with the formulas specified above at paragraph 1(A) for single Underlyings and at paragraph 2(A) for Baskets (the **Single Call Performance**);
- ii. the Calculation Agent will then sort such performances in ascending order, from the lowest value to the highest;
- iii. the Worst Performance will be the performance, in such ascending order, that matches the number specified in the applicable Final Terms in relation to the Worst Of Option. By way of example, if the Final Terms provide for the application of the First Worst Of Option, the Worst Performance will be the lowest Single Call Performance of those determined for the periods specified in the applicable Final Terms; if the applicable Final Terms provide for the application of the Second Worst Of Option, the Worst Performance will be the second lowest Single Call Performance of those determined for the periods specified in the applicable Final Terms, and so forth.

(B) *If the Call Interest is linked to two or more Underlyings or two or more Baskets:*

(B₁) *if European Call Option is applicable*, the performance calculated as the value of the Underlying with the "n" lowest performance (where "n" may be the first, the second, the third and so forth worst performance) (the **Worst Performance SV**) of all the Underlyings or Baskets. The Worst Performance SV will be determined as follows:

- i. the Calculation Agent will determine the performance of each Underlying or Basket in accordance with the formulas specified above at paragraph 1(A) for single Underlyings and at paragraph 2(A) for Baskets (the **European Worst Of Calculated Performance**);
- ii. the Calculation Agent will then sort such performances in ascending order, from the lowest value to the highest;
- iii. the Worst Performance SV will be the performance calculated as the value of the Underlying or Basket whose performance, in such ascending order, matches the number specified in the applicable Final Terms in relation to the Worst Of Option. By way of example, if the Final Terms provide for the application of the First Worst Of Option, the Worst Performance SV will be the performance of the Underlying or Basket with the worst European Worst of Calculated Performance compared to the other Underlyings or Baskets; if the Final Terms provide for the application of the Second Worst Of Option, the Worst Performance SV will be the performance of the Underlying or Basket with the second worst European Worst Of Calculated Performance compared to the other Underlyings or Baskets, and so forth.

- with the formulas specified above at paragraph 1(B) for single Underlyings and at paragraph 2(B) for Baskets (the **Asian Worst Of Calculated Performance**);
- ii. the Calculation Agent will then sort such performances in ascending order, from the lowest value to the highest;
- iii. the Worst Performance AM will be the performance calculated as the arithmetic mean of the performance of the Underlying or Basket whose performance, in such ascending order, matches the number specified in the applicable Final Terms in relation to the Worst Of Option. By way of example, if the Final Terms provide for the application of the First Worst Of Option, the Worst Performance AM will be the performance of the Underlying or Basket with the worst Asian Worst Of Calculated Performance compared to the other Underlyings or Baskets; if the Final Terms provide for the application of the Second Worst Of Option, the Worst Performance AM will be the performance of the Underlying or Basket with the second worst Asian Worst Of Calculated Performance compared to the other Underlyings or Baskets, and so forth.

5) If the **Himalaya Option** is applicable (where the *Call Interest* is linked to a *Basket*):

The relevant performance will be calculated by reference to the arithmetic average of the Performances of the Basket Constituents (each **Performance** of the Basket Constituent will be determined according to paragraph 1(A) or 1(B) above as the case may be and as specified in the relevant Final Terms) having the best performance for each relevant Himalaya Valuation Period but provided that, once a Basket Constituent has been determined to have the best performance for any Himalaya Valuation Period, such Basket Constituent's performance shall be disregarded for each subsequent Himalaya Valuation Period relating to the same Call Interest Payment Date (but shall not be disregarded in respect of subsequent Call Interest Payment Dates). As such, amounts due are not directly linked to any one Basket Constituent(s) and the positive performance of some Basket Constituent(s) may be offset by the negative performance of other Basket Constituent(s), particularly as a consistently high performing Basket Constituent will only have the first occurrence of its best performance (compared to other Basket Constituents) included in the calculation of the arithmetic average performance for the relevant Call Interest Payment Date.

Therefore, once the Basket Constituent has been selected in relation to a Himalaya Valuation Period, it will not be taken into account for the following Himalaya Valuation Period(s) relating to the same Put Interest Payment Date. On each such subsequent Himalaya Valuation Period, other best performing Basket Constituents will be selected and removed from the Basket for each subsequent Himalaya Valuation Period(s) relating to the same Put Interest Payment Date. Each Put Interest Amount will be paid to the Noteholder in arrear on the relevant Put Interest Payment Date. The Maturity Date may fall on the same day as the Put Interest Payment Date or, if there is more than one Put Interest Payment Date, it may fall on one of the Put Interest Payment Dates.

The applicable Final Terms will specify whether, in relation to one or more Put Interest Amounts, the Maximum Rate and/or the Minimum Rate, the Best Of Option, the Worst Of Option, the Rainbow Option and the Cliquet Option are applicable.

The Put Interest Amount may be equal to zero, depending on the performance of the relevant Underlying and on the Minimum Rate of Interest (if applicable pursuant to the relevant Final Terms).

II-3:

The amount of each Put Interest Amount will be calculated by the Calculation Agent in accordance with the applicable formula set out in paragraph II-4, where such amount shall be rounded to the nearest EUR cent (with 0.005 EUR being rounded upwards) and it will be equal to the product of (A) the Nominal Amount, (B) the lower of (i) the Maximum Rate (if applicable); and (ii) the higher of (x) the Minimum Rate (if applicable) and (y) the Put Performance multiplied by the Participation Factor and increased or decreased by the Margin (if applicable) and (C) the Day Count Fraction.

- ii. the Calculation Agent will then sort such performances in ascending order, from the lowest value to the highest;
- iii. the Worst Performance AM will be the performance calculated as the arithmetic mean of the performance of the Underlying or Basket whose performance, in such ascending order, matches the number specified in the applicable Final Terms in relation to the Worst Of Option. By way of example, if the Final Terms provide for the application of the First Worst Of Option, the Worst Performance AM will be the performance of the Underlying or Basket with the worst Asian Worst Of Calculated Performance compared to the other Underlyings or Baskets; if the Final Terms provide for the application of the Second Worst Of Option, the Worst Performance AM will be the performance of the Underlying or Basket with the second worst Asian Worst Of Calculated Performance compared to the other Underlyings or Baskets, and so forth.

5) If the **Himalaya Option** (where the Put Interest is linked to a Basket) is applicable:

The relevant performance is calculated by reference to the arithmetic average of the Performances of the Basket Constituents (each **Performance** of the Basket Constituent will be determined according to paragraph 1(A) or 1(B) above as the case may be and as specified in the relevant Final Terms) having the best performance for each relevant Himalaya Valuation Period but provided that, once a Basket Constituent has been determined to have the highest performance for any Himalaya Valuation Period, such Basket Constituent's performance shall be disregarded for each subsequent Himalaya Valuation Period relating to the same Put Interest Payment Date (but shall not be disregarded in respect of subsequent Put Interest Payment Dates). As such, amounts due are not directly linked to any one Basket Constituent(s) and the positive

performance of some Basket Constituent(s) may be offset by the negative performance of other Basket Constituent(s), particularly as a consistently high performing Basket Constituent will only have its first-occurring highest performance included in the calculation of the arithmetic average performance for the relevant Put Interest Payment Date.

III. DIGITAL INTEREST

III-1: For the purposes of this sub-paragraph III:

Reload Effect means that where such effect applies, on each Digital Interest Payment Date following the Digital Interest Payment Date in respect of which a Digital Condition has been satisfied (such a Digital Interest Payment Date in respect of which a Digital Condition has been satisfied, a **Reloaded Digital Interest Payment Date**), the Noteholder will receive a Digital Interest Amount equal to the Digital Interest Amount paid in respect of the Reloaded Digital Interest Payment Date.

The Notes will not provide simultaneously for the Consolidation Effect and the Reload Effect to apply.

III-2:

Where Digital is applicable, a fixed rate of interest will be paid on the relevant Digital Interest Payment Date equal to (i) Digital Rate 1 if the Digital Condition in relation to the Digital Interest Period has been satisfied or (ii) Digital Rate 2 if the Digital Condition in relation to the Digital Interest Period has not been satisfied.

Each Digital Interest Amount will be paid to the Noteholder in arrear on the relevant Digital Interest Payment Date. The Maturity Date may fall on the Digital Interest Payment Date or, if there is more than one Digital Interest Payment Date, it may fall on one of the Digital Interest Payment Dates.

If so provided in the applicable Final Terms, on the same Digital Interest Payment Date, the Noteholder shall have the right to receive an additional Digital Interest Amount linked to a different Digital Condition and whose payment will not depend upon the occurrence of the first Digital Condition.

The applicable Final Terms will specify whether, in relation to one or more Digital Interest Period, the Consolidation Effect, or the Memory Effect, or the Reload Effect are applicable.

III-3:

The amount of each Digital Interest Amount will be calculated by the Calculation Agent in accordance with the applicable formula set out in paragraph III-4, where such amount shall be rounded to the nearest EUR cent (with 0.005 EUR being rounded upwards) and it will be equal to the product of (A) the Nominal Amount, (B) Digital Rate 1 or Digital Rate 2, as the case may be, and (C) the Day Count Fraction.

III-4:

The formulas applicable to the calculation of Digital Interest Amounts are as follows:

- (i) If the Digital Condition has occurred in respect of a Digital Interest Period:

$$C = NA \times \text{Digital Rate 1} \times \text{Day Count Fraction}$$

- (ii) If the Digital Condition has not occurred in respect of a Digital Interest Period:

$$C = NA \times \text{Digital Rate 2} \times \text{Day Count Fraction}$$

Where

C means the Digital Interest Amount;

NA means the Nominal Amount specified in the applicable Final Terms;

Day Count Fraction means the day count fraction specified in the applicable Final Terms. For avoidance of doubt, the day count fraction may be the same for both the Digital Rates or differ in relation to each Digital Rate, as specified in the relevant Final Terms.

Digital Rate 1 and **Digital Rate 2** will be a fixed rate of interest specified in the applicable Final Terms depending upon the satisfaction or the non-satisfaction of a Digital Condition. Digital Rate 1, Digital Rate 2 and the Digital Condition might change for each Digital Interest Period;

Digital Condition may be, for each Digital Interest Period, a condition:

- 1) *linked to the performance of a single Underlying or Basket* (the **Single Performance Condition**)

The Single Performance Condition will be satisfied if the Performance of a single Underlying or Basket

- (A) is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**), or
- (B) falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

The **Performance** will be calculated as a Single Performance or a Basket Performance in accordance with the following method:

- (a) in the case of a single Underlying, the Performance (**Single Performance_(i)**), will be calculated as a value or as an arithmetic mean in accordance with one of the following formulas as specified in the applicable Final Terms:

$$\text{Single Performance}_{(i)} = \frac{\text{Underlying}_{(i)}^{\text{Final}} - P \times \text{Underlying}_{(i)}^{\text{Initial}}}{\text{Underlying}_{(i)}^{\text{Initial}}}$$

or

$$\text{Single Performance}_{(i)} = \frac{\text{Underlying}_{(i)}^{\text{Final Average}} - P \times \text{Underlying}_{(i)}^{\text{Initial Average}}}{\text{Underlying}_{(i)}^{\text{Initial Average}}}$$

or

$$\text{Single Performance}_{(i)} = \frac{\text{Underlying}_{(i)}^{\text{Final Average}} - P \times \text{Underlying}_{(i)}^{\text{Initial}}}{\text{Underlying}_{(i)}^{\text{Initial}}}$$

or

$$\text{Single Performance}_{(i)} = \frac{\text{Underlying}_{(i)}^{\text{Final}} - P \times \text{Underlying}_{(i)}^{\text{Initial Average}}}{\text{Underlying}_{(i)}^{\text{Initial Average}}}$$

Where

P means the multiplier specified in the applicable Final Terms as the Multiplier Factor;

Underlying_(i)^{Final} means the Final Reference Value of the relevant Underlying;

Underlying_(i)^{Initial} means the Initial Reference Value of the relevant Underlying;

Underlying_(i)^{Final Average} means the arithmetic mean of the Interim Final Reference Values of the relevant Underlying; and

Underlying_(i)^{Initial Average} means the arithmetic mean of the Interim Initial Reference Values of the relevant Underlying;

- (b) in the case of a single Basket, the weighted average of the performances of each Basket Constituent (**Basket Performance_(i)**), will be calculated in accordance with the following formula:

$$\text{Basket Performance}_{(i)} \text{ SV} = \sum_{i=1}^n \text{Single Performance}_{(i)} \text{ SV} \times W_{(i)}$$

Where:

n means the number of the Basket Constituents;

Single Performance_(i)SV means the performance calculated as a value of each Basket Constituent in accordance with the formula specified above at paragraph 1(a);

W_(i) means the Basket Constituent Weight. The Basket Constituent Weight will be a percentage specified in the applicable Final Terms;

- 2) *linked to the performance of a number of Underlyings specified in the applicable Final Terms* (the **Podium Performance Condition**)

In the case of more than one Underlying or Basket, the Podium Performance Condition occurs when the Single Performance Condition has been satisfied at least in relation to the number ("N") of such Underlyings or Baskets specified in the applicable Final Terms. The Single Performance Condition is considered as having occurred in one of the following cases, as specified in the applicable Final Terms:

- (A) the Single Performance of at least N Underlyings or the Basket Performance of at least N Baskets is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms; or
- (B) the Single Performance of at least N Underlyings or the Basket Performance of at least N Baskets falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

By way of example, if the applicable Final Terms provide for five Underlyings and the Podium Performance Condition is specified as being satisfied if the Single Performance of at least three Underlyings is higher than the relevant Barrier Level, the Podium Performance Condition will be satisfied if the Single Performances of three Underlyings out of five are higher than the relevant Barrier Level.

The Single Performance and/or the Basket Performance will be determined in accordance with the formulas specified at paragraphs 1(a) and 1(b) of this paragraph III.

- 3) *linked to the difference between the performance of two Underlyings* (the **Spread Performance Condition**)

The Spread Performance Condition will be satisfied when the difference between the Single Performance of an Underlying or the Basket Performance of a Basket (the **Underlying 1** or the **Basket 1**) and the Single Performance of another Underlying or another Basket Performance of a Basket (the **Underlying 2** or the **Basket 2**) (such difference, the **Spread Performance**) is:

- (A) higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a percentage (the **Barrier Level**) specified in the applicable Final Terms; or
- (B) falls within a range of percentages (the **Reference Range**) specified in the applicable Final Terms.

The Single Performance and/or the Basket Performance will be determined in accordance with the formula specified at paragraphs 1(a) and 1(b) of this paragraph III.

- 4) *linked to the Reference Value of a single Underlying/Basket* (the **Single Reference Value Condition**)

The Single Reference Value Condition will be satisfied when the Reference Value of a single Underlying or Basket, on the relevant Digital Observation Date(s) or at any time during a Digital Observation Period (as specified in the applicable Final Terms):

- (A) is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms; or
- (B) falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

5) *linked to the Reference Values of a number of Underlyings or Baskets specified in the applicable Final Terms* (the **Podium Reference Value Condition**)

In the case of more than one Underlying or Basket, the Podium Reference Value Condition will be satisfied when the Single Reference Value Condition has been satisfied, on the relevant Digital Observation Date(s) or at any time during a Digital Observation Period (as specified in the applicable Final Terms), at least in relation to the number ("N") of such Underlyings or Baskets specified in the applicable Final Terms. The Single Reference Value Condition is considered as satisfied in one of the following cases as specified in the applicable Final Terms:

- (A) the Single Reference Value of at least N Underlyings or Baskets is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms; or
- (B) the Single Reference Value of at least N Underlyings or Baskets falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

By way of example, if the applicable Final Terms provide for five Underlyings and the Podium Reference Value Condition is specified as having been satisfied if the Single Reference Value of at least three Underlyings is higher than the Barrier Level, the Podium Reference Value Condition will be satisfied if the Single Reference Values of three Underlyings out of five are higher than the relevant Barrier Level.

6) *linked to the difference between the Reference Values of two Underlyings* (the **Spread Reference Value Condition**)

The Spread Reference Value Condition is satisfied when the difference between the Single Reference Value of an Underlying or Basket (the **Underlying 1** or the **Basket 1**) and the Single Reference Value of another Underlying or Basket (the **Underlying 2** or the **Basket 2**) (such difference, the **Spread Reference Value**) on the relevant Digital Observation Date(s) or at any time during a Digital Observation Period (as specified in the applicable Final Terms) is:

- (A) higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms; or
- (B) falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

7) *linked to the best performance a single Underlying or a single Basket* (the **Single Best Of Performance Condition**):

The Single Best Of Performance Condition will be satisfied if the Best Performance of a single Underlying or Basket

- (A) is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms, or
- (B) falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

For the purposes of this paragraph, the **Best Performance** is the "n" highest performance (where "n" may be the first, the second, the third and so forth best performance) of the Underlying or Basket selected by the Calculation Agent from among the performances of the Underlying or Basket determined for two or more periods specified in the applicable Final Terms. The Best Performance will be determined as follows:

- i. the Calculation Agent will determine the performance of the Underlying or Basket, for the periods specified in the applicable Final Terms, in accordance with the formulas specified above at paragraph 1(a) for single Underlyings and at paragraph 1(b) for Baskets;
- ii. the Calculation Agent will then sort such performances in descending order, from the highest value to the lowest;
- iii. the Best Performance will be the performance, in such descending order, that matches the number specified in the applicable Final Terms in relation to the Best Of Option. By way of example, if the Final Terms provide for the application of the First Best Of Option, the Best Performance will be the best performance of the Underlying or Basket among those determined for the periods specified in the applicable Final Terms; if the applicable Final Terms provide for the application of the Second Best Of Option, the Best Performance will be the second best performance of the Underlying or Basket among those determined for the periods specified in the applicable Final Terms, and so forth.

8) *linked to the worst performance a single Underlying or a single Basket* (the **Single Worst Of Performance Condition**):

The Single Worst Of Performance Condition will be satisfied if the Worst Performance of a single Underlying or Basket

- (A) is higher than and/or equal to, or lower than and/or equal to (as specified in the applicable Final Terms) a value (the **Barrier Level**) specified in the applicable Final Terms, or
- (B) falls within a range of values (the **Reference Range**) specified in the applicable Final Terms.

For the purposes of this paragraph, the **Worst Performance** is the "n" worst performance (where "n" may be the first, the second, the third and so forth worst performance) of the Underlying or Basket selected by the Calculation Agent among the performances of the Underlying or Basket determined for two or more periods specified in the applicable Final Terms. In such case, the Worst Performance will be determined as follows:

- i. the Calculation Agent will determine the performance of the Underlying or Basket, on the periods specified in the applicable Final Terms, in accordance with the formulas specified above at paragraph 1(a) above for single Underlyings and at paragraph 1(b) above for Baskets;
- ii. the Calculation Agent will then sort such performances in ascending order, from the lowest value to the highest;
- iii. the Worst Performance will be the performance, in such ascending order, that matches the number specified in the applicable Final Terms in relation to the Worst Of Option. By way of example, if the Final Terms provide for the application of the First Worst Of Option, the Worst Performance will be the lowest performance of the Underlying or Basket among those determined on the periods specified in the applicable Final Terms; if the applicable Final Terms provide for the application of the Second Worst Of Option, the Worst Performance will be the second lowest performance of the Underlying or Basket among those determined on the periods specified in the applicable Final Terms, and so forth.

IV. RANGE ACCRUAL INTEREST

IV-I: For the purposes of this sub-paragraph IV:

Fluctuation Range means a range of values that is to be considered in relation to the Reference Value (which may be inside or outside such range) for the purposes of the calculation of the Range Accrual Interest Amount in accordance with the applicable calculation formula. The Final Terms will specify (i) the values constituting such Fluctuation Range, or (ii) the percentages of the values constituting such Fluctuation Range to be determined as set out in the relevant Final Terms. For avoidance of doubt, the Fluctuation Range is always denominated in the same currency used for the determination of the Reference Values (even where this is a different currency from the Specified Currency). As specified in the relevant Final Terms, the lowest value of the Fluctuation Range may be equal to, or lower than, zero;

In Range Days means, in relation to a Range Accrual Interest Amount, the ratio between (i) the number of days within the Reference Period on which the Reference Value falls inside the relevant Fluctuation Range and (ii) the total number of days that constitutes the Reference Period, Expressed as formula as follows:

$$\text{In Range Days} = \frac{n}{N}$$

Where:

"n" means the number of days within the relevant Reference Period on which the Reference Value falls inside the relevant Fluctuation Range. In order to determine "n", when the Reference Value falls within the relevant Fluctuation Range, the applicable Final Terms will specify whether such Reference Value will also be considered as inside the relevant Fluctuation Range in respect of the immediately following day(s) that are not Business Day(s) (therefore, whether such day(s) will be counted as "n" day(s)); similarly, if the Reference Value on a Business Day falls outside the relevant Fluctuation Range, the applicable Final Terms will specify whether such Reference Value will also be considered as outside the relevant Fluctuation Range in respect of the immediately following day(s) that are not Business Day(s); and

"N" means the total number of days (or Business Days, as specified in the applicable Final Terms) in the relevant Reference Period.

In Range Yield means the interest rate specified in the Final Terms, used for the calculation of the Range Accrual Interest Amount for the days when the Reference Value, in relation to the relevant Range Accrual Interest Period, is within the relevant Fluctuation Range.

Such interest rate will be, as specified in the applicable Final Terms, a fixed rate, or a floating rate (such as the yield of government securities, interbank offered rates, swap rates, specified in the Final Terms and determined in accordance with such Final Terms) as increased or reduced by the Margin (if so specified in the relevant Final Terms), or a rate equal to zero. Where the In Range Yield is a floating rate, the Out Range Yield will not be the same floating rate specified for the In Range Yield.

If the In Range Yield is zero, the Out Range Yield will be greater than zero.

If the In Range Yield is a fixed rate, such rate may be identical or different in relation to each Range Accrual Interest Period.

Margin means the percentage to be added or to be subtracted (as specified in the applicable Final Terms) to the In Range Yield or Out Range Yield.

The Margin may be the same throughout all the Range Accrual Interest Periods, or it may change in relation to each Range Accrual Interest Period, as specified in the applicable Final Terms;

Out Range Days means, in relation to a Range Accrual Interest Amount, the ratio between (i) the number of days within the Reference Period on which the Reference Value of the Reference Rate falls outside the relevant Fluctuation Range and (ii) the total number of days that constitutes the Reference Period, expressed as a formula as follows:

$$\text{Out Range Days} = \frac{(N - n)}{N}$$

Where:

"n" means the number of days within the relevant Reference Period on which the Reference Value falls inside the relevant Fluctuation Range. In order to determine "n", when the Reference Value falls within the relevant Fluctuation Range, the applicable Final Terms will specify whether such Reference Value will also be considered as inside the relevant Fluctuation Range in respect of the immediately following day(s) that are not Business Day(s) (therefore, whether such day(s) will be counted as "n" day(s)); similarly, if the Reference Value on a Business Day falls outside the relevant Fluctuation Range, the applicable Final Terms will specify whether such Reference Value will also be considered as outside the relevant Fluctuation Range in respect of the immediately following day(s) that are not Business Day(s); and

"N" means the total number of days (or Business Days, as specified in the applicable Final Terms) in the relevant Reference Period.

Out Range Yield means the interest rate specified in the Final Terms used for the calculation of the Range Accrual Interest Amount for the days when the Reference Value, in relation to the relevant Range Accrual Interest Period, is outside the relevant Fluctuation Range.

Such interest rate will be, as specified in the Final Terms, a fixed rate, or a floating rate (such as the yield of government securities, interbank offered rates, swap rates specified in the Final Terms and determined in accordance with such Final Terms) increased or reduced by the Margin (if so specified in the relevant Final Terms), or a rate equal to zero. Where the Out Range Yield is a floating rate, the In Range Yield will not be the same floating rate that represents the Out Range Yield.

If the Out Range Yield is zero, the In Range Yield will be greater than zero.

If the Out Range Yield is a fixed rate, such rate may be identical or different in relation to each Range Accrual Interest Period.

Range Accrual Interest Amount means the interest amount determined as specified in this paragraph;

Range Accrual Interest Payment Date means one or more Business Day(s), specified in the applicable Final Terms, on which the Issuer shall pay, in arrear the Range Accrual Interest Amounts;

Reference Period means the period during which the level of the Reference Value will be determined, for the purposes of the calculation of the Range Accrual Interest Amount pursuant to the relevant calculation formula. The Reference Period will be specified in the Final Terms; and

Reference Value means, in relation to a Range Accrual Interest Amount, to the Underlying(s) and to any day within the relevant Reference Period, the value on such day, or the differential between the values of two Underlyings determined on such day or the differential between the values determined on different days of the Underlying which will be (i) *in the case of a Basket Constituent or single Underlying*, published by the Information Source specified in the Final Terms or, if the Information Source is not available, as determined in accordance with the Final Terms or (ii) *in the case of a Basket*, determined in accordance with the definition of "Basket Calculation".

IV-2:

Where Range Accrual Interest is applicable, payment of interest (at the rate of interest specified in the Final Terms) will depend on whether the Reference Value of the Underlying (or the Reference Values of more than one Underlying, or the difference between the Reference Values of two Underlyings) falls inside or outside the relevant Fluctuation Range. In the first case, the interest rate will be equal to the In Range Yield specified in the applicable Final Terms; in the second case, the interest rate will be equal to the Out Range Yield specified in the applicable Final Terms.

The In Range Yield and the Out Range Yield may be equal to zero. In such case, the amount of the Range Accrual Interest Amounts will be higher than zero only when the Reference Value falls inside the Fluctuation Range (when the Out Range Yield is zero) or outside the Fluctuation Range (when the In Range Yield is zero).

Each Range Accrual Interest Amount will be paid to the Noteholder in arrear on the relevant Range Accrual Interest Payment Date. The Maturity Date may fall on the Range Accrual Interest Payment Date or, if there is more than one interest payment date, it may fall on one of the Range Accrual Interest Payment Dates.

IV-3:

The amount of each Range Accrual Interest Amount will be calculated by the Calculation Agent in accordance with the formulas set out in paragraph IV-4 with such amount rounded to the nearest EUR cent (with 0.005 EUR being rounded upwards) and will be equal to the product of (A) the Nominal Amount, (B) the lower of (i) the Maximum Rate (if applicable); and (ii) the higher of (x) the Minimum Rate (if applicable) and (y) the sum of

- (1) a rate equal to the product of (I) the In Range Yield, and (II) the ratio between (i) the number of days in which the Reference Value falls inside the Fluctuation Range (In **Range Days**) and (ii) the total number of days of the Reference Period; and

- (2) a rate equal to the product of (I) the Out Range Yield, and (II) the ratio between (i) the number of days in which the Reference Value falls outside the Fluctuation Range (Out Range Days) and (ii) the total number of days of the Reference Period,

and (C) the Day Count Fraction.

Each Range Accrual Interest Amount may be linked to more than one Underlying. In such case, the applicable Final Terms will specify the number of Underlyings that have to fall inside or outside the Fluctuation Range, in order to determine the In Range Days and the Out Range Days. By way of example, the applicable Final Terms may indicate that, in order to determine the Range Accrual Interest Amount, the In Range Yield will be payable if at least three Underlyings out of five fall inside the Fluctuation Range. Conversely, the Out Range Yield will be payable.

Finally, it should be noted that the In Range Yield and the Out Range Yield may be the same until the Maturity Date (and identical for all the Range Accrual Interest Periods) or differ in relation to each Range Accrual Interest Period as specified in the Final Terms.

IV-4:

The formula applicable to the calculation of Range Accrual Interest Amounts is as follows:

$$C = NA \times \min \{ \text{Maximum Rate}; \max \{ \text{Minimum Rate}; [\text{In Range Yield} \times (\text{In Range Days}) + \text{Out Range Yield} \times (\text{Out Range Days})] \} \}$$

Where

C means the Range Accrual Interest Amount;

NA means the Nominal Amount specified in the applicable Final Terms.

The relevant Final Terms will specify whether, for the purpose of the calculation of the Range Accrual Interest Amount, the Maximum Rate and/or the Minimum Rate will be applicable.

Where:

P means the multiplier that (i) may be higher than, or lower than, or equal to 1 (i.e. 100%) or equal to 0 and (ii) will be specified in the applicable Final Terms;

Underlying_(i)^{Final} means the Final Reference Value of the relevant Underlying;

Underlying_(i)^{Initial} means the Initial Reference Value of the relevant Underlying;

Reference Value means in relation to a Spread Interest Amount and an Underlying:

- (a) where such Spread Interest Amount is linked to the Spread between the prices or levels of two Underlyings:
 - (i) if a single Observation Date is specified in the Final Terms in relation to the Underlying, the value of the Underlying on the relevant Observation Date as (i) *in the case of a Basket Constituent or single Underlying*, published by the Information Source specified in the Final Terms or, if the Information Source is not available, as determined in accordance with the Final Terms or (ii) *in the case of a Basket*, determined in accordance with the definition of "Basket Calculation";
 - (ii) if more than one Observation Date is specified in the Final Terms in relation to the Underlying, the arithmetic mean of the values of such Underlying determined on the relevant Observation Dates, as (i) *in the case of a Basket Constituent or single Underlying*, published by the Information Source specified in the Final Terms or, if the Information Source is not available, as determined in accordance with the Final Terms or (ii) *in the case of a Basket*, determined in accordance with the definition of "Basket Calculation";
- (b) where the Spread Interest Amount is linked to the Spread between the performance of two Underlyings, as the case may be, the Initial Reference Value or the Final Reference Value, the

Interim Initial Reference Value or the Interim Final Reference Value of such Underlying, as the case may be;

Spread means the differential between the values or the performances of the two Underlyings specified in the relevant Final Terms. The Spread is calculated as a percentage, in accordance with one of the formulas below, as specified in the relevant Final Terms:

Spread = Reference Value of Underlying 1 – Reference Value of Underlying 2

or, if the two Underlyings are not percentage rates (i.e. they are not interest rates, inflation rates or swap rates):

Spread = Performance of Underlying 1 – Performance of Underlying 2

Spread Interest Amount means the amount of interest determined as specified in this paragraph V;

Spread Interest Payment Date means one or more Business Day(s), specified in the applicable Final Terms, on which the Issuer shall pay, in arrear the Spread Interest Amounts;

Spread Option means the option that provides exposure to the difference between the values or the performance of two Underlyings multiplied by the Participation Factor;

Underlying 1 means the underlying financial asset specified as such in the relevant Final Terms;

Underlying 2 means the underlying financial asset specified as such in the relevant Final Terms;

V-2:

The Spread Interest Amount provides exposure, to the extent of the Participation Factor, to the difference (the **Spread**) between the Reference Values or the Performances of two Underlyings.

Each Spread Interest Amount will be paid to the Noteholder in arrear on the relevant Spread Interest Payment Date. The Maturity Date may fall on the Spread Interest Payment Date or, if there is more than one Spread Interest Payment Date, it may fall on one of the Spread Interest Payment Dates.

The amount of each Spread Interest Amount will be calculated by the Calculation Agent in accordance with the formulas set out in paragraph V-3, where such amount is rounded to the nearest EUR cent (with 0.005 EUR being rounded upwards) and it will be equal to the product of (A) the Nominal Amount, (B) the lower of (i) the Maximum Rate (if applicable); and (ii) the higher of (x) the Minimum Rate (if applicable) and (y) the Spread between the Reference Values or performances of two Underlyings specified in the applicable Final Terms, multiplied by the Participation Factor and increased or decreased by the Margin and (C) the Day Count Fraction.

It should be noted that the Participation Factor may be equal to, lower than or higher than 1 (100%) or equal to 0. In the case the Participation Factor is equal to 100% and the Margin is equal to 0, the Spread Interest Amount will be calculated by reference to the whole Spread. Conversely, if the applicable Participation Factor is lower than 100%, the Spread Interest Amount will be calculated by reference to a fraction of the Spread. Finally, if the applicable Participation Factor is higher than 100%, the Spread Interest Amount will be calculated by reference to a multiple of the Spread.

V-3:

The formula applicable to the calculation of Spread Interest Amounts is as follows:

$$C = NA \times \min \{ \text{Maximum Rate}; \max \{ \text{Minimum Rate}; [PF \times \max (0; \text{Spread}) \pm \text{Margin}] \} \}$$

Where:

C means the Spread Interest Amount;

NA means the Nominal Amount specified in the applicable Final Terms;

PF means the Participation Factor.

The relevant Final Terms will specify whether, for the purpose of the calculation of the Spread Interest Amount, the Maximum Rate and/or the Minimum Rate and/or the Margin will be applicable.

(b) Fixed Rate Interest

This Condition 3(b) applies to Fixed Rate Interest only. The applicable Final Terms contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this Condition 3(b) for full information on the manner in which interest is calculated on the Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Fixed Interest Accrual Dates, the Fixed Interest Period(s), the Rate(s) of Interest, the Fixed Interest Payment Date(s), the Maturity Date, the Fixed Interest Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction, the Business Day Convention and any applicable Determination Date. The Rate of Interest may be specified in the applicable Final Terms either (x) as the same Rate of Interest for all Fixed Interest Periods or (y) as a different Rate of Interest in respect of one or more Fixed Interest Periods.

In addition to Structured Rate Interest, Notes may bear interest in respect of each Fixed Interest Period at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Fixed Interest Payment Date(s) in each year up to (and including) the Maturity Date. Such interest will be payable in respect of each **Fixed Interest Period**.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which a Fixed Interest Payment Date should occur or (y) if any Fixed Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Following Business Day Convention, such Fixed Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Fixed Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Fixed Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (3) the Preceding Business Day Convention, such Fixed Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Where the Business Day Convention is specified in the applicable Final Terms as being "Not applicable", the relevant date shall not be adjusted in accordance with any Business Day Convention.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Fixed Interest Payment Date in respect of the Fixed Interest Period will

amount to the Fixed Coupon Amount. Payments of interest on any Fixed Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by:

(1) applying the relevant Rate of Interest to:

(A) in the case of Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or

(B) in the case of Notes in definitive form, the Calculation Amount

and,

(2) in each case, multiplying such result by the applicable Day Count Fraction.

The resultant figure will be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Note shall be the product of (i) the amount (determined in the manner provided above) for the Calculation Amount, (ii) the Specified Denomination and (iii) the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(c) Fixed Rate Reset Interest

This Condition 3(c) applies to Fixed Rate Reset Interest only. The applicable Final Terms contains provisions applicable to the determination of fixed rate reset interest and must be read in conjunction with this Condition 3(c) for full information on the manner in which interest is calculated on the Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Fixed Reset Interest Period, the Fixed Reset Interest Accrual Dates, the Initial Rate of Interest, the Fixed Reset Interest Payment Date(s), the Reset Date(s), the Reset Rate, the Reset Reference Rate(s), the Reset Margin(s), the Reset Determination Date(s), the Reset Rate Time, the Reset Rate Screen Page, the Mid Swap Maturity, the Day Count Fraction and the Relevant Financial Centre.

In addition to the Structured Rate Interest, Notes may bear interest:

- a) in respect of the period from (and including) first Fixed Reset Interest Accrual Date (or the Interest Commencement Date) to (but excluding) the Reset Date (or, if there is more than one Reset Period, the first Reset Date occurring after the first Fixed Reset Interest Accrual Date (or the Interest Commencement Date)), at the rate per annum equal to the Initial Rate of Interest; and
- b) in respect of the Reset Period (or, if there is more than one Reset Period, each successive Reset Period thereafter), at such rate per annum as is equal to the relevant Reset Rate, as determined by the Agent on the relevant Reset Determination Date in accordance with this Condition 3(c),

(such periods under (i) and (ii) above, collectively, the **Fixed Reset Interest Period**)

payable, in each case, in arrear on the interest payment dates(s) (specified in the Final Terms) (each a **Fixed Reset Interest Payment Date**).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which a Fixed Reset Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Following Business Day Convention, such Fixed Reset Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Fixed Reset Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Fixed Reset Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (3) the Preceding Business Day Convention, such Fixed Reset Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Where the Business Day Convention is specified in the applicable Final Terms as being "Not applicable", the relevant date shall not be adjusted in accordance with any Business Day Convention.

In these Terms and Conditions:

Mid Swap Benchmark Rate means EURIBOR if the Specified Currency is euro or the London Interbank Offered Rate (LIBOR) for the Specified Currency if the Specified Currency is not euro.

Mid Swap Maturity means the maturity specified in the applicable Final Terms.

Mid Swap Rate means for any Reset Period the arithmetic mean of the bid and offered rates for the fixed leg payable with a frequency equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (calculated on the day count basis customary for fixed rate payments in the Specified Currency as determined by the Agent) of a fixed-for-floating interest rate swap transaction in the Specified Currency which transaction (a) has a term of equal to the relevant Reset Period and commencing on the relevant Reset Date, (b) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market, and (c) has a floating leg based on the Mid Swap Benchmark Rate for the Mid Swap Maturity (as specified in the applicable Final Terms) (calculated on the day count basis customary for floating rate payments in the Specified Currency as determined by the Agent).

Reference Bond means for any Reset Period a government security or securities issued by the state responsible for issuing the Specified Currency (which, if the Specified Currency is euro, shall be a state so specified in the applicable Final Terms) selected by the Issuer as having an actual or interpolated maturity comparable with the relevant Reset Period that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of bank debt securities denominated in the same currency as the Notes and of a comparable maturity to the relevant Reset Period.

Reference Bond Price means, with respect to any Reset Determination Date, (A) the arithmetic average of the Reference Government Bond Dealer Quotations for such Reset Determination Date, after excluding the highest and lowest such Reference Government Bond Dealer Quotations, or (B) if the Agent obtains fewer than four such Reference Government Bond Dealer Quotations, the arithmetic average of all such quotations.

Reference Government Bond Dealer means each of five banks (selected by the Issuer), or their affiliates, which are (A) primary government securities dealers, and their respective successors, or (B) market makers in pricing bank bond issues.

Reference Government Bond Dealer Quotations means, with respect to each Reference Government Bond Dealer and the relevant Reset Determination Date, the arithmetic average, as determined by the Agent, of the bid and offered prices for the relevant Reference Bond (expressed in each case as a percentage of its nominal amount) at or around the Reset Rate Time on the relevant Reset Determination Date quoted in writing to the Agent by such Reference Government Bond Dealer.

Reset Determination Date means for each Reset Period the date as specified in the Final Terms falling on or before the commencement of such Reset Period on which the rate of interest applying during such Reset Period will be determined.

Reset Period means the period from (and including) the Reset Date to (but excluding) the Maturity Date (if any) if there is only one Reset Period or, if there is more than one Reset Period, each period from (and including) one Reset Date (or the first Reset Date) to (but excluding) the next Reset Date (or the Maturity Date).

Reset Rate for any Reset Period means either (i) the rate per annum specified in the applicable Final Terms or (ii), in the event (i) above does not apply, a rate per annum equal to the sum of (a) the applicable Reset Reference Rate and (b) the applicable Reset Margin (rounded down to four decimal places, with 0.00005 being rounded down).

Reset Reference Rate means either:

- (A) if "Mid Swaps" is specified in the Final Terms, the Mid Swap Rate displayed on the Reset Rate Screen Page at or around the Reset Rate Time on the relevant Reset Determination Date for such Reset Period; or
- (B) if "Reference Bond" is specified in the Final Terms, the annual yield to maturity or interpolated yield to maturity (on the relevant day count basis) of the relevant Reference Bond, assuming a price for such Reference Bond (expressed as a percentage of its nominal amount) equal to the relevant Reference Bond Price.

If "Mid Swaps" is specified in the Final Terms and if the Reset Rate Screen Page is not available, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reset Reference Rate at approximately the Reset Rate Time on the Reset Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Reset Rate for the relevant Reset Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the applicable Reset Margin (if any), all as determined by the Calculation Agent. If on any Reset Determination Date only one or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the foregoing provisions of

this paragraph, the Reset Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

For the purposes of this Condition 3(c) **Reference Banks** means the principal office in the Relevant Financial Centre of four major banks in the swap, money, securities or other market most closely connected with the Reset Reference Rate as selected by the Issuer.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Fixed Reset Interest Payment Date in respect of the period ending on (but excluding) the relevant accrual date will amount to the interest amount (the **Fixed Reset Interest Amount**). Payments of interest on any Fixed Reset Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

Except in the case of Notes in definitive form where an applicable Fixed Reset Interest Amount or Broken Amount is specified in the applicable Final Terms, the Agent will calculate the Fixed Reset Interest Amount payable on the Fixed Rate Reset Notes for the relevant period by:

(1) applying the Initial Rate of Interest or the applicable Reset Rate (as the case may be) to:

- (A) in the case of Fixed Rate Reset Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Reset Notes represented by such Global Note; or
- (B) in the case of Fixed Rate Reset Notes in definitive form, the Calculation Amount;

and,

(2) in each case, multiplying such result by the applicable Day Count Fraction.

The resultant figure will be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Reset Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Reset Note shall be the product of (i) the amount (determined in the manner provided above) for the Calculation Amount, (ii) the Specified Denomination and (iii) the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

The Agent will cause the Reset Rate and each Fixed Reset Interest Amount for each Reset Period to be notified to the Issuer and any stock exchange or other relevant authority on which the relevant Fixed Rate Reset Notes are for the time being listed or by which they have been admitted to listing and notice thereof to be published in accordance with Condition 15 as soon as possible after their determination but in no event later than the fourth Luxembourg Business Day thereafter.

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 3(c) by the Agent shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the other Paying Agents and all Noteholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Noteholders or the Couponholders shall

attach to the Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

For the purposes of this Condition 3(c), **Reset Date, Reset Margin, Reset Rate Screen Page and Reset Rate Time** should have the meanings given to those terms in the applicable Final Terms.

(d) Floating Rate Interest

This Condition 3(d) applies to Floating Rate Interest only. The applicable Final Terms contains provisions applicable to the determination of floating rate interest and must be read in conjunction with this Condition 3(d) for full information on the manner in which interest is calculated on Notes bearing Floating Rate Interest. In particular, the applicable Final Terms will identify any Floating Interest Payment Dates, any Floating Interest Period, any Floating Interest Accrual Dates, any Interest Commencement Date, the Business Day Convention and any additional Business Centres. In respect of Notes bearing Floating Rate Interest, the applicable Final Terms will specify whether ISDA Determination or Screen Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Agent, the Margin (if any), the Rate Multiplier (if any), whether Difference in Rates applies as the manner in which the Rate of Interest is to be determined, any maximum or minimum interest rates and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Floating Rate Option, Designated Maturity and Reset Date. Where the Screen Rate Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Reference Rate, Interest Determination Date(s) and Relevant Screen Page.

a) Floating Interest Payment Dates

In addition, the Structured Rate Interest Notes may bear interest in respect of each **Floating Interest Period** (which expression shall, in these Conditions, mean the period from (and including) the first Floating Interest Accrual Date (or the Interest Commencement Date) to (but excluding) the next (or first) Floating Interest Accrual Date) and such interest will be payable in arrear on the interest payment dates(s) specified in the Final Terms (each a **Floating Interest Payment Date**).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which a Floating Interest Payment Date should occur or (y) if any Floating Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) the Following Business Day Convention, such Floating Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (2) the Modified Following Business Day Convention, such Floating Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (3) the Preceding Business Day Convention, such Floating Interest Payment Date shall be brought forward to the immediately preceding Business Day.

Where the Business Day Convention is specified in the applicable Final Terms as being "Not applicable", the relevant date shall not be adjusted in accordance with any Business Day Convention.

b) *Rate of Interest*

The Rate of Interest payable from time to time in respect of the Notes will be determined in the manner specified in the applicable Final Terms.

(A) *ISDA Determination for Notes bearing Floating Rate Interests*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Floating Interest Period will be the relevant ISDA Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin, if any, all as determined by the Agent and provided that the Rate of Interest may not be less than zero. For the purposes of this sub paragraph (A), **ISDA Rate** for a Floating Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the **ISDA Definitions**) and under which:

- (1) the Floating Rate Option is as specified in the applicable Final Terms;
- (2) the Designated Maturity is a period specified in the applicable Final Terms; and
- (3) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of this sub paragraph (A), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions and **Margin** and **Rate Multiplier** have the meanings given to those terms in the applicable Final Terms.

(B) *Screen Rate Determination for Notes bearing Floating Rate Interest other than Notes bearing CMS Rate Linked Interest*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Floating Interest Period will, subject as provided below, be either:

- (1) the offered quotation; or
- (2) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question, in each case multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any), all as determined by the Agent and provided that the Rate of Interest may not be less than zero. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of (ii)(B)(1) above, no such offered quotation appears or, in the case of (1) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph, in order to determine the Rate of Interest, the Agent shall request (in the case of a determination of LIBOR) the principal London office of each of four major banks in the London inter-bank market or (in the case of a determination of EURIBOR), the principal Euro-zone office of each of four major banks in the Euro-zone inter-bank market, in each case selected by the Agent or as specified in the applicable Final Terms, to provide the Agent with its offered quotation (expressed as a percentage per annum) for the Reference Rate at approximately the time specified in the preceding paragraph on the relevant Interest Determination Date, in accordance with the provisions of the Agency Agreement.

For the purposes of this sub-paragraph (B), **Interest Determination Date**, **Margin**, **Rate Multiplier**, **Reference Rate** and **Relevant Screen Page** shall have the meanings given to those terms in the applicable Final Terms.

(C) *Screen Rate Determination for Notes bearing Floating Rate Interest which are Notes bearing CMS Rate Linked Interest*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Floating Interest Period will, subject as provided below, be the CMS Rate multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any), all as determined by the Agent and provided that the Rate of Interest may not be less than zero.

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately the Specified Time on the Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Floating Interest Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

For the purposes of this sub-paragraph (C):

CMS Rate shall mean the applicable swap rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page as at the Specified Time on the Interest Determination Date in question, all as determined by the Agent.

CMS Reference Banks means (i) where the Reference Currency is Euro, the principal office of five leading swap dealers in the inter-bank market, (ii) where the Reference Currency is Sterling, the principal London office of five leading swap dealers in the London inter-bank market, (iii) where the Reference Currency is United States dollars, the principal New York City office of five leading swap dealers in the New York City inter-bank market, or (iv) in the case of any other Reference Currency, the principal Relevant Financial Centre office of five leading swap dealers in the Relevant Financial Centre inter-bank market, in each case selected by the Agent.

Designated Maturity, Interest Determination Date(s), Margin, Rate Multiplier, Reference Currency, Relevant Screen Page and Specified Time shall have the meanings given to those terms in the applicable Final Terms.

Relevant Swap Rate means:

- (1) where the Reference Currency is Euro, the mid-market annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating euro interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Floating Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters (as defined in the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the **ISDA Definitions**)) with a designated maturity determined by the Agent by reference to standard market practice and/or the ISDA Definitions;
- (2) where the Reference Currency is Sterling, the mid-market semi-annual swap rate determined on the basis of the arithmetic mean of the bid and offered rates for the semi-annual fixed leg, calculated on an Actual/365 (Fixed) day count basis, of a fixed-for-floating Sterling interest rate swap transaction with a term equal to the Designated

Maturity commencing on the first day of the relevant Floating Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, in each case calculated on an Actual/365 (Fixed) day count basis, is equivalent (A) if the Designated Maturity is greater than one year, to GBP-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of six months or (B) if the Designated Maturity is one year or less, to GBP-LIBOR-BBA with a designated maturity of three months;

- (3) where the Reference Currency is United States dollars, the mid-market semi-annual swap rate determined on the basis of the mean of the bid and offered rates for the semi-annual fixed leg, calculated on a 30/360 day count basis, of a fixed-for-floating United States dollar interest rate swap transaction with a term equal to the Designated Maturity commencing on the first day of the relevant Floating Interest Period and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to USD-LIBOR-BBA (as defined in the ISDA Definitions) with a designated maturity of three months; and
- (4) where the Reference Currency is any other currency or if the Final Terms specify otherwise, the mid-market swap rate as determined in accordance with the applicable Final Terms.

Representative Amount means an amount that is representative for a single transaction in the relevant market at the relevant time.

(D) *Difference in Rates*

Where Difference in Rates is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Floating Interest Period will, subject as provided below, be the Difference in Rates multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any), all as determined by the Agent and provided that the Rate of Interest may not be less than zero.

For the purposes of this sub-paragraph (D):

Difference in Rates means an amount equal to Rate 2 minus Rate 1, provided that if such amount is less than zero, it shall be deemed to be zero; and

Rate 1 and **Rate 2** shall have the meanings given to those terms in the applicable Final Terms, and each shall be determined in accordance with subparagraph (A), subparagraph (B) or subparagraph (C) above as specified in the applicable Final Terms, as if each of Rate 1 and Rate 2 were an ISDA Rate, a Reference Rate or a CMS Rate, as appropriate.

(e) *Determination of Rate of Interest and calculation of Interest Amounts*

The Agent will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the **Interest Amount**) payable in relation to the relevant Interest Period by :

(1) applying the Rate of Interest to:

(A) in the case of Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or

(B) in the case of Notes in definitive form, the Calculation Amount,

and,

(2) in each case, multiplying such result by the applicable Day Count Fraction.

The resultant figure will be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of (i) the amount (determined in the manner provided above) for the Calculation Amount and (ii) the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(f) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

Designated Maturity means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(g) Notification of Rate of Interest and Interest Amounts

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Notes bearing Floating Rate Interest are for the time being listed and notice thereof to be published in accordance with Condition 15 as soon as possible after their determination but in no event later than the fourth Luxembourg Business Day thereafter. Each Interest Amount and Interest

Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Notes bearing Floating Rate Interest are for the time being listed and to the Noteholders in accordance with Condition 15.

(h) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 3 by the Agent shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the other Paying Agents and all Noteholders and Couponholders and (in the absence of wilful default or bad faith) no liability to the Issuer, the Noteholders or the Couponholders shall attach to the Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(i) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with this Condition 3 above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with this Condition 3 above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

The Minimum Rate of Interest and the Maximum Rate of Interest may be the same throughout all the Interest Periods, or it may change in relation to each Interest Period, as specified in the applicable Final Terms.

The Minimum Rate of Interest and the Maximum Rate of Interest may be:

- (i) a Fixed Rate;
- (ii) a Reference Rate increased or decreased by a Margin, specified in the Applicable Final Terms;
- (iii) a rate linked to the Reference Value or to the performance of an Underlying (determined in accordance to the method of calculation of the Call Performance (as set out in Condition 3(a)), to the extent of the Participation Factor (that may be equal to, higher than or lower than 100%, as specified in the applicable Final Terms).

(j) Global Cap / Global Floor

The Notes may provide for the application of a Global Cap or a Global Floor.

If the applicable Final Terms provide for a Global Cap, this means that the sum of the Interest Amounts paid during the life of the Note may not be higher than the percentage of the Nominal Amount indicated in the Final Terms as "Global Cap".

If the applicable Final Terms provide for a Global Floor, this means that the sum of the Interest Amounts paid during the life of the Note may not be lower than the percentage of the Nominal Value indicated in the Final Terms as "Global Floor". When the sum of the Interests does not reach the Global Floor, the Note will pay, at maturity, an additional Interest Amount whose amount is equal to the difference between the Global Floor and the sum of the Interest Amounts paid during the life of the Note.

(k) *Change of Interest Basis*

- a) If **Change of Interest Basis** is specified as applicable in the applicable Final Terms, the interest payable in respect of the Notes will be calculated in accordance with Condition 3(a), Condition 3(b), Condition 3(c) or Condition 3(d) above, each applicable only for the relevant periods specified in the applicable Final Terms.
- b) If **Change of Interest Basis** is specified as applicable in the applicable Final Terms, and **Issuer's Switch Option** is also specified as applicable in the applicable Final Terms, the Issuer may, on one or more occasions, as specified in the applicable Final Terms, at its option (any such option, a **Switch Option**), having given notice to the Noteholders in accordance with Condition 15 on or prior to the relevant Switch Option Expiry Date, change the Interest Basis of the Notes from Fixed Rate to Floating Rate or Fixed Rate Reset or from Floating Rate to Fixed Rate or Fixed Rate Reset or as otherwise specified in the applicable Final Terms with effect from (and including) the Switch Option Effective Date specified in the applicable Final Terms to (but excluding) the Maturity Date (or, where more than one Switch Option Effective Date is specified in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date), provided that (A) the Switch Option may be exercised only in respect of all the outstanding Notes, (B) upon exercise of a Switch Option, the Interest Basis change will be effective from (and including) the relevant Switch Option Effective Date until the Maturity Date (or, where more than one Switch Option Effective Date is specified as applicable in the applicable Final Terms, up to and excluding the next following Switch Option Effective Date to the extent the related Switch Option is exercised), and (C) where a Switch Option has not been exercised prior to the relevant Switch Option Expiry Date, the Issuer shall no longer be entitled to exercise such Switch Option and the Interest Basis shall not change.

Switch Option Expiry Date and **Switch Option Effective Date** shall mean any date specified as such in the applicable Final Terms provided that any date specified in the applicable Final Terms as a Switch Option Effective Date shall be deemed as such subject to the exercise of the relevant Switch Option having been notified by the Issuer pursuant to this Condition and in accordance with Condition 15 prior to the relevant Switch Option Expiry Date.

(l) *Accrual of interest*

Each Note will cease to bear interest (if any) from the date for its redemption unless payment of principal and/or delivery of all assets deliverable is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- a) the date on which all amounts due in respect of such Note have been paid and/or all assets deliverable in respect of such Note have been delivered; and
- b) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Agent and/or all assets in respect of such Note have been received by any agent appointed by the Issuer to deliver such assets to Noteholders and notice to that effect has been given to the Noteholders in accordance with Condition 15.

4. PAYMENTS

(i) *Method of payment – Registered Notes*

Payments of principal in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg, and/or any other relevant clearing system are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the **Record Date**). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or integral multiples of U.S.\$1,000 in excess thereof) (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (i) (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency; and (ii) (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg and/or any other relevant clearing system are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of

interest (other than interest due on redemption) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

Neither the Issuer nor any of the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

(ii) *Method of payment – Bearer Notes*

Payments of principal in respect of Bearer Notes will be made against presentation outside the United States and surrender of the relevant Bearer Notes to the Issuer and Paying Agent at the office of the Principal Paying Agent outside of the United States as specified in the applicable Final Terms.

Payments of interest in respect of Bearer Notes will be made against presentation outside the United States of the relevant Bearer Notes to the Issuer and Paying Agent at the office of the Issuer and Paying Agent outside the United States as specified in the applicable Final Terms, subject, in the case of payments made in respect of the Temporary Global Note of any Series, to certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Note are not United States persons or persons who have purchased for resale directly or indirectly to any United States person or to a person within the United States or its possessions, as required by U.S. Treasury Regulations.

In either case, with regard to Bearer Global Notes, such payments will be made outside the United States by transfer to the account of the bearer held with the relevant Clearing System.

If a Bearer Note is presented for payment of principal at the office of any Issuer or Paying Agent in the United States or its possessions in circumstances where interest (if any is payable against presentation of such Bearer Note) is not to be paid there, the relevant Issuer and Paying Agent will annotate such Bearer Note with the record of the principal paid and return it to the holder for the obtaining of interest elsewhere.

(iii) *Method of payment - General*

Subject as provided above and below:

- a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and

- b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Bearer Notes in definitive form bearing Fixed Rate Interest should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 10) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Bearer Note in definitive form bearing Fixed Rate Interest becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Bearer Note bearing Structured Rate Interest and/or Floating Rate Interest in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest

Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

(vi) *General provisions applicable to payments*

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear, Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

(vii) *Payment Day*

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay.

- a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8(i) as a result of any change in, or amendment to, the laws or regulations of the Republic of Italy or any political subdivision of, or any authority in, or of, the Republic of Italy having the power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Notes were then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Agent: (x) a certificate signed by two Directors of the Issuer stating that the relevant requirement referred to in Condition 5(ii)a) above will apply on the occasion of the next payment due in respect of the Notes and cannot be avoided by the Issuer taking reasonable

measures available to it; and (y) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment.

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount in each case as may be specified in the applicable Final Terms.

In the case of a redemption of some only of the Notes, the Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion), in the case of Redeemed Notes represented by a Global Note, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the **Selection Date**). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 15 not less than 15 days prior to the date fixed for redemption. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (iii) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 15 at least five days prior to the Selection Date.

If this Note is in definitive form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Registrar or the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption/sale of this Note the holder of this Note must, within the Put Notice Period, give notice to the Registrar or Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary or common safekeeper, as the case may be, for them to the Registrar or Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and, if this Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Agent for notation accordingly.

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption/sale an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 9.

Mandatory Early Redemption Level means, if applicable under the relevant Final Terms, the value or the percentage specified in relation to the Mandatory Early Redemption Valuation Period in the relevant Final Terms;

For the purposes of calculating the arithmetic mean of a Reference Value, two or more Mandatory Interim Observation Dates may be specified in relation to a Mandatory Early Redemption Valuation Period, in the relevant Final Terms.

If there is more than one Mandatory Early Redemption Valuation Period, the relevant Final Terms will specify the **First Mandatory Early Redemption Valuation Period**, the **Second Mandatory Early Redemption Valuation Period** and so forth.

The above provisions apply provided that, in the opinion of the Calculation Agent, a Market Disruption Event pursuant to Condition 6 below has not occurred in the relevant Mandatory Early Redemption Valuation Period. In such case, without prejudice to the provisions contained in Condition 6 below relating to the Reference Value continuously observed, the Mandatory Early Redemption Valuation Period will be postponed to the immediately following Business Day on which the Market Disruption Event is no longer taking place;

$$\text{Single Performance}_{(i)} \text{ AM} = \frac{\text{Underlying}_{(i)}^{\text{Final Average}} - P \times \text{Underlying}_{(i)}^{\text{Initial Average}}}{\text{Underlying}_{(i)}^{\text{Initial Average}}} =$$

or

$$\text{Single Performance}_{(i)} \text{ AM} = \frac{\text{Underlying}_{(i)}^{\text{Final Average}} - P \times \text{Underlying}_{(i)}^{\text{Initial}}}{\text{Underlying}_{(i)}^{\text{Initial}}}$$

or

$$\text{Single Performance}_{(i)} \text{ AM} = \frac{\text{Underlying}_{(i)}^{\text{Final}} - P \times \text{Underlying}_{(i)}^{\text{Initial Average}}}{\text{Underlying}_{(i)}^{\text{Initial Average}}}$$

$$\text{Basket Performance}_{(i)} \text{ SV} = \sum_{i=1}^n \text{Single Performance}_{(i)} \text{ SV} \times W_{(i)}$$

Where:

n means the number of the Basket Constituents;

Single Performance_(i)SV means the performance calculated as a value for each Basket Constituent in accordance with the formula specified above at paragraph 1(A);

W_(i) means the Basket Constituent Weight. The Basket Constituent Weight is a percentage specified in the applicable Final Terms;

- (B) the arithmetic mean of the performance of the Basket (the **Basket_(i)**) determined as the sum of the performances calculated as the arithmetic mean of the performance of each Basket Constituent multiplied by the relevant Basket Constituent Weight, in accordance with the following formula (the **Basket Performance AM**):

$$\text{Basket Performance}_{(i)} \text{ AM} = \sum_{i=1}^n \text{Single Performance}_{(i)} \text{ AM} \times W_{(i)}$$

n means the number of the Basket Constituents;

Single Performance_(i)AM means the performance calculated as the arithmetic mean of the performance of each Basket Constituent determined in accordance with one of the formulas specified above at paragraph 1(B);

or, if the two Underlyings are not percentage rates (i.e. they are not interest rates, inflation rates or swap rates):

$$\text{Spread} = \text{Performance of the Underlying 1} - \text{Performance of the Underlying 2}$$

The Notes, if so specified in the relevant Final Terms, may provide for the possibility of automatic early redemption. Upon the occurrence of a Mandatory Early Redemption Event, the Noteholders are entitled to receive the payment of the Mandatory Early Redemption Amount.

A Mandatory Early Redemption Event may occur if the Reference Value, Performance or Spread with reference to a Mandatory Early Redemption Valuation Period is lower than, equal to or higher than Mandatory Early Redemption Level (as indicated in the relevant Final Terms), in

6. MARKET DISRUPTIONS AND ADJUSTMENTS

(a) *Market Disruption Events in relation to Underlyings*

If during the tenor of the Notes, a disruption to the regular determination of the value of the Reference Value of an Underlying (a **Market Disruption Event**) occurs in relation to such Underlying, the Calculation Agent will act as specified in the applicable Final Terms.

If the value of the Reference Value of an Underlying cannot be determined on the scheduled date, the Calculation Agent will determine such value on the basis of:

- 1) the first determination immediately prior to or following the scheduled determination date, acting in good faith and in a commercially reasonable manner, as specified in the applicable Final Terms; or
- 2) a determination method in accordance with the best market practice of the relevant Underlying.

Such determinations will be made in good faith and in a commercially reasonable manner.

However, if the Calculation Agent determines that the Reference Value continuously observed cannot be determined at any time on any relevant period by reason of the occurrence of an event giving rise to a Market Disruption Event, then the Reference Value continuously observed at such time on such period shall be disregarded for the purposes of determining the occurrence of the Knock-out Event, the Knock-in Event and/or the Mandatory Early Redemption Event, as the case may be.

(b) *Adjustment Event in relation to Underlyings*

If during the tenor of the Notes, an exceptional event that modifies the structure of an Underlying or threatens its existence or adversely affects the calculation of its value or

any other similar event of an exceptional nature (an **Adjustment Event**) occurs, the Calculation Agent will act as specified in the applicable Final Terms.

Such events may include, without termination:

- 1) the occurrence of an extraordinary event (such as a merger, a share split, a consolidation, an increase of corporate capital) in relation to the issuer of the relevant Underlying;
- 2) the delisting of the Underlying from the relevant market;
- 3) the modification of the method of calculation of the Underlying;
- 4) the replacement or cancellation of the relevant Information Source.

On the occurrence of one of these events, the Calculation Agent will make appropriate adjustments to one or more of the calculation parameters and, if necessary, will replace the Underlying, acting in good faith and in a commercially reasonable manner and with the aim of preserving as far as possible the original features of the Notes.

(c) *Incorrect values published by the Information Source*

If during the tenor of the Notes, the Information Source of the Underlying publishes incorrect values in relation to such Underlying and subsequently rectifies such incorrect values, the Calculation Agent will consider the values of the Underlying as amended by the Information Source, provided that these amendments are promptly disclosed in accordance with the methodologies specified in the applicable Final Terms.

7. DUAL CURRENCY NOTES

(i) *Payments in Payment Currency*

If the Notes are specified to be Dual Currency Interest Notes in the applicable Final Terms, all payments of interest in respect of such Dual Currency Interest Notes shall be made in the Payment Currency.

If the Notes are specified to be Dual Currency Redemption Notes in the applicable Final Terms, all amounts payable in respect of such Dual Currency Redemption Notes upon redemption of such Dual Currency Redemption Notes pursuant to Conditions 5(i), (ii), (iii), (iv) or (v) above or upon their becoming due and repayable as provided in Condition 8 shall be made in the Payment Currency.

The Calculation Agent will determine the amount to be paid in the Payment Currency by applying the Reference Exchange Rate to the amount that would have been payable in the Specified Currency were it not for this Condition 7(i).

Such payment shall be made on the date such payment would otherwise be payable, provided that, if the Rate Calculation Date is postponed in accordance with the provisions below, such payment shall be made the Number of Rate Calculation Business Days after the Rate Calculation Date (as so postponed). No additional interest shall be payable in respect of any such delay.

For the avoidance of doubt, Condition 4(vi) (*Payment Day*) shall apply to such payment.

and/or, if Currency Disruption Event is specified as applicable in the Final Terms, any Currency Disruption Event.

For which purpose:

Currency Disruption Event means any of Inconvertibility, Non-Transferability and Dual Exchange Rate, each such term as defined below.

Dual Exchange Rate means the occurrence of an event that splits any currency exchange rate specified for the Reference Exchange Rate into dual or multiple currency exchange rates;

FX Price Source Disruption means (i) it becomes impossible or otherwise impracticable to obtain and/or execute the Reference Exchange Rate on the Rate Calculation Date or other relevant date or, if different, the day on which rates for that Rate Calculation Date would in the ordinary course be published or announced by the relevant FX Price Source and/or (ii) there is a failure by the relevant FX Price Source to publish any relevant price or rate;

(iv) *FX Market Disruption Event Adjustment Provisions*

(a) *Consequences of FX Disrupted Days*

Without prejudice to the provisions of Condition 7(ii) and 7(iii) above, if the Calculation Agent determines that any Rate Calculation Date is an FX Disrupted Day, the Issuer may, in its sole and absolute discretion, direct the Calculation Agent to determine the Reference Exchange Rate in respect of such Rate Calculation Date in

accordance with the terms of the applicable Disruption Fallback(s). The applicable Final Terms may provide that one or more Disruption Fallbacks may apply, and if two or more Disruption Fallbacks are specified, unless otherwise provided in the applicable Final Terms, such Disruption Fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the Reference Exchange Rate cannot be determined by applying the first specified Disruption Fallback, then the next specified Disruption Fallback shall apply.

If "Unscheduled Holiday" is specified as being applicable in the applicable Final Terms, the references to "Rate Calculation Date" in the paragraph immediately above shall be deemed to mean the Rate Calculation Date as postponed in accordance with Condition 7(v)(a) (*Unscheduled Holiday*) below.

(b) *Disruption Fallbacks*

(A) Calculation Agent Determination

Calculation Agent Determination means, in respect of a Reference Exchange Rate that is affected by the occurrence of an FX Disrupted Day and any relevant day, that such Reference Exchange Rate for such relevant day (or a method for determining such Reference Exchange Rate) will be determined by the Calculation Agent taking into consideration all available information that in good faith it deems relevant;

(B) Currency Reference Dealers

Currency Reference Dealers means, in respect of a Reference Exchange Rate that is affected by the occurrence of an FX Disrupted Day and any relevant day, that the Calculation Agent will request each of the Reference Dealers to provide a quotation of its rate at which it will buy one unit of the Specified Currency in units of the Payment Currency at the applicable Valuation Time on such relevant day. If, for any such rate, at least two quotations are provided, the relevant rate will be the arithmetic mean of the quotations. If fewer than two quotations are provided for any such rate, the relevant rate will be the arithmetic mean of the relevant rates quoted by major banks in the relevant market, selected by the Calculation Agent at or around the applicable Valuation Time on such relevant day.

(C) Fallback Reference Price

Fallback Reference Price means, in respect of a Reference Exchange Rate that is affected by an FX Disrupted Day, that the Calculation Agent will determine the Reference Exchange Rate in respect of such FX Disrupted Day pursuant to the alternate FX Price Source(s) specified as Fallback Reference Price(s) in the applicable Final Terms, applied in the order specified in the applicable Final Terms until a rate has been determined or all Fallback Reference Price(s) have been used.

(D) Other Published Sources

Other Published Sources means, in respect of a Reference Exchange Rate that is affected by an FX Disrupted Day, that the Calculation Agent will

determine such Reference Exchange Rate on such FX Disrupted Day on the basis of the exchange rate for one unit of the Specified Currency in terms of the Payment Currency published by available recognised financial information vendors (as selected by the Calculation Agent) other than the applicable FX Price Source, at or around the applicable Valuation Time on such relevant day.

(E) Postponement

Postponement means, in respect of a Rate Calculation Date, if such day (or, if applicable, if the original date on which such Rate Calculation Date is scheduled to fall is postponed on account of such original day not being a FX Business Day, such postponed day) is an FX Disrupted Day, then such Rate Calculation Date shall be the first succeeding FX Business Day that is not an FX Disrupted Day, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Rate Calculation Date is an FX Disrupted Day. In that case (i) the last consecutive FX Business Day shall be deemed to be the Rate Calculation Date (notwithstanding the fact that such day may be an FX Disrupted Day) and (ii) the next applicable Disruption Fallback shall apply.

(v) *EM Currency Provisions*

(a) *Unscheduled Holiday*

If "Unscheduled Holiday" is specified to be applicable in the applicable Final Terms in respect of the Reference Exchange Rate, if the Calculation Agent determines that a Rate Calculation Date is an Unscheduled Holiday in respect of the Reference Exchange Rate, then the Rate Calculation Date in respect of such Reference Exchange Rate shall be the first succeeding FX Business Day which is not an Unscheduled Holiday, unless the Calculation Agent determines that such first FX Business Day has not occurred on or before the date falling the Maximum Days of Unscheduled Holiday Postponement immediately following such Rate Calculation Date. In that case, the next day after that period that would be an FX Business Day but for an Unscheduled Holiday shall be deemed to be the Rate Calculation Date (such date, the **Adjusted Rate Calculation Date**).

(b) *Additional Disruption Fallbacks*

In addition to the Disruption Fallbacks set out in Condition 7(iv)(b) (*FX Market Disruption Event Adjustment Provisions – Disruption Fallbacks*) above, the applicable Final Terms may also specify any of the following additional Disruption Fallbacks to apply in respect of a Reference Exchange Rate:

(A) EM Valuation Postponement

EM Valuation Postponement means, in respect of a Reference Exchange Rate (which term shall include, where the applicable Final Terms provide that the prior applicable Disruption Fallback is "Fallback Reference Price", the Reference Exchange Rate determined using the applicable Fallback Reference Price), that if the Calculation Agent determines that any Rate Calculation Date is an FX Disrupted Day in respect of such Reference Exchange Rate, then the Rate Calculation Date shall be the first FX Business

Day which is not an FX Disrupted Day, unless the Calculation Agent determines that no such FX Business Day has occurred on or before the Maximum Days of EM Valuation Postponement immediately following such Rate Calculation Date. In that case, the next FX Business Day after the EM Valuation Longstop Date shall be deemed to be the Rate Calculation Date (notwithstanding the fact that such day may be an FX Disrupted Day) and the next Disruption Fallback specified in the applicable Final Terms in respect of such Reference Exchange Rate shall apply.

(B) EM Fallback Valuation Postponement

EM Fallback Valuation Postponement means, in respect of a Reference Exchange Rate (which term shall include, where the applicable Final Terms provide that the prior applicable Disruption Fallback is "Fallback Reference Price", the Reference Exchange Rate determined using the applicable Fallback Reference Price), that if the Calculation Agent determines that the Reference Exchange Rate (as determined by reference to the applicable Fallback Reference Price) is not available on (a) the first FX Business Day following the end of the Maximum Days of EM Valuation Postponement (where an FX Market Disruption Event has occurred or exists in respect of the Reference Exchange Rate throughout the Maximum Days of EM Valuation Postponement) or (b) the Adjusted Rate Calculation Date (as defined in Condition 7(v)(a) above), then the Rate Calculation Date shall be the first succeeding FX Business Day which is not an FX Disrupted Day, unless the Calculation Agent determines that no such FX Business Day has occurred on or before the Maximum Days of EM Fallback Valuation Postponement immediately following such first FX Business Day following the end of the Maximum Days of EM Valuation Postponement or the Adjusted Rate Calculation Date, as the case may be. In that case, the next FX Business Day after the EM Fallback Valuation Longstop Date shall be deemed to be the Rate Calculation Date (notwithstanding the fact that such day may be an FX Disrupted Day) and the next Disruption Fallback specified in the applicable Final Terms in respect of such Reference Exchange Rate shall apply.

(c) *Cumulative Events*

If **Cumulative Events** is specified to be applicable in the applicable Final Terms in respect of a Reference Exchange Rate (which term shall include, where the applicable Final Terms provide that the prior applicable Disruption Fallback is "Fallback Reference Price", the Reference Exchange Rate determined using the applicable Fallback Reference Price), then the total number of consecutive calendar days during which such Rate Calculation Date is deferred due to (i) an Unscheduled Holiday, (ii) an EM Valuation Postponement or (iii) an EM Fallback Valuation Postponement (or any combination of (i), (ii) and (iii)), shall not exceed the Maximum Days of Cumulative Postponement in the aggregate.

Accordingly, if by the operation of the paragraph immediately above, a Rate Calculation Date is postponed by the number of calendar days equal to the Maximum Days of Cumulative Postponement, then such Rate Calculation Date shall be the Cumulative Longstop Date. If such Cumulative Postponement Longstop Date is an FX Disrupted Day or an Unscheduled Holiday, then the Calculation Agent shall determine the Reference Exchange Rate in respect of such Cumulative Postponement Longstop Date in accordance with the next applicable Disruption Fallback.

(vi) *Correction To Published And Displayed Rates*

In any case where the Reference Exchange Rate is based on information obtained from the Reuters Monitor Money Rates Service, or any other financial information service, the Reference Exchange Rate will be subject to the corrections, if any, to that information subsequently displayed by that source within one hour of the time when such rate is first displayed by such source, unless the Calculation Agent determines in its sole and absolute discretion that it is not practicable to take into account such correction.

(vii) *Successor Currency*

Where the applicable Final Terms specifies that "Successor Currency" is applicable in respect of the Reference Exchange Rate, then:

- (a) each Specified Currency and Payment Currency will be deemed to include any lawful successor currency to the Specified Currency or Payment Currency (the **Successor Currency**);
- (b) if the Calculation Agent determines that on or after the Issue Date but on or before any relevant date on which an amount may be payable in respect of Dual Currency Notes, a country has lawfully eliminated, converted, redenominated or exchanged its currency in effect on the Issue Date or any Successor Currency, as the case may be (the **Original Currency**) for a Successor Currency, then for the purposes of calculating any amounts of the Original Currency or effecting settlement thereof, any Original Currency amounts will be converted to the Successor Currency by multiplying the amount of Original Currency by a ratio of Successor Currency to Original Currency, which ratio will be calculated on the basis of the exchange rate set forth by the relevant country of the Original Currency for converting the Original Currency into the Successor Currency on the date on which the elimination, conversion, redenomination or exchange took place, as determined by the Calculation Agent. If there is more than one such date, the date closest to such relevant date will be selected (or such other date as may be selected by the Calculation Agent in its sole and absolute discretion);
- (c) notwithstanding paragraph (b) above but subject to paragraph (d) below, the Calculation Agent may (to the extent permitted by the applicable law), in good faith and in its sole and absolute discretion, select such other exchange rate or other basis for the conversion of an amount of the Original Currency to the Successor Currency and, will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms in respect of the Securities to account for such elimination, conversion, redenomination or exchange of the Specified Currency or Payment Currency, as the case may be; and
- (d) notwithstanding the foregoing provisions, with respect to any Specified Currency or Payment Currency that is substituted or replaced by the Euro, the consequences of such substitution or replacement will be determined in accordance with applicable law.

8. TAXATION

(i) *Gross-Up*

If Condition 8(i) is specified as applicable in the applicable Final Terms, principal and interest shall be payable to the holders of the Notes or Coupons by the Issuer without withholding or deduction for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed, levied or collected by or in the Republic of Italy or by or on behalf

of any political subdivision or any authority therein having power to tax, unless such withholding or deduction is required by law. In such event, the Issuer shall pay such additional amounts of principal and interest as may be necessary in order that the net amounts received by the holders of the Notes or Coupons after such deduction or withholding shall equal the respective amounts of principal and interest which would have been receivable had no such deduction or withholding been required, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- a) for or on account of *imposta sostitutiva* (at the then applicable rate of tax) pursuant to Italian Legislative Decree No. 239 of April 1, 1996 (as amended or supplemented from time to time) or any related implementing regulations and in all circumstances in which the procedures set forth in Legislative Decree No. 239 of April 1, 1996 in order to benefit from a tax exemption have not been met or complied with except where such requirements and procedures have not been met or complied with due to the actions or omissions of the Issuer or its agents; or
- b) for any deduction or withholding under Sections 1471 through 1474 of the Code, or any successor provisions or any current or future U.S. Treasury Regulation promulgated thereunder, official interpretations thereof, published administrative guidance implementing such Sections or regulations whenever promulgated or published, or any fiscal or regulatory legislation, rules, or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation thereof such Sections of the Code are referred to herein collectively as "FATCA". Notwithstanding anything to the contrary in this Condition 7, all payments in respect of the Notes will be made subject to any withholding or deduction required pursuant to FATCA; or
- c) presented for payment by, or on behalf of, a holder who is liable for such withholding or deduction in respect of such Note or Coupon by reason of his having some connection with the Republic of Italy other than the mere holding of such Note; or
- d) presented for payment by, or on behalf of, a holder who is entitled to avoid such withholding or deduction in respect of such Note or Coupon by making a declaration or any other statement, including, but not limited to, a declaration of residence or non-residence or other similar claim for exemption; or
- e) presented for payment more than 30 days after the Relevant Date (as defined in the General Definitions) except to the extent that the holder of such Notes or Coupons would have been entitled to such additional amounts on presenting such Notes or Coupons for payment on such thirtieth day (assuming such day to have been a Payment Day as defined in the General Definitions); or
- f) presented for payment in Italy; or
- g) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to Directive 2003/48/EC on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- h) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the European Union; or

- i) in the event of payment to a non-Italian resident legal entity or a non-Italian resident individual, to the extent that interest or other amounts are paid to a non-Italian resident legal entity or a non-Italian resident individual which is resident in a country which does not allow for a satisfactory exchange of information with Italy; or
 - j) in respect of any Note where such withholding or deduction is required pursuant to Presidential Decree No. 600 of 29 September 1973; or
 - k) in respect of Notes classified as atypical securities where such withholding or deduction is required under law decree No. 512 of 30 September 1983, as amended and supplemented from time to time; or
 - l) if the Structured Rate Interest is determined by reference to shares in a U.S. company, for any deduction or withholding by reason of Section 871(m) of the Code and the U.S. Treasury Regulations promulgated thereunder, or any published administrative guidance implementing such Section or regulations, imposing a U.S. withholding tax on certain “dividend equivalents” under certain “equity linked instruments”.
- (ii) *No Gross-Up*

If Condition 8(ii) is specified as applicable in the applicable Final Terms, the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

9. EVENTS OF DEFAULT

Any Noteholder may give notice to the Issuer in accordance with Condition 15 that any Note held by such Noteholder is, and shall accordingly immediately become, due and payable at the Early Redemption Amount, together with accrued interest (if any) to the date of repayment if any of the following events (an **Event of Default**) occurs and is subsisting:

- a) *Non-payment*: the Issuer fails to pay principal or interest in respect of the Notes or any of them within 30 days of the relevant due date; or
- b) *Breach of other obligations*: the Issuer fails to perform any other obligation arising under the Notes and such failure continues for more than 60 days after the Issuer has received notice thereof from Noteholders of a least one-quarter in principal amount of the Notes of the relevant Series demanding redemption; or
- c) *Suspension of payments*: the Issuer suspends its payments generally; or
- d) *Bankruptcy etc.*: a court in the jurisdiction of incorporation of the Issuer institutes bankruptcy or composition proceedings to avert bankruptcy or similar proceedings against the assets of the Issuer, or the Issuer applies for the institution of such proceedings concerning its assets.

10. PRESCRIPTION

The Notes and Coupons will become void unless presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in the General Definitions) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 4(iv) or any Talon which would be void pursuant to Condition 4(iv).

11. REPLACEMENT OF NOTES, COUPONS AND TALONS

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent or the Registrar, as the case may be, upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

12. SUBSTITUTION OF THE ISSUER

(i) *Substitution of Issuer*

The Issuer (or any previously substituted company from time to time) shall, without the consent of the Noteholders, be entitled at any time to substitute for the Issuer any other company (the **Substitute**) as principal debtor in respect of all obligations arising from or in connection with the Notes provided that (i) all action, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Notes represent valid, legally binding and enforceable obligations of the Substitute have been taken, fulfilled and done and are in full force and effect; (ii) the Substitute shall have assumed all obligations arising from or in connection with the Notes and shall have become a party to the Agency Agreement, with any consequential amendments; (iii) the obligations of the Substitute in respect of the Notes shall be unconditionally and irrevocably guaranteed by the Issuer; (iv) each stock exchange or listing authority on which the Notes are listed shall have confirmed that following the proposed substitution of the Substitute the Notes would continue to be listed on such stock exchange; and (v) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Noteholders in accordance with Condition 15.

(ii) *Modification of Terms and Conditions as a result of Substitution of Issuer*

After any substitution or change of branch pursuant to Condition 12(i) above, the Terms and Conditions will be modified in all consequential respects including, but not limited to, replacement of references to the Republic of Italy in the Terms and Conditions where applicable, by references to the country of incorporation, domicile and/or residence for tax purposes of the Substitute or the new branch, as the case may be. Such modifications shall be notified to Noteholders in accordance with Condition 15.

13. AGENTS AND REGISTRAR

The names of the initial Agents and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of any Agent and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:

In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

14. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 10.

The Issuer hereby appoints Banca IMI S.p.A., London Branch at its office for the time being in London, as its agent for service of process, and undertakes that, in the event of Banca IMI S.p.A., London Branch ceasing so to act, it will appoint another person as its agent for service of process in England in respect of any Proceedings. 21. ACKNOWLEDGEMENT OF THE ITALIAN BAIL-IN POWER

Notwithstanding any provision of these Conditions or any other agreements, arrangements, or understandings between the Issuer and any Noteholder, and without prejudice to Article 55(1) of the BRRD, by its acquisition of the Notes each Noteholder (which, for the purposes of this Condition 21, includes each holder of a beneficial interest in the Notes) acknowledges, accepts, consents to and agrees to be bound by:

- a) the effects of the exercise of the Italian Bail-in Power by the Italian Resolution Authority, which exercise may include and result in any of the following, or some combination thereof: (i) the reduction of all, or a portion, of the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto; (ii) the conversion of all, or a portion, of the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto, into ordinary shares, other securities or other obligations of the Issuer or another person (and the issue to or conferral on the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of these Conditions; (iii) the cancellation of the Notes or the principal amount in respect of the Notes together with any accrued but unpaid interest due thereon and any additional amounts (if any) due in relation thereto; and (iv) the amendment or alteration of the maturity of the Notes or amendment of the interest payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period; and
- b) the variation of these Conditions, as deemed necessary by the Italian Resolution Authority, to give effect to the exercise of the Italian Bail-in Power by the Italian Resolution Authority.

The exercise of the Italian Bail-in Power by the Italian Resolution Authority shall not constitute an event of default and these Conditions shall remain in full force and effect save as varied by the Italian Resolution Authority in accordance with this Condition 21.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be applied by the Issuer for its general corporate purposes. A substantial portion of the proceeds from the issue of certain Notes may be used to hedge market risk with respect to such Notes. If in respect of any particular issue, there is a particular identified use of proceeds, this will be stated in the applicable Final Terms.

DESCRIPTION OF THE ISSUER

History of the Issuer

The Issuer is a banking institution established under Italian law. It is the result of a number of reorganisations, which have resulted in:

- (i) the merger of the securities companies which operated under the names of Caboto Sim – Società di Intermediazione Mobiliare S.p.A. and Caboto Società di Intermediazione Mobiliare S.p.A. within the former Banca Intesa banking group into Banca Primavera S.p.A., a bank duly authorised by the Bank of Italy, which then changed its corporate name into Banca Caboto S.p.A., effective from 1 January 2004. Banca Caboto S.p.A. was then as resulting entity the investment bank of the former Banca Intesa banking group; and
- (ii) the merger of Banca d'Intermediazione Mobiliare IMI S.p.A., the investment bank of the former Sanpaolo IMI banking group, into Banca Caboto S.p.A., which then changed its corporate name into Banca IMI S.p.A., effective from 1 October 2007.

The merger by incorporation referred to at Paragraph (ii) above was part of a broader rationalisation of the business and companies belonging to the former Banca Intesa and Sanpaolo IMI banking groups upon merger of the two banking group in the Intesa Sanpaolo banking group effective 1 January 2007.

The Intesa Sanpaolo Group is the result of the merger effective 1 January 2007 of Sanpaolo IMI S.p.A. with Banca Intesa S.p.A. The former Banca Intesa banking group, prior to the merger, was also the result of a series of mergers, having been brought into existence in 1998 by the merger of Cariplo and Ambroveneto, followed in 1999 by the public exchange offer for 70 per cent. of Banca Commerciale Italiana, which was merged by incorporation in 2001. The former Sanpaolo IMI group was the result of the merger of Istituto Bancario San Paolo di Torino and Istituto Mobiliare Italiano in 1998, and of the subsequent integration of Banco di Napoli, in 2000 and of Gruppo Cardine, in 2002.

On 29 July 2009 Banca IMI S.p.A.'s extraordinary shareholders' meeting resolved in favour of a capital increase of Euro 750 million, including any premium price, which capital increase was subscribed by the sole shareholder Intesa Sanpaolo S.p.A. by contributing the *Investment Banking* business division to Banca IMI, thereby completing the integration of Banca Caboto and Banca IMI.

On 6 February 2018 the Board of Directors of Intesa Sanpaolo S.p.A., the parent company of the Issuer, approved the Group's 2018-2021 Business Plan (the "**Plan**"). The Plan lays down measures aimed, *inter alia*, at cost reduction through further simplification of the operating model. According to the Plan, 12 legal entities of the Intesa Sanpaolo Group, including Banca IMI, will be merged into the parent company Intesa Sanpaolo S.p.A..

Conflicts of interest of members of the Board of Directors and the Board of Statutory Auditors

As at the date of publication of this Base Prospectus, based on the duties of disclosure of directors and statutory auditors pursuant to article 2391 of the Italian civil code and article 136 of Legislative Decree no. 385/1993, the Issuer is not aware of any potential conflicts of interest between the obligations of the member of the board of directors to the Issuer and their private obligations and/or interests.

LEGAL AND ARBITRATION PROCEEDINGS

The administrative, legal or arbitration proceedings that may have or that have recently had a material effect on the Issuer's financial condition or profitability are described below.

As at 30 June 2018, provisions for risks and charges are in the amount of approximately € 56 million.

At the annual level, there were costs of Euro 37 million (Euro 113 million in 2016) for the charges relating to the ex-ante contribution to the Single Resolution Mechanism pursuant to Directive 2014/59/EU.

Tax Litigation

In 2017, similarly to the previous years, the Bank made use of remedies available to settle past tax litigation, which was explained in the previous financial statements.

In particular, it should be noted that the litigation referring to 2012, concerning “abuse of process” over alleged links between futures and cash instruments tied to listed equities, was concluded with an outlay of 1.5 million Euro compared to a demand from the tax authorities of 42 million Euro (for taxes, withholdings and fines). Although fully convinced of the groundlessness of this and previous similar claims, the decision to settle the various disputes was taken with a view to avoiding long and costly litigation over specific matters plagued by marked uncertainty.

Similar considerations led to the activation of the remedy for facilitated settlement of pending litigation (as per Art. 11 of Decree Law no. 50/1017) concerning the allegations pertaining to the former Banca d’Intermediazione Mobiliare IMI. The submitted applications for closing the litigation referred to the year 2005, with an outlay of 8.1 million euro compared to a tax demand of 18.7 million euro, and the year 2006 with an outlay of 0.5 million euro compared to a tax demand of 1.5 million euro.

At 31 December 2017 the residual tax litigation referred to the tax years 2003, 2004 and 2005 of the former Banca d’Intermediazione Mobiliare IMI, with an overall demand of 20 millions for taxes, fines and interest. A total of approximately 16 million euro in provisional deposits was paid in relation to the residual tax litigation; the entire amount was deducted from tax provisions allocated, with no credit entry

charged. In the event of losing the case, these amounts will be deducted from the amount owing to close the litigation or will be returned to Banca IMI if the case is won.

Additional provisions allocated to the relative tax fund cover the contingent tax liability estimate and the possible non-recognition of the registered tax credits in relation to taxes and withholdings for which a refund has been requested.

The Bank, which for the Tax Authorities is described as a “large taxpayer”, is periodically required to provide data and information on specific financial industry issues or about the procedures used to calculate the taxable base. In this regard, it is appropriate to mention the questionnaire from the Guardia di Finanza in February 2015 about certain decreases in tax returns for the years 2010 to 2013; the questionnaire from the Italian Inland Revenue in December 2016 concerned the Italian “Tobin Tax” and the questionnaire in August 2017 concerned economic growth aid (the ACE facilities).

On this last issue, an act of tax assessment for the year 2012 was received at the year-end with a fairly negligible demand. Since the act referred to specific topics relating to IAS adopter parties, although we were aware of the size of the demand, it was nevertheless deemed appropriate to submit a tax settlement proposal.

Interests in the Underlying Notes will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated by the CREST Depository as if it were one Underlying Note, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to CDI Holders any interest or other amounts received by it as holder of the Underlying Notes on trust for such CDI Holder. CDI Holders will also be able to receive from the CREST Depository notices of meetings of holders of Underlying Notes and other relevant notices issued by the Issuer.

Transfers of interests in Underlying Notes by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the corresponding CDIs and transfer of an interest in such Underlying Notes to the account of the relevant participant with Euroclear or Clearstream, Luxembourg.

The CDIs will have the same ISIN as the ISIN of the Underlying Notes and will not require a separate listing on the Official List.

Prospective subscribers for Notes represented by CDIs are referred to Section 3 (Crest International Manual) of the CREST Manual which contains the form of the CREST Deed Poll to be entered into by the CREST Depository. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer including the CREST Deed Poll in the form contained in Section 3 of the CREST Manual executed by the CREST Depository. These rights may be different from those of holders of Notes which are not represented by CDIs.

If issued, CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service. The settlement of the CDIs by means of the CREST International Settlement Links Service has the following consequences for CDI Holders:

- (i) CDI Holders will not be the legal owners of the Underlying Notes or have a direct beneficial interest in the Underlying Notes. The CDIs are separate legal instruments from the Underlying Notes to which they relate and represent an indirect interest in such Underlying Notes.
- (ii) The Underlying Notes themselves (as distinct from the CDIs representing indirect interests in such Underlying Notes) will be held in an account with a custodian. The custodian will hold the Underlying Notes through a clearing system. Rights in the Underlying Notes will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Notes or to interests in the Underlying Notes will depend on the rules of the clearing system in or through which the Underlying Notes are held.
- (iii) Rights under the Underlying Notes cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Notes will therefore be subject to the local law of the relevant intermediary. The rights of CDI Holders to the Underlying Notes are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Notes. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Notes in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Notes held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

- (iv) The CDIs issued to CDI Holders will be constituted and issued pursuant to the CREST Deed Poll. CDI Holders will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST manual issued by Euroclear UK & Ireland (including the CREST International Manual dated 14 April 2008) as amended, modified, varied or supplemented from time to time (the **CREST Manual**) and the CREST Rules (the **CREST Rules**) (contained in the CREST Manual) applicable to the CREST International Settlement Links Service and CDI Holders must comply in full with all obligations imposed on them by such provisions.
- (v) Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the CREST Depository as issuer of the CDIs.
- (vi) CDI Holders may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of potential investors is drawn to the terms of the CREST Deed Poll, the CREST Manual and the CREST Rules, copies of which are available from the CREST website from time to time (at the date of this Base Prospectus, being at www.euroclear.com/site/public/EUI).
- (vii) Potential investors should note CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the CDIs through the CREST International Settlement Links Service.
- (viii) Potential investors should note that none of the Issuer, the relevant Manager nor the Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.
- (ix) Potential investors should note that Notes represented upon issue by a Temporary Global Note exchangeable for a Permanent Global Note will not be immediately eligible for CREST settlement as CDIs. In such case, investors investing in the Underlying Notes through CDIs will only receive the CDIs after such Temporary Global Note is exchanged for a Permanent Global Note, which could take up to 40 days after the issue of the Notes. It is anticipated that Notes eligible for CREST settlement as CDIs will be issued in registered form or, if issued in bearer form, will be represented upon issue by a Permanent Global Note.

TAXATION

General Taxation Information

The following information provided below does not purport to be a complete summary of the tax law and practice currently available. Potential purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of transactions involving Notes.

Purchasers and/or sellers of Notes may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price (if different) of the Notes.

Transactions involving Notes (including purchases, transfer or redemption), the accrual or receipt of any interest payable on the Notes and the death of a holder of any Note may have tax consequences for potential purchasers which may depend, amongst other things, upon the tax status of the potential purchaser and may relate to stamp duty, stamp duty reserve tax, income tax, corporation tax, capital gains tax and inheritance tax.

Czech Taxation

The information set out below is of a general nature and relates only to basic aspects of the Czech tax treatment. Prospective holders of Notes should seek, in the light of their individual situation, their own professional advice. The information is based on the tax laws of the Czech Republic as in effect on the date of this Base Prospectus and their prevailing interpretations available on or before such date. All of the foregoing is subject to change, which could apply retroactively and could affect the continued validity of this summary.

For the purposes of this information, it has been assumed that the Issuer is not resident for tax purposes nor has it any permanent establishment in the Czech Republic.

Withholding tax

All interest and redemption payments to be made by the Issuer under the Notes may be made free of withholding or deduction of, for or on the account of any taxes of whatsoever nature imposed, levied, withheld or assessed by the Czech Republic or any political subdivision or taxing authority thereof or therein.

Individuals with Tax Residence in the Czech Republic

Personal Income Tax

Personal Income Tax is levied on the worldwide income obtained by Czech tax resident. Therefore, any income that Czech Note holders receive will be subject to Czech taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by individuals will be taxed at 15 % tax rate. In case when the Czech resident investor is an individual entrepreneur and the Notes are part of its business assets, the application of social / health insurance charges and solidarity tax (7%) should be considered based on individual situation.

Income arising on the disposal, redemption or reimbursement of the Notes will be generally calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition value. Costs and expenses effectively borne by the holder on the acquisition, holding and transfer of the Notes may be generally taken into account for calculating the relevant taxable income, provided that they can be duly justified.

The transfer or redemption income may be exempt from the personal income tax in case that the holding period exceeds three years and the Notes were not acquired while conducting business (i.e. the Notes were not considered as business assets).

The tax withheld in the source country, i.e. the country from which the income is paid, may be credited under the relevant provisions of the applicable double taxation treaty, if any.

Inheritance and Gift Tax

Inheritance and Gift Tax has been replaced by the income tax which is levied on individuals' heirs and recipients of the gifts. Specific rules for exemption on such transfers among the closest family members apply.

Legal Entities with Tax Residence in the Czech Republic

Corporate Income Tax

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by entities which are Czech tax resident are subject to 19 % corporate income tax. Furthermore, limited type of entities (e.g. investment funds) might be subject to 5% corporate income tax if certain requirements are met.

Income arising on the disposal, redemption or reimbursement of the Notes will be generally calculated as the difference between: (a) their disposal or redemption value; and (b) their acquisition value. Costs and expenses effectively borne by the holder on the acquisition, holding and transfer of the Notes may be generally taken into account for calculating the relevant taxable income, provided that they can be duly justified.

The tax withheld in the source country, i.e. the country from which the income is paid, may be credited under the relevant provisions of the applicable double taxation treaty, if any.

The same applies to foreign tax residents with Czech permanent establishments to which the Notes are attributable.

Tax security

In general, pursuant to the Czech tax law, Czech tax residents (or Czech permanent establishments of Czech tax non-residents) acquiring the Notes from a seller who is not a resident for tax purposes in the European Union or the European Economic Area are required to withhold and remit to Czech tax authorities as security for the income tax levy of such seller an amount of 1 % of the income (on a gross basis) of such seller. Such obligation can be eliminated under a tax treaty between the Czech Republic and the country in which the seller is a tax resident. Furthermore, it can be waived in advance based on a decision of Czech tax authorities.

Other taxes

The acquisition, transfer, redemption, reimbursement and exchange of the Notes will not be subject to any Transfer Tax or Stamp Duty.

French Taxation

The following is a general discussion of certain French taxation matters and is (i) based on the laws and practice in force as of the date of this Base Prospectus and subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect and (ii) prepared on the assumption that the Issuer is not (and will not be) a French resident for French tax purposes (whether actually or constructively) and the Notes (or any transaction in connection with the Notes) are not (and will not be) attributed or attributable to a French branch or permanent establishment or other fixed place of business of the Issuer in France. Investors should be aware that the statements below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors should consult their professional advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or sale of the Notes.

Withholding tax

All payments by the Issuer in respect of the Notes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Italy or any political subdivision or taxing authority thereof or therein.

All payments by the Issuer in respect of the Notes will be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent is established in France, pursuant to Article 125 A of the French *Code général des impôts*, subject to certain limited exceptions, as from 1 January 2018, interest and similar income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8% withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 17.2% on interest and similar income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

Transfer tax and other taxes

The following may be relevant in connection with Notes which may be settled, repaid or redeemed by way of physical delivery of certain French shares (or certain assimilated securities).

The French financial transaction tax provided under Article 235 *ter* ZD of the French *Code général des impôts* is applicable, subject to certain exceptions, at a rate of 0.3% to any acquisitions of equity securities (*titres de capital*) or certain assimilated equity securities, provided that they are listed on a regulated market and that they are issued by an issuer whose registered office is located in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the acquisition. If the financial transaction tax applies to a transaction, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1% to the sale of shares issued by a company whose registered office is located in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

German Taxation

The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Notes. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This general discussion is based on the tax laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

As each Series or Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Series or Tranche of Notes as set out in the respective Final Terms, the following section only provides some general information on the possible tax treatment.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Notes, including the effect of any state, local or church taxes, under the tax laws of Germany and any country of which they are resident or whose tax laws apply to them for other reasons.

Tax Residents

The section “*Tax Residents*” refers to persons who are tax residents of Germany (i.e. persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany).

Withholding tax on ongoing payments and capital gains

Ongoing payments received by an individual Noteholders will be subject to German withholding tax if the Notes are kept or administrated in a custodial account with a German branch of a German or non-German bank or financial services institution, a German securities trading company or a German securities trading bank (each, a German Disbursing Agent, *auszahlende Stelle*). The tax rate is 25 per cent (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). For individual Noteholders who are subject to church tax an electronic information system for church withholding tax purposes applies in relation to investment income, with the effect that church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the investor will be assessed to church tax.

The same treatment applies to capital gains (i.e. the difference between the proceeds from the disposal, redemption, repayment or assignment after deduction of expenses directly related to the disposal, redemption, repayment or assignment and the cost of acquisition) derived by an individual Holder provided the Notes have been held in a custodial account with the same German Disbursing Agent since

the time of their acquisition. If Notes held or administrated in the same custodial account were acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where Notes are acquired and/or sold or redeemed in a currency other than Euro the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively with the result that any currency gains or losses are part of the capital gains. If interest coupons or interest claims are disposed of separately (i.e. without the Notes), the proceeds from the disposition are subject to withholding tax. The same applies to proceeds from the payment of interest coupons or interest claims if the Notes have been disposed of separately.

To the extent the Notes have not been kept in a custodial account with the same German Disbursing Agent since the time of their acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent (including solidarity surcharge, plus church tax, if applicable) on 30 per cent of the disposal proceeds (plus interest accrued on the Notes (Accrued Interest, *Stückzinsen*), if any), unless the current German Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous German Disbursing Agent or by a statement of a bank or financial services institution within the European Economic Area or certain other countries in accordance with art. 17 para. 2 of the Council Directive 2003/48/EC of June 3, 2003 on the taxation of savings income (e.g. Switzerland or Andorra).

Pursuant to a tax decree issued by the German Federal Ministry of Finance dated January 18, 2016, as currently amended, a bad debt-loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*), to the extent the waiver does not qualify as a hidden capital contribution, shall not be treated like a disposal. Accordingly, losses suffered upon such bad debt-loss or waiver shall not be tax-deductible. The same rules should be applicable according to the said tax decree, if the Notes expire worthless so that losses may not be tax-deductible at all. However, expert literature and the German tax courts have taken a different view. Pursuant to this view the losses mentioned above are tax deductible (FG Niedersachsen EFG 2014,1584 (final and enforceable verdict)).

In computing any German tax to be withheld, the German Disbursing Agent may generally deduct from the basis of the withholding tax negative investment income realised by the individual Holder of the Notes via the German Disbursing Agent (e.g. losses from the sale of other securities with the exception of shares). The German Disbursing Agent may also deduct Accrued Interest on the Notes or other securities paid separately upon the acquisition of the respective security via the German Disbursing Agent. In addition, subject to certain requirements and restrictions the German Disbursing Agent may credit foreign withholding taxes levied on investment income in a given year regarding financial instruments held by the individual Holder in the custodial account with the German Disbursing Agent.

Individual Holders may be entitled to an annual allowance (*Sparer-Pauschbetrag*) of €801 (€1,602 for married couples and for partners in accordance with the registered partnership law (*Gesetz über die Eingetragene Lebenspartnerschaft*) filing jointly) for all investment income received in a given year. Upon the individual Holder filing an exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, the German Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Noteholder has submitted to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Notes held by a corporation as Holder while ongoing payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred). The same may apply where the Notes form part of a trade or business, subject to further requirements being met.

Taxation of current income and capital gains

The personal income tax liability of an individual Holder deriving income from capital investments under the Notes is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in the case of Notes kept in custody abroad or if no German Disbursing Agent is involved in the payment process, the individual Holder must report his or her income and capital gains derived from the Notes on his or her income tax return and then will also be taxed at a rate of 25 per cent (plus solidarity surcharge and church tax thereon, where applicable). If the withholding tax on a disposal, redemption, repayment or assignment has been calculated from 30 per cent of the disposal proceeds (rather than from the actual gain), an individual Holder may - and in case the actual gain is higher than 30 per cent of the disposal proceeds must - also apply for an assessment on the basis of his or her actual acquisition costs. Further, an individual Holder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any amounts over withheld being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemized basis is not permitted.

Losses incurred with respect to the Notes can only be off-set against investment income of the individual Noteholder realised in the same or the following years.

Where Notes are assets of a trade or business the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Notes are part of the assets of a trade or business, interest (accrued) must be taken into account as income. Where Notes qualify as zero bonds and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. The respective Holder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Holder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the Holder. Where Notes are assets of a German trade or business the current income and gains from the disposal, redemption, repayment or assignment of the Notes may additionally be subject to German trade tax.

Non-residents

Interest, including Accrued Interest, and capital gains are not subject to German taxation, unless (i) the Notes are assets of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Holder or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii) a tax regime similar to that explained above under "*Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and the solidarity surcharge thereon. However, where the interest is subject to German taxation as set forth in the preceding paragraph and the Notes are held or administrated in a custodial account with a German Disbursing Agent, withholding tax may be levied under certain circumstances. Where Notes are not kept in a custodial account with a German Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Note or an interest coupon are paid by a German Disbursing Agent to a non-resident upon delivery of the Notes or interest coupons, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business

for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax is not levied in Germany.

The European Commission and certain EU Member States (including Germany) are currently intending to introduce a financial transactions tax (FTT) (presumably on secondary market transactions involving at least one financial intermediary). It is currently uncertain when the proposed FTT will be enacted by the participating EU Member States and when the FTT will enter into force with regard to dealings with the Notes.

EU Savings Directive

By legislative regulations dated 26 January 2004 the German Federal Government enacted provisions implementing the information exchange on the basis of the EU Savings Directive into German law.

These provisions apply from July 1, 2005.

Hungarian Taxation

The following is a general discussion of certain Hungarian tax consequences relating to the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. It is based on laws currently in force in Hungary and applicable on the date of this Base Prospectus, but subject to change, possibly with retrospective effect. The acquisition of Notes by non-Hungarian holders, or the payment of interest under Notes may trigger additional tax payments in the country of residence of the relevant holder, which is not covered by this summary, but where the provisions of the treaties on the avoidance of double taxation should be taken into consideration. Prospective purchasers of Notes are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of Hungary and each country of which they are residents.

Taxation of Hungarian resident individual holders

The Act CXVII of 1995 on Personal Income Tax (the **Personal Income Tax Act**) applies to the tax liability of Hungarian and foreign private individuals. The tax liability of Hungarian resident private individuals covers the worldwide income of such persons.

According to the provisions of the Personal Income Tax Act, in the case of individual holders, interest income (**Interest Income**) - among others - is the income paid as interest and the capital gains realised upon the redemption or the sale of publicly offered and publicly traded debt securities (with the exception of the sale of collective investment securities on the Hungarian stock market and the stock market of any EEA or OECD state). Notes should qualify as debt securities. Notes listed on a regulated market of an EEA member state are considered publicly offered and traded Notes. The personal income tax of 15 per cent. will be withheld by a payor (**Payor**, as defined below) on the Interest Income.

The proceeds paid on privately placed Notes which are not listed on a regulated market of an EEA member state are considered as other income (**Other Income**) and are subject to:

- personal income tax at a rate of 15 per cent. and

- a health care contribution of 19.5 per cent., as well. (As of 1 January 2019, the health care contribution is repealed and replaced with social security contribution at a rate of 19.5 per cent.)

The capital gains realised on the sale or redemption of such Notes is considered, as a general rule, capital gains income (**Capital Gains Income**). The Capital Gains Income is subject to:

- personal income tax at a rate of 15 per cent., and
- health care contribution of 14 per cent (capped at HUF 450 000), as well. (As of 1 January 2019, the health care contribution is repealed and replaced with social security contribution at a rate of 19.5 per cent. In case of Capital Gains Income, the social security contribution is capped at the amount which is calculated based on the following formula: *applicable national minimum wage * 24 * 0,195*.)

Proceeds realised on CDIs may qualify as Other Income. Overall, capital gains realised on the sale of such CDIs should qualify as Capital Gains Income.

The rules of the Personal Income Tax Act may in certain circumstances impose a requirement upon the "**Payor**" (*kifizető*) (as defined below) to withhold tax on the interest payments to individual holders. In certain circumstances, Act LXVI of 1998 on Healthcare Contributions (Act LII of 2018 on social security contribution with effect of 1 January 2019) also imposes a requirement on the **Payor** to withhold health care contribution (social security contribution) on payments provided to private individuals which are subject to health care contribution (social security contribution) where health care contribution (social security contribution) is payable by the private individual.

Pursuant to the Act CL of 2017 on Rules of Taxation (ART) the definition of a **Payor** covers a Hungarian resident legal person, other organisation, or private entrepreneur that (who) provides taxable income, irrespective of whether such payment is made directly or through an intermediary (post office, credit institution). In respect of interest, **Payor** shall mean the borrower of a loan or the issuer of a note, including the investment service provider or credit institution providing the interest instead of it. In respect of revenues originating from a transaction concluded with the involvement of a licensed stockbroker, **Payor** shall mean such stockbroker. In respect of income that is earned in a foreign country and taxable in Hungary, **Payor** shall mean the "paying agent" (*megbízott*) (legal person, organisation or private entrepreneur) having tax residency in Hungary, except in cases where the role of a financial institution is limited to performing the bank transfer or payment.

In addition, for personal income tax purposes Payor means the Hungarian resident credit institution agent which provides taxable income in connection with the service provision of the foreign person/entity performed in Hungary. In the absence of a Payor, the individual is obliged to assess, report and pay the taxes on Interest Income.

Personal Income Tax Rate

The personal income tax rate is 15%.

Taxation of Hungarian resident corporate holders

Under Act LXXXI of 1996 on Corporate Tax and Dividend Tax (the **Corporation Tax Act**), Hungarian resident taxpayers have a full, all-inclusive tax liability. In general, resident entities are those established under the laws of Hungary (i.e. having a Hungarian registered seat). Foreign persons having their place of management in Hungary are also considered as Hungarian resident taxpayers.

In general, interest and capital gains realised by Hungarian resident corporate holders on Notes will be taxable in the same way as the regular income of the relevant holders.

The corporate tax rate is 9% (flat rate). Financial institutions, financial enterprises, insurance companies and investment enterprises may be subject to local business tax, innovation tax and sectoral taxes on the basis of the proceeds realised on Notes.

Withholding tax (foreign resident corporate holders)

Tax liability of non-resident corporate entities arises if the non-resident corporate entity holds the Notes via the Hungarian permanent establishment (limited tax liability).

Italian Taxation

The statements herein regarding taxation are based on the laws in force in Italy as of the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following general discussion does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Notes.

Italian Taxation

Legislative Decree No. 239 of 1 April 1996 (**Decree 239**), as subsequently amended, provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from Notes issued, *inter alia*, by Italian banks, falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by Italian banks. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value.

In any case, it can not be excluded that Italian Tax Authorities consider the Notes issued as Atypical Securities, which have the specific tax regime hereinafter described.

Italian resident Noteholders

Where an Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected (unless the individual has opted for the application of the "*risparmio gestito*" regimes – see "*Capital Gains Tax*" below), (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Notes are subject to a tax withheld at source, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. If the Noteholders described under (i) or (iii) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an authorised intermediary, interest, premium and other income from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder's annual income tax return and are therefore subject to general Italian corporate taxation (and in certain circumstances, depending on the "*status*" of the Noteholder (i.e. banks or insurance companies) also to the regional tax on productive activities (**IRAP**)).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 (**Decree 351**), as clarified by the Italian Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003 and Circular No. 11/E of 28 March 2012, payments of interest, premiums or other proceeds in respect of the Notes made to

Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, or pursuant to Article 14-bis of Law No. 86 of 25 January 1994 or a SICAF, to which the provisions of Decree 351, as subsequently amended, apply (“**Real Estate SICAF**”) are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund or the Real Estate SICAF.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund, or open-ended investment company (*società di investimento a capitale variabile* – SICAV) or an close-ended investment company, other than a real estate investment company (*società di investimento a capital fisso* – SICAF) established in Italy or either (i) the fund, SICAF/SICAV or (ii) their manager is subject to the supervision of a regulatory authority (the **Fund**), and the relevant Notes are held by an authorised intermediary, interest, premium and other income accrued during the holding period on such Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results but a withholding tax of 26 per cent will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Where an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorised intermediary, interest, premium and other income relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent substitute tax.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, SGRs, stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each an **Intermediary**).

An Intermediary must (i) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Noteholder.

Non-Italian resident Noteholders

Where the Noteholder is a non-Italian resident without a permanent establishment in Italy to which the Notes are connected, the *imposta sostitutiva* is not applied provided that the non-Italian resident beneficial owner is either (i) resident, for tax purposes, in a country which allows a satisfactory exchange of information with Italy; or (ii) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (iii) a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) an institutional investor which is incorporated in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of a taxpayer in its own country of residence.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent, or at the reduced rate provided for by the applicable double tax treaty, to interest, premium and other income paid to Noteholders who are resident, for tax purposes, in countries which do not allow a satisfactory exchange of information with Italy and listed in a Ministerial Decree to be issued under Article 11, par. 4, let. c) of Decree no. 239 (the **White List**). The White List will be updated every six months period. In absence of the issuance of the

White List, reference has to be made to the list set out by the Italian Ministerial Decree dated 4 September 1996, as amended from time to time.

In order to ensure gross payment, non-Italian resident Noteholders must be the beneficial owners of the payments of interest, premium or other income and (i) deposit, directly or indirectly, the Notes with a resident bank or SIM or a permanent establishment in Italy of a non-Italian resident bank or SIM or with a non-Italian resident entity or company participating in a centralised securities management system which is in contact, via computer, with the Ministry of Economy and Finance; and (ii) file with the relevant depository, prior to or concurrently with the deposit of the Notes, a statement of the relevant Noteholder, which remains valid until withdrawn or revoked, in which the Noteholder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign central banks or entities which manage, inter alia, the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001, as subsequently amended.

Failure of a non-Italian resident Noteholders to comply in due time with the procedures set forth in Decree No. 239 and in the relevant implementation rules will result in the application of *imposta sostitutiva* on Interest payments. Noteholders who are subject to the substitute tax might, nevertheless, be eligible for a total or partial relief under an applicable tax treaty between the Republic of Italy and the country of residence of the relevant Noteholder.

Atypical Securities

Interest payments relating to Notes that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*), shares (*azioni*) or securities similar to shares (*titoli similari alle azioni*) pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986 may be subject to a withholding tax, levied at the rate of 26 per cent.

Where the Noteholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Notes are connected, (b) an Italian company or a similar Italian commercial entity, (c) a permanent establishment in Italy of a foreign entity to which the Notes are effectively connected, (d) an Italian commercial partnership or (e) an Italian commercial private or public institution and trusts, such withholding tax applies as a provisional withholding tax. In all other cases the withholding tax is levied as a final withholding tax.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax in case of payments to non-Italian resident Noteholders, subject to proper compliance with relevant subjective and procedural requirements.

Capital gains tax

Any gain obtained from the sale or redemption of the Notes would be treated as part of taxable income (and, in certain circumstances, depending on the "*status*" of the Noteholder, also as part of the net value of production for IRAP purposes), if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Where an Italian resident Noteholder is an individual not engaged in an entrepreneurial activity to which the Notes are connected and certain other persons, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Noteholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below. Under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the 26 per cent *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Noteholder, holding Notes not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay the 26 per cent *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Due to the Law Decree no. 66 of 24 April 2014, as converted with amendments by Law No. 89 of 23 June 2014 ("**Law No. 89**"), capital losses realized from January 1, 2012 to June 30, 2014 may be offset against capital gains realized after that date for an amount equal to 76.92% of the same capital losses.

As an alternative to the tax declaration regime, Italian resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale or redemption of the Notes (the "*risparmio amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express election for the *risparmio amministrato* regime being timely made in writing by the relevant Noteholder. The depository is responsible for accounting for *imposta sostitutiva* (26 per cent) in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a sale or redemption of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.

Pursuant to Law No. 89, capital losses realized from January 1, 2012 to June 30, 2014 may be offset against capital gains realized after that date for an amount equal to 76.92% of the same capital losses. Any capital gains realised by Italian resident individuals holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Pursuant to Law No. 89, depreciations of the managed assets reported during the period from January 1, 2012 to June 30, 2014, may be offset against increases in value of the managed assets accrued after that date for an amount equal to 76.92% of the same depreciations. Any capital gains realised by a Noteholder which is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may be subject to the a withholding tax of 26 per cent in the hands of the unit/shareholders.

Under the current regime provided by Decree 351, as clarified by the Italian Revenue Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003 and Circular No. 11/E of 28 March 2012, payments of interest, premiums or other proceeds in respect of the Notes made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, or pursuant to Article 14-bis of Law No. 86 of 25 January 1994 or to a Real Estate SICAF are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund or of a Real Estate SICAF.

Any capital gains realised by a Noteholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax.

Capital gains realised by non-Italian resident Noteholders, not having a permanent establishment in Italy to which the Note is connected, from the sale or redemption of Notes traded on regulated markets are not subject to *imposta sostitutiva*.

Capital gains realised by non-Italian-resident Noteholders, not having a permanent establishment in Italy to which the Notes are connected, from the sale or redemption of Notes and not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the effective beneficiary: (i) is resident for income tax purposes in a State included in the White List; or (ii) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (iii) is a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is resident in a country which allows for a satisfactory exchange of information with Italy, even if it does not possess the status of a taxpayer in its own country of residence.

If none of the conditions above are met, capital gains realised by non-Italian resident Noteholders from the sale or redemption of Notes issued by an Italian resident Issuer, not listed in regulated markets, are subject to the *imposta sostitutiva* at the current rate of 26 per cent.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale or redemption of Notes.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, €1,000,000;
- (ii) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, €100,000; and
- (iii) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the heir/heirress and/or the donee is a person with a severe disability pursuant to Law n. 104 of February 5, 1992, inheritance tax or gift tax is applied to the extent that the value of the inheritance or gift exceeds €1,500,000.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarized deeds are subject to fixed registration tax at rate of €200; (ii) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 13 par. 2/ter of the tariff Part I attached to Presidential Decree No. 642 of 26 October 1972, as amended by Article 1 par. 581 of Law No. 147 of 27 December 2013 ("**Decree 642**"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients in respect of any financial product and instrument, which may be deposited with such financial intermediary in Italy. The stamp duty applies at the rate of 0.20 per cent. and it cannot exceed € 14,000 for taxpayers which are not individuals. This stamp duty is determined on the market value or – in the absence of a market value – on the nominal value or the redemption amount of any financial product or financial instruments. Based on the interpretation of the law, it may be understood that the stamp duty applies both to Italian resident and non-Italian resident Securityholders, to the extent that the Securities are held with an Italian-based financial intermediary.

The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable pro-rata.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the relevant regulations issued by the Bank of Italy) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Tax monitoring

Pursuant to Law Decree No. 167 of 28 June 1990, converted by Law No. 227 of 4 August, 1990, as amended, individuals resident in Italy who hold investments abroad or have financial activities abroad must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree No. 201 of 6 December 2011 as amended by Article 1 par. 582 of Law No. 147 of 27 December 2013, Italian resident individuals holding the Securities outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent.. In this case the above mentioned stamp duty provided for by Article 13 of the tariff Part I attached to Decree 642 does not apply.

This tax is calculated on the market value of the Securities at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Irish Taxation

The following is a summary of the Irish withholding tax treatment of the Notes. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date of this Base Prospectus and may be subject to change. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Notes. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of payments thereon under any laws applicable to them.

Irish Withholding Tax

Irish withholding tax applies to certain payments including payments of:

- (a) Irish source yearly interest (yearly interest is interest that is capable of arising for a period in excess of one year);
- (b) Irish source annual payments (annual payments are payments that are capable of being made for a period in excess of one year and are pure income-profit in the hands of the recipient); and
- (c) Distributions (including interest that is treated as a distribution under Irish law) made by companies that are resident in Ireland for the purposes of Irish tax;

at the standard rate of income tax (currently 20 per cent).

On the basis that the Issuer is not resident in Ireland for the purposes of Irish tax, nor does the Issuer operate in Ireland through a branch or agency with which the issue of the Notes is connected, nor are the Notes held in Ireland through a depository or otherwise located in Ireland, then to the extent that payments of interest or annual payments arise on the Notes, such payments should not be regarded as payments having an Irish source for the purposes of Irish taxation.

Accordingly, the Issuer or any paying agent acting on behalf of the Issuer should not be obliged to deduct any amount on account of these Irish withholding taxes from payments made in connection with the Notes.

Separately, for as long as the Notes are quoted on a stock exchange, a purchaser of the Notes should not be obliged to deduct any amount on account of Irish tax from a payment made by it in connection with the purchase of the Notes.

Irish Encashment Tax

Payments on any Notes paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Notes will be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Notes entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

Polish Taxation

General Information

The following is a discussion of certain Polish tax considerations relevant to an investor resident in Poland or which is otherwise subject to Polish taxation. This statement should not be deemed to be tax advice. It is based on Polish tax laws and, as its interpretation refers to the position as at the date of this prospectus, it may thus be subject to change including a change with retroactive effect. Any change may negatively affect tax treatment, as described below. This description does not purport to be complete with respect to all tax information that may be relevant to investors due to their personal circumstances. Prospective purchasers of the securities are advised to consult their professional tax advisor regarding the tax consequences of the purchase, ownership, disposal, redemption or transfer without consideration of the securities. The information provided below does not cover tax consequences concerning income tax exemptions applicable to specific taxable items or specific taxpayers (eg domestic or foreign investment funds).

The reference to "interest" as well as to any other terms in the paragraphs below means "interest" or any other term as understood in Polish tax law.

Polish tax resident individuals (natural persons)

A Polish tax resident individual is a natural person who has his/her centre of personal or business interests located in Poland or who stays in Poland for longer than 183 days in a year, unless otherwise results from the relevant tax treaty.

Interest income

Under Art. 30a.7 of the Personal Income Tax (the Act on Personal Income Tax dated 26 July 1991, as amended (consolidated text, J.L. 2018, No. 200), the **PIT Act**), interest income does not cumulate with general income subject to the progressive tax rate, but under Art. 30a.1.2 of the PIT Act it is subject to 19 per cent. flat rate tax.

Under Art. 41.4 of the PIT Act, the interest payer, other than an individual not acting within the scope of his/her business activity, should withhold the 19 per cent. Polish tax upon any interest payment. Under Art. 41.4d of the PIT Act, the entities operating securities accounts for the individuals, acting as tax remitters, should withhold this interest income if such interest income (revenue) has been earned in the territory of Poland and is connected with securities registered in the said accounts, and the interest payment to the individual (the taxpayer) is made through said entities. Please note that as of 1 January 2019 said obligation will relate to the foreign entities (not being Polish tax residents) rendering activity in the territory of Poland via a permanent establishment and provided said operating securities account is allocated to the activity rendered by such permanent establishment in Poland. There are no regulations on where interest income is earned. In practice, unless specific circumstances indicate otherwise, it is considered that interest income is earned at the jurisdiction of the debtor. Although this is not expressly regulated in the tax law, in practice, the obligation to withhold Polish income tax applies only to Polish interest payers and not foreign payers. Consequently, no Polish withholding tax should be withheld on interest payment made from securities issued by a foreign (here: not Polish) company.

Separate, specific rules apply to interest income on securities held on Polish omnibus accounts. Under Article 41.10 of the PIT Act, insofar as securities registered in omnibus accounts are concerned, the entities operating omnibus accounts through which the amounts due are paid are liable to withhold the flat-rate income tax on interest income. The tax is charged on the day of placing the amounts due at the disposal of the omnibus account holder. Please note that as of 1 January 2019 said obligation will relate to the foreign entities (not being Polish tax residents) rendering activity in the territory of Poland via a permanent establishment and provided said omnibus account is allocated to the activity rendered by such permanent establishment in Poland.

Pursuant to Article 30a.2a of the PIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Polish omnibus accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19% flat-rate tax is withheld by the tax remitter (under art. 41.10 of the PIT Act the entity or Polish branch of foreign entity operating the omnibus account) from the aggregate income (revenue) released for the benefit of all such taxpayers through the omnibus account holder.

Under Article 45.3b of the PIT Act, if the tax is not withheld, the individual is obliged to settle the tax himself/herself by 30 April of the following year.

Under Article 30a.9 of the PIT Act, withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability.

Income from disposal of securities

Under Art. 30b.5 of the PIT Act, income derived as a result of disposing of securities (including notes) does not cumulate with general income subject to the progressive tax rate, but under Art. 30b.1. of the PIT Act it is subject to 19 per cent. flat rate tax. The income shall be determined, as a rule, as the difference between the sum total of revenues earned and deductible costs, determined in accordance with the PIT Act (usually, the acquisition costs is recognised at the time the revenue is earned).

Under Art. 30b.5a of the PIT Act if the taxpayer, has derived income both in and outside of the territory of the Republic of Poland, those incomes shall be combined and the amount equal to income tax paid abroad shall be deducted from the tax assessed on the sum total of those incomes. However, that deduction may not exceed 19 per cent of the income obtained abroad.

Under Art. 30b.6 of the PIT Act after the end of the tax year, the taxpayer shall be obliged to declare in the tax return income derived in the tax year from disposing of securities. Thus, this income should be settled (reporting of the income and payment of tax) by the taxpayer by 30 April of the year following the year in which the income was earned. No tax or tax advances are withheld by the person making the payments. Securities held as business assets.

Securities held as business assets

If an individual holds the securities as business assets and renders business activity in this respect, in principle, interest and capital gains income should be subject to tax in the same way as other business income. The tax, at 19 per cent. flat rate or the 18 per cent. to 32 per cent. progressive tax rate depending on the choice and meeting of certain conditions by the individual, should be settled by the individual himself/herself.

Polish tax resident corporate income taxpayers

A Polish tax resident being a legal person or an entity treated as a legal person for corporate income tax purposes is a corporate income taxpayer having its registered office or place of management in Poland. Such entity is subject to income tax arising from capital gains in respect of the securities, while other income received from business activity is recognised as income from other sources (operational income). As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when it is received and not when it has accrued. In respect of capital gains on disposal, the cost of acquiring the securities will be recognised at the time when the revenue from the disposal of securities for remuneration is recognised, i.e. at the moment when the security is disposed. The taxpayer itself (without the involvement of the tax remitter) computes income on interest (discount) and capital gains on disposal of

securities, which are not aggregated with other income derived from business operations conducted by the taxpayer. Only when the taxable profits resulting from both capital gains and other sources of income are computed both figures are aggregated and tax is computed.

The appropriate tax rate for a corporate income taxpayer will be the same as the tax rate applicable to business activity, i.e. 19 per cent.

Under Article 20.1 of the Corporate Income Tax Law (the Act on Corporate Income Tax dated 15 February 1992, as amended (consolidated text, J.L. 2018, item 1036), the CIT Act), withholding tax incurred on interest outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. of the interest amount, could be deducted from the Polish tax liability. Double tax treaties may provide other methods of double taxation avoidance.

Non-Polish tax residents: natural person or corporate income taxpayers

Non-Polish tax resident individual is a natural person who does not have his/her centre of personal or business interests located in Poland and who does not stay in Poland for longer than 183 days in a year, unless the respective double tax treaty provides otherwise.

Non-Polish tax resident corporate income taxpayer is the corporate income taxpayer who does not have its registered office and place of management in Poland, unless the respective double tax treaty provides otherwise.

Non-Polish tax resident individuals and corporate income taxpayers are subject to Polish income tax only with respect to their income earned in Poland. There are no explicit regulations on where interest or capital gains or other income is earned. However, in practice it is considered that if securities are issued by a foreign entity, interest should not be considered as having been earned in Poland. In such case, capital gains should neither be considered as arising in Poland unless the securities listed on the regulated market in Poland, payments are made by Polish individual or entity to non-Polish resident or if non-Polish resident under certain circumstances moves its assets (securities) from Poland abroad (so-called exit tax to be introduced in Poland as of 1 January 2019) in which case the tax authorities may consider the income as originating in Poland. If the first is the case (securities traded in Poland), however, most of the tax treaties concluded by Poland provide for a tax exemption with respect to Polish income tax on capital gains derived from Poland by a foreign tax resident. In order to benefit from a tax treaty, a foreign investor should present a relevant certificate of its tax residency.

Please note that the withholding tax obligations will change in Poland as of 1 January 2019. In principle, WHT will become obligatory for certain cross-border payments. Even when a lower rate or an exemption is available, for example under a bilateral tax treaty entered into by Poland, the WHT has to be withheld in full by the withholding agent based on Polish domestic law (at either 19 percent or 20 percent) and remitted to the relevant tax authority. The tax authority may provide a refund after it has verified the right of the non-resident taxpayer to benefit from a reduced rate or an exemption. In principle, the changes will affect cross-border payments exceeding PLN 2 million annually paid to a non-resident taxpayer. The payments that may be affected by these changes include interest, but also dividends, royalty fees as well as various services (such as marketing, management, advisory or guarantees). Tax remitters (ie, the withholding agents) will have the option to apply the existing regime to any payments exceeding PLN2 million by filing an additional statement (together with relevant documents) to the tax authority. If a foreign recipient of income acts through a permanent establishment in Poland to which interest is related, as a matter of principle it should be treated in the same manner as a Polish tax resident.

Moreover, with respect to the interest payments, the relevant provisions of the EU Savings Directive may apply.

Tax on civil law transactions

In light of Art. 1.1.1.a of the Tax on Civil Law Transactions Act (the Act on the Tax on Civil Law Transactions dated 9 September 2000, as amended (consolidated text, J.L. 2015, No.626, item 1045, amended)), agreements for sale or exchange of assets or proprietary rights are subject to tax on civil law transactions. Such transactions are taxable if their subjects are:

- assets located in Poland or proprietary rights exercisable in Poland;
- assets located abroad or proprietary rights exercisable abroad if the acquirer's place of residence or registered office is located in Poland and the civil law transaction was carried out in Poland.

Neither an issuance of Securities nor a redemption of Securities is subject to tax on civil law transactions.

If due, tax on the sale or exchange of Securities (which, as a rule are considered to be rights) is 1% of their market value. It is payable within 14 days after the sale or exchange agreement has been entered into. However, if such agreement has been entered into in notarial form, before a Polish notary public, the tax due should be withheld and paid by the notary public. Tax on sale of Securities is payable by the entity acquiring the Securities. In the case of exchange agreements, tax on civil law transactions should be payable by both parties jointly and severally.

In practice, however, the majority of transactions such as selling the Securities on a regulated market (within the meaning of the Act on Trading in Financial Instruments) or to or with intermediation of investment firms or foreign investment firms, are tax-exempt.

Remitter's liability

Under Art. 30.1 of the Tax Code (the Tax Code dated 29 August 1997, as amended (consolidated text, J.L. 2012, item 749, amended)), a tax remitter failing to fulfil its duty to calculate, withhold or pay tax to a relevant tax authority is liable for the tax that has not been withheld or that has been withheld but not paid, up to the value of all its assets. The tax remitter is not liable if the specific provisions provide otherwise or if tax has not been withheld due to the taxpayer's fault. In such a case, the relevant tax authority issues a decision concerning the taxpayer's liability. Please note that as of 1 January 2019 such liability of the tax remitter will not be excluded in certain circumstances, e.g. taxpayer and tax remitter were related entities, one of mentioned entities was dominant entity towards the other one, taxpayer or tax remitter were from tax heavens or jurisdiction which does not concluded double taxation treaty with Poland, taxpayer or tax remitter were managed, controlled or in relation with funder or beneficiary of the foundation, trust or similar fiduciary entity, tax remitter did not fulfil its withholding obligations in relation to entity whereas it is not possible to establish based on the publically available information identity of the shareholder having at least 10 percent of shares, voting rights of participation in profits.

General Anti Abuse Rule

Based on the new rules that enter into force on July 15, 2016, any action (agreement, restructuring process, etc.) that is carried out mainly for the purpose of achieving a tax benefit and which is considered by the tax authorities as against the aims of the tax law and artificial will not give the suspected benefit. An artificial action is an action which normally would not be taken by a reasonable entity, if there were no tax benefits resulting therefrom. As of 1 January 2019 GAAR will be amended, including its definitions, providing that action will not give the suspected tax benefit, whereas achieving that tax

benefit contradicting in given circumstances with purposes and aim of the tax legislation was main or one of the main objectives of its execution and the manner it was conducted is considered as artificial.

Slovak Taxation

General

*The information set out below describes certain material Slovak tax consequences for the holders of the debt securities who are individuals residing for tax purposes in the Slovak Republic or corporate entities having their registered office or place of actual management in the Slovak Republic or Slovak permanent establishments of foreign entities and individuals, to which the income from Notes is allocated (the **Slovak Holders**); a 'place of actual management' is defined as a 'place where management decisions and business decisions of the board of directors or the supervisory board are made, even in cases where the address of such place is not registered with the relevant commercial register'.*

The information in this section is based on the laws of the Slovak Republic as of the date of this Base Prospectus, except otherwise stated below. The statements are subject to any future changes in law, which changes could be made on a retroactive basis. The statements do not provide a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes. Some categories of investors may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisers concerning the tax consequences of their ownership of the Notes.

Slovak income tax

A Slovak Holder is considered as a taxpayer with an unlimited taxation duty under Slovak tax law. Generally, corporate Slovak Holders are subject to a flat 21 per cent income tax rate from 1 January 2017. Income of individual Slovak Holders not exceeding 35,268.06 EUR (176.8-fold of the subsistence minimum, i.e. subsistence minimum applicable as of 1 January of the respective tax period) is subject to a 19 per cent income tax rate. Income above this threshold is subject to a 25 per cent income tax rate.

Capital income of individuals received till 31 December 2015 was included into the general tax base. As of 1 January 2016 taxation of income from capital is included in the separate tax base, with a tax rate of 19 %. This concerns also income from capital realised on redemption of the Notes.

Capital gain from sale of the Notes is handled differently from interest, i.e. it is included into general tax base. In such case the tax base shall be equal to the taxable income less any expenses, which may be documented as having been incurred in order to generate the income. Expenses that can be deducted are the purchase price proven to be paid for the Notes, or when there is no purchase (e.g. donation, inheritance), then the price for the Notes determined at the time when the Notes were acquired, and the expenses related to the acquisition or purchase of the Notes. The income from derivative operations is taxed as capital gains. Expenses, which could be deducted from the income of derivative operations are all charges and another similar payment (fees) related to the realization of derivative operations and another expenses related to settlement of these derivative operations.

The capital gains from the sale of the notes are exempt from Slovak personal income tax, if the aggregate of the tax base considered as the "other income" (i.e. debentures, shares, bills of exchange etc.) does not exceed the flat amount of EUR 500. This limit for exemption cumulatively applies also to e.g. rental income, income from the transfer of options, income from the transfer of an interest in a company etc. If the above mentioned limit is exceeded, only the excess amount is included in the tax base. Further, the

income from the sale of the Notes accepted for the trading on a regulated market or a similar foreign regulated market is exempt from tax, if the period between their acquisition and sale exceeds one year. Income from the sale of the Notes is not exempt from tax, if the Notes were included into business assets of the taxpayer.

From the tax shall be exempt also the income from sale of Notes, options and income from derivative transactions derived from long-term investment savings after fulfillment of conditions set (determined) in the special act including income paid after 15 years from the beginning of long-term investment savings. Such income from sale is not exempt from tax if such Notes, options and income from the derivative transactions were included into business assets of the taxpayer.

A loss from sale of Notes shall not be offset against gains from sale of Notes in the same fiscal period - only the expenses up to the amount of income shall be considered upon the calculation of the tax base. Under the specific conditions stated below, the full loss incurred may be considered as a tax deductible expense, these are:

- (i) bonds, the selling price of which is not lower by more than the interest accrued on the bonds and included in the tax base prior to the date of sale or the date of maturity of the bond; and
- (ii) for taxable persons who engage in trading with securities pursuant to special legislation, and which may deduct the expense of the acquisition of the securities up to the amount posted as their cost.

Interest and capital gains from debt securities realised by a corporate Slovak Holder are taxable in the same way as the regular income of the corporate Slovak Holder. The revenue is to be included in a general tax base (or, if applicable, a partial tax base) of that corporate Slovak Holder for Slovak income tax purposes. Generally, no Slovak withholding tax shall apply to revenues from debt securities having their source in Slovakia (paid by Slovak tax resident or from foreign entity having permanent establishment in Slovakia). In the Slovak tax legislation there are two exceptions applicable. The withholding tax shall be imposed for the interest and capital gain flown to the corporate Slovak Holder which is not established for entrepreneurial purposes (e.g. non-profit organisations) or to the National Bank of Slovakia (*Národná banka Slovenska*). Further, the withholding tax shall be applicable for the interest (excluding the income from the government bonds and treasury bills) which flown to the individuals. Withholding tax rate is set at 19 per cent. A 35 per cent withholding tax rate shall apply where the payment is made to a resident in listed jurisdictions (i.e. states with which the Slovak Republic concluded neither Double Taxation Avoidance Treaty nor Agreement on exchanging of information for tax purposes). Withholding tax shall not apply to respective interest and capital gains received by a Slovak Holder, from foreign sources.

In accordance with the Double Taxation Avoidance Treaty concluded between Italy and Slovak Republic, any interest income which originates in one contracting state (Italy) to tax resident of other contracting state (Slovak Republic) shall be taxed in this other contracting state (Slovak Republic), if this person is the final beneficiary of income.

The above-mentioned provisions shall not apply if the beneficiary who has seat or place of residence in one contracting state (Slovak Republic), performs business activities by means of permanent establishment in other contracting state (Italy) and income is directly attributable to this permanent establishment. In such case the income shall be subject to tax only in the state of permanent establishment (Italy) in accordance with the local legislation.

Health insurance contributions

As a consequence of the extension of the base for calculation of health insurance contributions, revenues from the Notes held by an individual Slovak Holder who is mandatorily insured in the Slovak public health insurance scheme should be subject to health insurance contribution unless these are subject to withholding tax (income subject to withholding tax in Slovak Republic is excluded from calculation base for health insurance contributions). However, due to repeated recent amendments to the withholding tax and health insurance contributions regimes, each Slovak Holder must evaluate obligations in this area which may arise under the relevant legislation, including transitional provisions.

Slovenian Taxation

The following is a general description of certain Slovenian tax considerations relating to the Notes, based on the Issuer's understanding of the current law and its practice in Slovenia. It does not purport to be a complete analysis of all relevant tax considerations. Furthermore, it only relates to the position of investors who are beneficial owners of the Notes and the interest and may not apply to certain classes of investors. Prospective purchasers of the Notes should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of the Republic of Slovenia of acquiring, holding and disposing of the Notes and receiving payments of interest, principal and/or other amounts under the Notes. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

1. Taxation of individuals

Residents

Individuals, who are residents in Slovakia, are subject to unlimited income tax liability on their world-wide income (i.e. income from domestic and foreign sources). An individual is resident in Slovakia if he/she has his/her domicile (a registered permanent stay), residence or habitual place of abode (a physical presence for more than 183 days in a calendar year) in Slovakia. Residence shall mean (in the context of the double-taxation treaties) the possibility of accommodation, which is permanently available to physical person, other than occasional accommodation for the purposes of business travels, tourism, recreation, etc., while an intention of physical person to permanently reside in the state with respect to his/her personal and economic ties is obvious.

Corporations having their registered office and/or their place of effective management in the territory of Slovakia are subject to corporate income tax in Slovakia on their world-wide income (i.e. income from domestic and foreign sources).

Non-residents (both individuals and corporations) are subject to income tax only on income from the sources in Slovakia. Both in case of residents and non-residents Slovak's right to tax may be restricted by a relevant double taxation treaty.

Residents and non-residents

In accordance with the Personal Income Tax Act (*Zakon o dohodnini; ZDoh-2*), an individual is deemed to be a resident of Slovenia if his registered permanent address, habitual place or the centre of his personal and economic interests is in Slovenia. In addition, any person who has been present in Slovenia in a tax year for more than 183 days in the aggregate is deemed to be a resident in the tax year. Resident individuals are subject to income tax on their worldwide income. In general, all income, profits and gains are taxable, unless specifically exempt by law.

In accordance with the Personal Income Tax Act, non-residents are subject to tax on income derived from a source in Slovenia.

Withholding tax is generally levied at a rate of 25 per cent. Source taxation may be obviated or reduced pursuant to the terms of an applicable double taxation treaty, with the holder applying for a refund with the Slovenian tax authorities providing proof of eligibility. If withholding tax is paid abroad, the credit may not exceed the lower of the following: a) the tax actually paid on the foreign-source income (according to the tax treaty, if applicable); and b) the tax payable on such income in Slovenia which would apply in the absence of the credit relief (Article 137 of the Personal Income Tax Act).

Taxation of capital gains

Under the Personal Income Tax Act (*Zakon o dohodnini; ZDoh-2*), capital gains from the sale or other disposition of debt securities and other financial derivatives held as non-business assets are in general exempt from taxation.

According to the Act on the Taxation of Profits from the Disposal of Derivatives (*Zakon o davku od dobička od odsvojitve izvedenih finančnih instrumentov; ZDDOIFI*) the tax base is established on the basis of the difference between the acquisition value of the financial derivative and their market value upon disposal, whereby the tax rate for capital gains depends on the holding period. Capital gains made at alienation of financial derivatives (as defined in the Article 7 of the Financial Instruments Market Act (*Zakon o trgu finančnih instrumentov; ZTFI-1*) and debt securities (except for coupon debt securities and discount debt securities) by a resident individual are taxed at the rate of 40 per cent (when alienated in the first 12 months of holding) and 25 per cent (in the following 4 years of holding). The tax rate is further reduced by 10 percentage points for the next 5 years of holding, so that the rate of 15 per cent applies after 5th year of holding, and further by 5 percentage points for each following 5 years of holding so that 10% and 5 per cent tax rate applies after the 10th and 15th year of holding, respectively. After the 20th year of holding 0 per cent tax rate applies.

Capital gains are not aggregated with other income, but are reported on separate tax returns. Tax returns for the previous year must be filed by Slovenian tax residents (individuals) until 28th February of the current year. Non-residents are required to file a tax return within 15 days after disposing of their financial derivatives, unless they file a return for all transactions related to securities or other interests in any capital executed in the previous year. In such cases, non-residents may file their tax returns for the previous year by 28 February of the current year.

Taxation of interest

Under the Slovenian tax laws currently in effect, the payment of interest on the debt securities (as defined in the Article 81 of the Slovenian Personal Income Tax Act (*Zakon o dohodnini; ZDoh-2*) in accordance with their terms and conditions to a resident individual (within the meaning of the relevant provisions of ZDoh-2) will generally be subject to tax at a flat rate of 25 per cent (levied by way of withholding or by way of assessment), provided that these qualify as non-business assets. Income from a disposal or repurchase by the issuer of discounted debt securities (including non-coupon debt securities) shall also be considered as interest income (in accordance with the Article 88 of ZDoh-2). Tax return must be filed by Slovenian tax residents (individuals) for the previous year by 28 February of the current year.

Pursuant to the Article 54 of ZDoh-2 interest on securities issued in series held by a resident individual as business assets will generally qualify as non-business income, in which case it would be subject to the flat rate of 25% as described above, instead of the progressive tax rate of up to 50 per cent, which generally applies to business income.

Interest are not aggregated with other income, but are reported on separate tax returns.

Taxation of dividends

Dividends and other profit distributions are taxed by way of a 25 per cent final withholding tax (Article 134 of Personal Income Tax Act (*Zakon o dohodnini*; *ZDoh-2*). Dividends are not aggregated with other income, but are reported on separate tax returns. When a taxable person receives dividends directly from abroad, such person is required to file tax return for the previous year by 28 February of the current year.

Inheritance and gift taxation

Individuals and private law entities (within the meaning of the Article 3 of the Slovenian Inheritance and Gift Tax Act (*Zakon o davku na dediščine in darila*; *ZDDD*) are subject to Slovenian inheritance and gift tax in case of a transfer of the securities *mortis causa* or *inter vivos*. The tax rates are progressive and depend on the value of the assets transferred and on the relationship between the deceased/the donor on the one hand and the heir/the donee on the other hand (i.e. double progression). Heirs/donees from the first hereditary order are exempt from gift tax or inheritance tax.

An exemption may apply in certain cases, such as to transfers between direct descendants and between spouses, as well as to a transfer of movable property the total value of which does not exceed EUR 5,000 (Article 2 of Inheritance and Gift Tax Act).

Withholding tax

Withholding tax must be withheld at source and deducted from payments of interest, dividends, royalties, and other incomes if such taxable income is paid by local tax payer. In other cases, tax return must be filed by individual upon receipt of such income.

EU Savings Directive

EU Savings Directive has been incorporated in sub-chapter 10 of chapter I of part five of Slovenian Tax Procedure Act (*Zakon o davčnem postopku*; *ZDavP-2*) and has come into force on 1st July 2005. However, since then the Directive (EU) 2015/2060 repealing the EU Savings Directive has come into force and those provisions have been stricken and the directive has also been implemented in chapter II of part four of Slovenian Tax Procedure Act.

For further information please refer to the paragraph below, headed *EU Savings Directive*.

No gross-up for taxes withheld

Purchasers of the Notes should note that according to the Terms and Conditions neither the Issuer nor any other person will assume any liability for taxes withheld from payments under the Notes, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply if a withholding tax is imposed.

EU Financial Transaction Tax

On the European Union level negotiations are underway in order to implement a harmonized financial transaction tax which might have a negative impact on the receipts deriving from the Notes.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Slovenia in connection with the issuance, delivery or execution of the Notes. In accordance with value added tax rules, transactions concerning financial instruments are tax exempt and interest on notes, which do not represent payment for a transaction, are not subject to taxation. Currently, net assets tax is not levied in Slovenia.

2. Taxation of corporations

Under the Slovenian tax laws currently in effect, the payment of interest on the securities in accordance with their terms and conditions within the meaning of the relevant provisions of the Slovenian Corporate Income Tax Act (Zakon o davku od dohodkov pravnih oseb; ZDDPO), received by (i) a legal person resident for tax purposes in the Republic of Slovenia; or by (ii) a permanent establishment (poslovna enota) in the Republic of Slovenia of a legal person not resident for tax purposes in the Republic of Slovenia, is considered as a part of the overall taxable income. The Corporate Income Tax is levied on the net profits, defined according to the profit and loss account, as stipulated by the law and the Accounting Standards. The general corporate income tax rate is 19 per cent. since 1.1.2017.

Taxation of dividends

Dividends and income similar to dividends (with the exception of certain hidden reserves) are, pursuant to article 24 of the Slovenian Corporate Income Tax Act, exempt from the tax base of a corporate shareholder, if the payer of dividends is:

- liable for corporate income tax in accordance with the Slovenian Corporate Income Tax Act; or
- for taxation purposes, a resident of an EU Member State in accordance with the law of that Member State, and is in accordance with a double taxation treaty concluded with a non-EU Member State not considered to reside outside of the EU, and is additionally liable for one of the taxes for which a common system of taxation is applicable to parent companies and affiliates from different EU Member States, as determined by the Slovenian Minister of Finance, where a company which is exempt from corporate income tax or that has the option of choosing its taxation is not considered to be liable for payment of corporate income tax; or
- liable for the payment of corporate income or profit tax comparable to Slovenian corporate income tax and is not resident of a state (or has a permanent establishment not located in a state) where the general or average nominal tax rate for the taxation of profit is lower than 12.5% and where this state is on the list published by the Slovenian Ministry of Finance and the Slovenian Tax Administration; whereby, this rule shall not apply to a payer who is resident of another EU member state, in accordance with the previous paragraph.

The above rules are applicable to non-resident recipients of dividends if their interest in the capital or in the management of the company paying the dividends is connected with business activities performed through an establishment in Slovenia.

The above-described exemption from the tax base of a corporate holder of the notes is applicable under the condition that the current or past taxation period's revenues have been included in the corporate holder's tax base, on the basis of such income.

In accordance with article 70 of the Slovenian Corporate Income Tax Act, the payer must, at the time of dividend payment, withhold and pay withholding tax at the rate of 15%, unless the recipient is: the Republic of Slovenia or a self-governing local community in Slovenia; the Bank of Slovenia; a resident who notifies the payer of their tax number, or a non-resident liable for the payment of

corporate income tax deriving from their activities in or through a permanent establishment in the Republic of Slovenia who notifies the payer of their tax number, if the dividends are payable to such permanent establishment.

In accordance with article 70 of the Slovenian Corporate Income Tax Act, the tax shall not be calculated, withdrawn and paid if the dividends are payable to:

- a resident of an EU or an EEA Member State who is liable to pay income taxes in a foreign state (except for income paid to the permanent establishment of a non-resident in Slovenia), if such entity cannot claim the withholding tax in the state of its residence (as with, for example, the exemption of dividends from the tax base) and the transaction is not considered to represent tax avoidance; or
- foreign pension funds, investment funds and insurance companies providing pension plans, residents of the EU or EEA Members States (except for income paid to the permanent establishment of a non-resident in Slovenia), if such entity cannot claim the withholding tax in the state of their residence (if, for example, such funds or insurance companies are exempt from tax payment or are subject to a 0% tax rate).
- exemptions determined in the previous two points do not refer to payments made to states with which the exchange of information is not assured (a list of such states is published by the Slovenian Minister of Finance).
- pursuant to article 71 of the Slovenian Corporate Income Tax Act, tax shall not be withheld from payments of dividends and income similar to dividends if the entity authorised to receive a given payment is subject to the common system of taxation applied to parent companies and affiliate companies from different EU Member States, provided that:
 - the entity authorised to receive the payment holds at least 10% of the value or number of shares or interests in the share capital, nominal capital, or voting rights of the company paying the dividend; and
 - such minimum participation in the value or number of shares or interest in the share capital, nominal capital or voting rights, has been in effect for at least 24 months; and
 - the entity authorised to receive the payment is: a) a legal entity formed as an entity for which a common taxation system is used and which is applicable to parent companies and affiliates from different EU Member States, as determined by the Slovenian Minister of Finance; b) for taxation purposes, a resident of an EU Member State in accordance with the law of that Member State and is in accordance with a double taxation treaty concluded with a non-EU member state not considered to reside outside of the EU, and c) is liable for one of the taxes subject to the common system of taxation applicable to parent companies and affiliates from different EU Member States or, with respect to companies exempt from income tax or that may choose their taxation, is determined by the Slovenian Minister of Finance to be an entity subject to corporate income tax.

Withholding tax

Withholding tax must be withheld at source and deducted from payments of interest, dividends, royalties, and some other payments if such payments have source in Slovenia and are paid abroad.

Other Taxes

No stamp, issue or registration taxes or such duties will be payable in Slovenia in connection with the issuance, delivery or execution of the Notes. In accordance with value added tax rules, transactions concerning financial instruments are tax exempt and interest on notes, which do not represent payment for a transaction, are not subject to taxation. Currently, net assets tax is not levied in Slovenia.

3. Financial Services Tax

The subject of taxation according to Article 3 of the Financial Services Tax Act (*Zakon o davku na finančne storitve; ZDFS*) are the following services: a) granting and negotiation of credit or loans in monetary form and the management of credit or loans in monetary form by the person who is granting the credit or the person who is granting the loan; b) issuing of credit guarantees or any other security for money and management of credit guarantees by the person who is granting the credit; c) transactions, including negotiation, concerning deposit and current or transaction accounts, payments, transfers, debts, cheques and other negotiable instruments; d) transactions, including negotiation, concerning currency, bank notes and coins used as legal tender; e) services provided by insurance brokers and agents.

A taxable person shall be any person who provides the above financial services in the territory of the Republic of Slovenia. It shall be deemed that a financial service referred to in Article 3 of this Act has been provided in the territory of Slovenia if it is provided by a person who has established his business or has a fixed establishment from which such financial service is provided or has his usual or permanent place of residence in the territory of Slovenia. It shall be also deemed that a financial service has been provided in the territory of Slovenia if it is provided by a person who has established his business or has a place of establishment from which the service is provided or has or has his habitual or permanent place of residence outside Slovenia, but may, in accordance with the existing legislation, provide the financial services in the territory of Slovenia directly to clients or recipients of services who have established their business or have a place of establishment or their usual or permanent place of residence in the territory of Slovenia.

Applicable tax rate is 8.5 per cent and is chargeable on the commission of a financial service (Article 7 of Financial Services Tax Act). It shall be deemed that a financial service has been provided when a fee for the commission of the service has been paid. The fee referred to in the preceding paragraph shall exclude interest payable by a contractor of services to a taxable person for the provision of the agreed financial service when such interest does not constitute the payment of fees by a taxable person for the service provided.

Portuguese Taxation

The following discussion is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Portugal, though it is not intended to be, nor should it be construed as being, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Notes or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Notes and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules.

Noteholder's Income Tax

Income generated by the holding, distributions and disposal of the Notes is generally subject to the Portuguese tax regime for debt representative securities (*obrigações*).

Economic benefits derived from interest, amortisation, reimbursement premiums and other types of remuneration arising from the Notes are designated as investment income for Portuguese tax purposes.

Withholding tax arising from the Notes

Payments of principal on the Notes to corporate entities or to individuals are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any remuneration component.

The Issuer, being a non resident entity, is not responsible for the Portuguese withholding tax, whenever applicable, on interest payments arising from the Notes.

Corporate entities

Under current Portuguese law, investment income payments in respect of the Notes made to Portuguese tax resident companies are included in their taxable income and is subject to a corporate tax rate (i) 21 per cent. or (ii) if the taxpayer is a small or medium enterprise as established in Decree-Law no. 372/2007, of 6 November 2007, 17 per cent. for taxable profits up to € 15,000 and 21 per cent. on profits in excess thereof. A municipal surcharge (*derrama municipal*) of up to 1.5 per cent. may also be due over the Noteholders taxable profits, depending on the municipality where the company operates. Corporate taxpayers with a taxable income of more than € 1,500,000 are also subject to a state surcharge ("*derrama estadual*") rate of (i) 3 per cent. due on the part of the taxable profits exceeding €1,500,000 up to €7,500,000; (ii) 5 per cent. on the part of the taxable profits exceeding €7,500,000 up to € 35,000,000, and (iii) 9 per cent. on the part of the taxable profits that exceeds € 35,000,000.

Individuals

As regards investment income on the Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 28 per cent if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at progressive personal income tax rates of up to 48 per cent. If this election is made, an additional income tax rate will be due on the part of the taxable income exceeding € 80,000 as follows: (i) 2.5 per cent on the part of the taxable income exceeding € 80,000 up to € 250,000, and (ii) 5 per cent on the remaining part (if any) of the taxable income exceeding € 250,000. In this case, any tax withheld is deemed a payment on account on the final tax due. Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified and as a consequence the tax rates applicable to such beneficial owner(s) will apply.

Investment income payments due by non resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 28 per cent. whenever those payments are not subject to Portuguese withholding tax, unless the individual elects for aggregation to his taxable income, subject to tax at progressive personal income tax rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding € 80,000 as follows: (i) 2.5 per cent on the part of the taxable income exceeding € 80,000 up to € 250,000, and (ii) 5 per cent on the remaining part (if any) of the taxable income exceeding € 250,000.

Implementation of EU Savings Directive in Portugal

Portugal has implemented the EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income into the Portuguese law through Decree-Law no 62/2005, of 11 March, 2005, as amended by Law no 39-A/2005, of 29 July, and by Law no. 37/2010, of 2 September.

Spanish Taxation

The following discussion is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Spain, though it is not intended to be, nor should it be construed to be, legal or tax advice. This section does not constitute a complete description of all the tax issues that may be relevant in making the decision to invest in the Notes or of all the tax consequences that may derive from the subscription, acquisition, holding, transfer, redemption or reimbursement of the Notes and does not purport to describe the tax consequences applicable to categories of investors subject to special tax rules. Prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, regional or local law in Spain, to which they may be subject.

Individuals with Tax Residence in Spain

Personal Income Tax

Personal Income Tax is levied on an annual basis on the worldwide income obtained by Spanish resident individuals, whatever the source is and wherever the relevant payer is established. Therefore any income that Spanish holders of the Notes may receive under the Notes will be subject to Spanish taxation.

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by individuals who are tax resident in Spain will be regarded as financial income for tax purposes (i.e. a return on investment derived from the transfer of own capital to third parties).

Both types of income will be included in the savings part of the taxable income subject to Personal Income Tax and will be taxed at the following tax rates: (i) for financial income up to €6,000: 19 per cent.; (ii) for financial income from €6,000.01 to €50,000: 21 per cent.; and (iii) for any amount in excess of €50,000: 23 per cent.

Spanish holders of the Notes shall compute the gross interest obtained in the savings part of the taxable base of the tax period in which it is due, including amounts withheld, if any.

Income arising on the disposal, redemption or reimbursement of the Notes will be calculated as the difference between: (a) their disposal, redemption or reimbursement value; and (b) their acquisition or subscription value. Costs and expenses effectively borne by the holder on the acquisition and transfer of the Notes may be taken into account for calculating the relevant taxable income, provided that they can be duly justified.

Likewise, expenses relating to the management and deposit of the Notes, if any, will be tax deductible, excluding those pertaining to discretionary or individual portfolio management.

Losses that may derive from the transfer of the Notes cannot be offset if the investor acquires homogeneous Notes within the two-month period prior or subsequent to the transfer of the Notes, until he/she transfers such homogeneous Notes.

Additionally, tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

Wealth Tax

Spanish resident individuals are subject to Wealth Tax in tax period 2018 to the extent their net worth exceeds €700,000. However, the potential Wealth Tax liability should be analysed in connection with local regulations of each Spanish Region, provided that some of them foresee full exemption of Wealth Tax. Wealth Tax is levied on the net worth of an individual's assets and rights. The marginal rates range between 0.2 per cent. and 3.75 per cent. and some reductions could apply. Individuals with tax residency in Spain who are under the obligation to pay Wealth Tax must take into account the value of the Notes which they hold as at 31 December each year, when calculating their Wealth Tax liabilities.

As regards the application of Wealth Tax in fiscal year 2019 and onwards, prospective investors should consult their own professional advisers.

Inheritance and Gift Tax

Inheritance and Gift Tax is levied on individuals' heirs and donees resident in Spain for tax purposes. It is calculated taking into account several circumstances, such as the age and previous net worth of the heir or donee and the kinship with the deceased person or donor. The applicable tax rate currently ranges between 7.65 and 34 per cent. depending on the particular circumstances, although the final tax payable may increase up to 81.6 per cent. This is nevertheless subject to the specific rules passed by the relevant Spanish regions with respect to this tax.

Legal Entities with Tax Residence in Spain

Corporate Income Tax

Both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes obtained by entities which are resident for tax purposes in Spain shall be computed as taxable income of the tax period in which they accrue.

The general tax rate for limited liability companies is 25 per cent. Special rates apply in respect of certain types of entities (such as qualifying collective investment institutions or credit entities).

Tax credits for the avoidance of international double taxation may apply in respect of taxes paid outside Spain on income deriving from the Notes, if any.

Individuals and legal entities with no Tax Residence in Spain

A non-resident holder of Notes, who has a permanent establishment in Spain to which such Notes are effectively connected with, is subject to Spanish Non-Residents' Income Tax on any income under the Notes, including both interest periodically received and income arising on the disposal, redemption or reimbursement of the Notes. In general terms, the tax rules applicable to individuals and legal entities with no tax residence in Spain but acting through a permanent establishment in Spain are the same as those applicable to Corporate Income taxpayers (explained above).

Spanish withholding tax

Where a financial institution (either resident in Spain or acting through a permanent establishment in Spain) acts as depositary of the Notes or intervenes as manager in the collection of any income under the Notes, such financial institution will be responsible for making the relevant withholding on account of Spanish tax on any income deriving from the Notes. The withholding tax rate in Spain is 19 per cent.

Amounts withheld in Spain, if any, can be credited against the final Spanish Personal Income Tax liability, in the case of Spanish tax resident individuals, or against final Spanish Corporate Income Tax liability, in the case of Spanish corporate, or against final Non-Residents' Income Tax, in the case of a Spanish permanent establishment of a non-resident holder of the Notes. However, holders of the Notes who are Corporate Income Taxpayers or Non-Residents' Income Taxpayers acting through a permanent establishment in Spain to which the Notes are effectively connected with can benefit from a withholding tax exemption when the Notes are listed in an OECD official stock exchange. This will be the case as the Notes are expected to trade on the Euronext Dublin's Regulated Market.

Furthermore, such financial institution may become obliged to comply with the formalities set out in the Regulations on Spanish Personal Income Tax (Royal Decree 439/2007, of 30 March) and Corporate Income Tax (Royal Decree 634/2015, of 10 July) when intervening in the transfer or reimbursement of the Notes.

Indirect taxation

The acquisition, transfer, redemption, reimbursement and exchange of the Notes will be exempt from Transfer Tax and Stamp Duty as well as Value Added Tax.

United Kingdom Taxation

The following applies only to persons who are the beneficial owners of the Notes and is a general discussion of the Issuer's understanding of certain aspects of current United Kingdom law and HM Revenue and Customs ("HMRC") published practice in the United Kingdom relating to the withholding tax treatment of interest payments, stamp duty and stamp duty reserve tax in each case, in respect of the Notes, only. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. This discussion is not intended to be, nor should it be regarded as, legal or tax advice.

The United Kingdom tax treatment of prospective Noteholders will depend on their individual circumstances and may be subject to change in the future, particularly as a result of the UK electorate vote to leave the European Union on 23 June 2016 (Brexit). The precise tax treatment of a Noteholder will also depend on the terms of the Notes, as specified in the Terms and Conditions of the Notes as amended and supplemented by the applicable Final Terms under the law and practice at the relevant time. Prospective Noteholders should consult their own tax advisers in all relevant jurisdictions to obtain advice about their particular tax treatment in relation to such Notes.

The below assumes that (i) the Notes will be issued and raised by Banca IMI S.p.A. (as Issuer) and not by, or on behalf of, any United Kingdom company; (ii) no Notes will be registered in a register kept in the United Kingdom; (iii) the Notes will not be capable of physical settlement or redemption other than in cash and (iv) no Note will give its holder the right to subscribe for, or otherwise acquire, either stock, shares or loan capital (or an interest in, or right arising out of, stock, shares or loan capital) registered in a register kept in the United Kingdom, or shares that are paired with shares issued by a body corporate incorporated in the United Kingdom. Stamp Duty and Stamp Duty Reserve Tax ("SDRT")

No United Kingdom stamp duty or United Kingdom SDRT should be required to be paid on the issue into Euroclear or Clearstream, Luxembourg of Bearer Global Notes or Registered Global Notes.

Stamp duty may be chargeable (currently at a rate of 1.5 per cent.) in relation to sterling denominated Bearer Notes originally issued outside of the United Kingdom, on the first transfer by delivery in the United Kingdom of any such Bearer Notes.

No United Kingdom stamp duty should be required to be paid on the transfer of any Notes within Euroclear or Clearstream, Luxembourg on the basis that no instrument is used to effect the transfer.

No United Kingdom SDRT should be payable on the transfer of any Notes within Euroclear or Clearstream, Luxembourg.

No United Kingdom stamp duty or United Kingdom SDRT should be payable on the redemption of the Notes.

United Kingdom Withholding Tax on Interest Payments by the Issuer

Provided that the interest on the Notes does not have a United Kingdom source, interest on the Notes may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax. The location of the source of a payment is a complex matter. It is necessary to have regard to case law and HMRC practice. Case law has established that in determining the source of interest, all relevant factors must be taken into account. HMRC has indicated that the most important factors in determining the source of a payment are those which influence where a creditor would sue for payment, and has stated that the place where the Issuer does business, and the place where its respective assets are located, are the most important factors in this regard; however HMRC has also indicated that, depending on the circumstances, other relevant factors may include the place where the interest and principal are payable, the method of payment, the governing law of the Notes and the competent jurisdiction for any legal action, the location of any security for the Issuer's obligations under the Notes and similar factors relating to any guarantee.

Interest which has a United Kingdom source ("**UK interest**") may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax if the Notes in respect of which the UK interest is paid are issued for a term of less than one year (and are not issued under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more).

UK interest on Notes issued for a term of one year or more (or under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax if the Notes in respect of which the UK interest is paid constitute "quoted Eurobonds". Notes which carry a right to interest will constitute quoted Eurobonds provided they are and continue to be listed on a recognised stock exchange (within the meaning of section 1005 of the Income Tax Act 2007 (the "**Act**")) or admitted to trading on a multilateral trading facility (within the meaning of, and for the purposes of, section 987 of the Act).

The Issuer's understanding of current HMRC practice is that the Irish Stock Exchange trading as Euronext Dublin is a recognised stock exchange for these purposes, and that securities which are listed and admitted to trading on the Main Market of Euronext Dublin may be regarded as "listed on a recognised stock exchange" for these purposes.

In all other cases, UK interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20%) subject to such relief as may be available.

Other Rules Relating to United Kingdom Withholding Tax

If Notes are issued at an issue price of less than 100% of their principal amount, any discount element on any such Notes should not generally be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above.

Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax as outlined above.

Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.

The references to "interest" and "principal" above mean "interest" and "principal" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation. Noteholders should seek their own professional advice as regards the withholding tax treatment of any payment on the Notes which does not constitute "interest" or "principal" as those terms are understood in United Kingdom tax law. Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified in the applicable Final Terms of the Notes). In such a case, the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to such relief as may be available.

The above description of the United Kingdom withholding tax position assumes that there will be no substitution or other change in the identity of the Issuer and does not consider the tax consequences of any such substitution or change.

Reporting of information

HMRC has powers to obtain information and documents relating to the Notes, including in relation to issues of and other transactions in the Notes, interest, payments treated as interest and other payments derived from the Notes. This may include details of the beneficial owners of the Notes, of the persons for whom the Notes are held and of the persons to whom payments derived from the Notes are or may be paid. Information obtained by HMRC may be provided to tax authorities in other jurisdictions.

Netherlands Taxation

General

The following is an overview of certain Dutch tax consequences of the acquisition, holding and disposal of the Notes. It does not purport to be a comprehensive description of all Dutch tax considerations that may be relevant for a decision to acquire, hold or dispose of the Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular Note holder.

This overview is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect. Any such change may invalidate the contents of this overview, which will not be updated to reflect such change.

Where this summary refers to The Netherlands, such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

Out of scope

This overview does not address the Netherlands tax consequences for:

- a) holders of Notes holding a substantial interest ('*aanmerkelijk belang*') or a deemed substantial interest ('*fictief aanmerkelijk belang*') in the Issuer. A substantial interest is generally present if a holder holds, alone or together with his spouse or partner, either directly or indirectly, the ownership of, or certain other rights (including rights to obtain shares, whether or not already issued) over, (a) shares representing 5% or more of the total issued and outstanding capital (or of the issued and outstanding capital of any class of shares) of a company, (b) profit sharing certificates, or membership rights in a cooperative or a cooperative association, entitling the holder to 5% or more of the profits or of the liquidation distributions of a company, a cooperative or a cooperative association, or (c) membership rights representing 5% or more of the voting rights in the general meeting of a cooperative or a cooperative association;
- b) fiscal investment institutions ('*fiscale beleggingsinstellingen*');
- c) pension funds, exempt investment institutions ('*vrijgestelde beleggingsinstellingen*') or other entities that are exempt from Netherlands corporate income tax;
- d) corporate holders of Notes qualifying for the participation exemption ('*deelnemingsvrijstelling*'). Generally speaking, a shareholding can, inter alia, only qualify as a participation for the participation exemption if it represents an interest of 5% or more of the nominal paid-up share capital; and
- e) holders of Notes that fall under the scope of The Foreign Account Tax Compliance Act (FATCA).

Holder of Notes

Where in this section "*Netherlands Taxation*" reference is made to a "holder of Notes", such reference will include, without limitation:

- an owner of one or more Notes who, in addition to the title to such Notes, has an economic interest in such Notes,
- a person or an entity that holds the entire economic interest in one or more Notes,
- a person or an entity that holds an interest in an entity, such as a partnership or a mutual fund, that is transparent for Netherlands tax purposes, the assets of which comprise one or more Notes, and
- a person who is deemed to hold an interest in Notes, as referred to under any of the above, pursuant to the attribution rules of article 2.14a, of the Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), with respect to property that has been segregated, for example, in a trust or a foundation.

Withholding Tax

All payments made by the Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, except where the Issuer is a tax resident of The Netherlands for Netherlands dividend withholding tax purposes and securities (i) are shares or profit certificates (*winstbewijzen*) in the Issuer, (ii) are issued under such terms and conditions that such Securities are capable of being classified as equity of the Issuer for Netherlands tax purposes or (iii) actually function as equity of the Issuer within the meaning of article 10, paragraph 1, letter d, of the Netherlands Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*) or (iv) are issued that are redeemable in exchange for, convertible into or linked to shares or other equity instruments issued or to be issued by the Issuer or by any entity related to the Issuer. If due, dividend withholding tax is to be

withheld at a rate of 15% by the Issuer for the account of the ultimate beneficiary of the payment, unless an exemption or reduction is available.

Tax Residents

Generally, all income derived from the Notes by its holder who is a resident or deemed to be a resident of The Netherlands and that is subject to Netherlands corporate income tax (*vennootschapsbelasting*) will be included in the holder's taxable profit, subject to Netherlands corporate income tax at a rate of 25%; a step up rate of 20% applies to the first €200,000 of taxable profits. Capital gains and losses arising on the disposal and redemption of the Notes will be included in the holder's taxable profit, subject to the same rates.

If the holder of the Notes is an individual, resident or deemed to be a resident of The Netherlands for the purposes of Netherlands income tax (*inkomstenbelasting*), the actual income derived from the Notes and the actual gains realised upon the disposal and redemption of the Notes will be subject to such individual income tax at the progressive income tax rates, the maximum being 51,95%, if:

- the holder of Notes has an enterprise or an interest in an enterprise, to which enterprise or part of such enterprise, as the case may be, the Notes are attributable,
- the income derived from the Notes that is regarded as income from employment or from miscellaneous activities (*'belasatbaar resultaat uit overige werkaamheden'*) in the Netherlands as defined in the Income tax Act (*'Wet inkomstenbelasting 2001'*).

An individual holder who is a resident or deemed to be a resident of The Netherlands for the purposes of Netherlands income tax and who is not liable to tax under the preceding paragraphs, will not be liable to income tax on the actual income and the actual gains realised on the Notes. Instead, such holder will be taxed at a flat rate of 30% on deemed income from "savings and investments" (*'Sparen en beleggen'*) within the meaning of article 5.1 of the Income Tax Act 2001. This deemed income amounts to 0,36% for the first "yield basis" (*'Rendementsgrondslag'*) and 5.38% for the second "yield basis" at the beginning of the calendar year, divided into three brackets, insofar as the individual's "yield basis" exceeds a certain exempt amount. The Notes will be included in the holder's "yield basis".

Non-Residents

A Note holder who is not a resident of The Netherlands, nor deemed to be a resident, is not taxable on income derived from the Notes and capital gains realised upon the disposal or redemption of the Notes, provided that:

- such holder does not have an enterprise or an interest in an enterprise which, in whole or in part, is carried on through a permanent establishment, or a deemed permanent establishment or a permanent representative in The Netherlands to which enterprise or part of an enterprise, as the case may be, the Notes are attributable,
- the Notes are not attributable to the assets of an enterprise that is effectively managed in The Netherlands, with respect to which enterprise, such holder is entitled to a share in its profits, other than by way of securities or if such holder is an individual, pursuant to the terms of an employment contract,

and in addition for individuals only:

- such holder does not derive income and/or realise capital gains on the Notes that are regarded as income from employment or from miscellaneous activities (*'belastbaar resultaat uit overige werkzaamheden'*) in the Netherlands as defined in the Income tax Act (*'Wet inkomstenbelasting 2001'*).

Gift, Estate and Inheritance Taxes

No Dutch gift or inheritance taxes will arise on the transfer of Notes by way of gift by, or on the death of, a holder of Notes who is neither resident nor deemed to be resident in The Netherlands, unless:

- in case of a gift of the Notes under a suspensive condition by an individual who at the date of the gift was neither resident nor deemed to be resident in The Netherlands, such individual is resident or deemed to be resident in The Netherlands at the date of (i) the fulfilment of the condition or (ii) his/her death and the condition of the gift is fulfilled after the date of his/her death;
- in case of a gift of Notes by an individual who at the date of the gift or, in case of a gift under a suspensive condition, at the date of the fulfilment of the condition was neither resident nor deemed to be resident in The Netherlands, such individual dies within 180 days after the date of the gift or the fulfilment of the condition, while being resident or deemed to be resident in The Netherlands.

For purposes of Dutch gift and inheritance taxes, among others, a person that holds Dutch nationality will be deemed to be resident in The Netherlands if such person has been resident in The Netherlands at any time during the 10 years preceding the date of the gift or his/her death. Additionally, for purposes of Dutch gift tax, among others, a person not holding Dutch nationality will be deemed to be resident in The Netherlands if such person has been resident in The Netherlands at any time during the 12 months preceding the date of the gift. Applicable tax treaties may override deemed residency.

Value Added Tax

Pursuant to article 11, paragraphs 11, letters i and j of the Dutch Value Added Tax Act 1968 (Wet op de omzetbelasting 1968), in general, no Dutch value added tax will be payable in respect of any payment in consideration for the issue of the Notes or in respect of a cash payment under the Notes, or in respect of a transfer of Notes, with exception of value added tax on fees payable for services, such as management, administrative or similar services.

Other Taxes and Duties

No capital duty, registration tax, transfer tax, customs duty, stamp duty or other similar duties or documentary taxes will be payable in The Netherlands on the creation, subscription, offering, issue allotment or delivery of the Notes, unless the Notes represent an interest in real estate, or certain rights over such real estate, situated in the Netherlands.

FATCA

On 18 December 2013, The Netherlands and the United States signed an intergovernmental agreement for the automatic exchange of data between the tax authorities of both countries in relation to the implementation of FATCA. If an amount in respect of U.S. withholding tax were to be deducted or withheld from payments on the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive a lesser amount than expected. The Noteholders should consult their own tax advisers for a more detailed explanation of FATCA and how FATCA may apply to payments they receive under the Notes.

Belgium Taxation

Prospective investors are advised to consult their own professional advisors as to the tax consequences of the purchase, ownership, redemption and/or disposal of the Notes, including the effect of any taxes under Belgian law. The present overview is of a general nature and does not claim nor purport to be a comprehensive description of all tax considerations related to the acquisition, holding, redeeming and disposal of the Notes. It does not take into account the specific circumstances of particular Noteholders, some of which may be subject to special rules, or the tax laws of any country other than Belgium.

Furthermore, this description is based on current legislation, published case law and other published guidelines and regulations as in force at the date of this document, which are subject to future amendments, which may or may not have retroactive effect.

Belgian income taxes regarding Notes

General - Belgian withholding tax

The following amounts are considered as "interest" for Belgian tax purposes: (i) periodic interest income, (ii) amounts paid by the Issuer in excess of the Issue Price (upon full or partial redemption, whether or not at maturity), and (iii) if the Notes qualify as fixed income securities pursuant to Article 2, § 1, 8° Belgian Income Tax Code, the pro rata of accrued interest corresponding to the detention period in case of a sale of the Notes between two interest payment dates. For purposes of the following paragraphs, any such gains and accrued interest are therefore referred to as interest.

As a general rule, all interest payments on the Notes made through a paying agent in Belgium will in principle be subject to Belgian withholding tax at a rate of 30 per cent, except for the pro rata of accrued interest corresponding to the detention period in case of a sale between two interest payment dates to any third party of Notes that qualify as fixed income securities pursuant to Article 2, § 1, 8° Belgian Income Tax Code.

A Belgian withholding tax exemption may, subject to certain conditions, apply for certain types of Notes on the basis of domestic law.

Belgian resident individual private investors

The following tax treatment applies to individual Belgian residents who are subject to Belgian personal income tax (*Personenbelasting/Impôt des personnes physiques*) and who hold the Notes as a private investment. Other rules can apply when Notes are linked to the individual's professional activity or when the individual's transactions with respect to the Notes fall outside the scope of the normal management of his private estate.

Belgian withholding tax withheld by a Belgian paying agent intervening in the pay-out of the interest, shall, as a general rule, constitute the final income tax cost for the individual investor. As a result, the Belgian Noteholder does not have to declare the interest derived from the Notes in his personal income tax return, if that income is subject to Belgian withholding tax. The Belgian Noteholder may however opt to declare that interest income, in which case it will in principle be taxed at a flat rate of 30 per cent (or at the relevant progressive personal income tax rate(s) taking into account the taxpayer's other declared income, whichever is more beneficial). The Belgian withholding tax levied may be credited against the personal income tax due and is reimbursable to the extent it exceeds the personal income tax due.

Capital gains realized on the sale of the Notes - with the exception of any amount of these gains that may qualify as interest (cf. *supra*) - are tax exempt provided that the Notes are held as private investment and the sale is deemed to constitute a normal act of management of private estate. Capital losses realised upon the disposal of the Notes held as non-professional investment are in principle not tax deductible.

Tax treatment in the hands of Belgian resident corporations

Noteholders who are subject to Belgian corporate income tax (*Vennootschapsbelasting/Impôt des sociétés*) and who do not qualify for a special corporate tax regime (e.g. Sicavs, pension funds, etc.) are subject to the following tax treatment with respect to the Notes.

Interest income derived from the Notes and any capital gains realized upon the sale of the Notes, will in principle be subject to Belgian corporate income tax at a rate of 29,58 per cent as of assessment year 2019

linked to a taxable period starting at the earliest on 1 January 2018¹⁹. As from that same assessment year, a reduced rate of 20,4 per cent will apply to the first EUR 100,000 of a small company's taxable base²⁰. As from assessment year 2021 linked to a taxable period starting at the earliest on 1 January 2020, the ordinary and reduced corporate income tax rates will decrease to 25 per cent and 20 per cent respectively.

Belgian withholding tax withheld by a Belgian paying agent intervening in the pay-out of the interest, is, subject to certain conditions, creditable against any corporate income tax due and the excess amount will in principle be refundable.

Capital losses realized on the sale of the Notes are in principle tax deductible.

Other Belgian resident legal entities

Legal entities who are Belgian residents for tax purposes and who are subject to Belgian tax on legal entities (*Rechtspersonenbelasting/impôt des personnes morales*) are subject to the following tax treatment with respect to the Notes.

Belgian withholding tax withheld by a Belgian paying agent intervening in the pay-out of the interest, constitutes the final tax cost for the Noteholders. If the income is not subject to Belgian withholding tax, the Noteholders are required to declare this income in their annual tax return and to pay the tax on legal entities on this interest income at a rate of 30 per cent.

Capital gains realized on the sale of the Notes are in principle tax exempt, with the exception of any amount of these gains that may qualify as interest (cf. *supra*) Capital losses realized on the sale of the Notes are in principle not tax deductible.

Special tax regimes

Under Belgian tax law, a number of entities such as qualifying pension funds and qualifying investment companies enjoy a special tax regime, whereby income out of investments (such as interest income and capital gains) is in principle not taken into account for determining the taxable basis. Capital losses are in principle not tax deductible.

Non-resident investors

Noteholders who are not residents of Belgium for Belgian tax purposes and who do not hold the Notes for purposes of the exercise of a professional activity through a permanent establishment in Belgium, will in principle not incur or become liable for any Belgian tax on income or capital gains.

Belgian withholding tax of in principle 30 per cent may however apply if the interest is paid out to a non-resident through a Belgian paying agent. Lower rates may be available under a double taxation treaty between Belgium and the state of residence of the non-resident Noteholder and if the latter delivers the necessary affidavit as imposed by law.

The non-resident Noteholder who does not invest in the Notes in the course of his Belgian professional activity through a permanent establishment in Belgium, may obtain a withholding tax exemption for interest paid through a credit institution, a stock market company or a clearing or settlement institution established in Belgium, provided that he delivers an affidavit to such institution or company confirming that he is a non-resident holding the Notes in full ownership or in usufruct who does not allocate the Notes to the exercise of a professional activity.

¹⁹ The applicable rate for an earlier assessment year is 33,99%.

²⁰ The applicable rate for an earlier assessment year is 33,99%.

Non-resident investors who allocate the Notes to the exercise a professional activity in Belgium through a permanent establishment, are subject to the same tax rules as the Belgian resident companies or Belgian professionals.

Tax on Stock Exchange Transactions and Tax on Repurchase Transactions

The Belgian tax on stock exchange transactions (*Taxe sur les opérations de bourse / Taks op de beursverrichtingen*) is not due upon the issue of the Notes.

The transfer (for consideration) of the Notes on a secondary market may trigger the tax on stock exchange transactions if (i) it is executed in Belgium through a professional intermediary, or (ii) if it is deemed to be executed in Belgium, which is the case if the order is directly or indirectly made to a professional intermediary established outside of Belgium, either by private individuals with habitual residence in Belgium, or by legal entities for the account of their registered office or establishment in Belgium.

The tax that will be due upon each sale and acquisition of the Notes at the rate of 0,12% (capped at EUR 1,300 per transaction and per party). The tax is due separately by each party to any such transaction, i.e. the seller and the purchaser, and is collected by the professional intermediary. However, if the professional intermediary is established outside of Belgium, the tax will in principle be due by the private individual or legal entity, unless that individual or entity can demonstrate that the tax has already been paid. In the latter case, the foreign professional intermediary has to provide its client (who gives such intermediary an order) with a qualifying order statement (*bordereau/borderel*), at the latest on the business day after the day on which the relevant transaction was realized.

Professional intermediaries established outside of Belgium may appoint a stock exchange tax representative in Belgium, subject to certain conditions and formalities. Such representative will then be required to pay the tax on stock exchange transactions to the Belgian Treasury and to comply with reporting obligations in that respect. If such representative has paid the tax on stock exchange transactions, the Belgian Noteholder will, as per the above, no longer be required to pay the tax on stock exchange transactions.

The liability of the private individual or legal entity to pay the tax on stock exchange transactions in the event the professional intermediary is established outside of Belgium is currently being challenged in front of the Belgian Constitutional Court. The latter has referred to the European Court of Justice with regard to the compatibility of this rule with the free movement of capital and the freedom to provide services.

A tax on repurchase transactions at the rate of 0.085 per cent will be due from each party to any such transaction entered into or settled in Belgium in which a stockbroker acts for either party (with a maximum amount of EUR 1,300 per transaction and per party).

However the tax on stock exchange transactions and the tax on repurchase transactions will not be payable by exempt persons acting for their own account, including (i) investors who are not Belgian residents, provided that they deliver an affidavit to the financial intermediary in Belgium confirming their non-resident status, and (ii) certain Belgian institutional investors as defined in article 126.1 2° of the code of miscellaneous duties and taxes for the tax on stock exchange transactions and article 139, second paragraph, of the same code for the tax on repurchase transactions ("*Wetboek diverse rechten en taksen*" / "*Code des droits et taxes divers*").

Tax on securities accounts

A 0.15% tax ("*taks op de effectenrekeningen*" / "*taxe sur les comptes-titres*") has been introduced per 10 March 2018 on the average value of qualifying financial instruments held by Belgian resident individuals on securities accounts with one or more financial intermediaries located or established in Belgium or abroad. The tax on securities accounts also applies to non-resident individuals holding qualifying financial instruments on securities accounts with one or more financial intermediaries located or

established in Belgium. Under certain double taxation treaties concluded by Belgium, individuals who are a resident of the other state may claim an exemption from this tax on securities accounts. The Notes qualify as a financial instrument subject to this tax. .

No tax on securities accounts is due if the share of the Noteholder in the average value of the qualifying financial instruments on those accounts, amounts to less than EUR 500,000. If the average value is superior to EUR 500,000, the tax on securities accounts is due on the entire share of the holder in the average value of the qualifying financial instruments on those accounts (and hence, not only on the part which exceeds the EUR 500,000 threshold). The average value of the qualifying instruments is determined per a reference period of 12 consecutive months starting on 1 October and ending on 30 September of the subsequent year, with the first reference period starting per 10 March 2018 and ending per 30 September 2018.

The tax on securities accounts is in principle due by the financial intermediary established or located in Belgium if (i) the Noteholder's share in the average value of the qualifying financial instruments held on one or more securities accounts with said intermediary amounts to EUR 500,000 or more or (ii) the Noteholder instructed the financial intermediary to levy the tax on securities accounts due (e.g. in case such holder holds qualifying financial instruments on several securities accounts held with multiple intermediaries of which the average value of each of these accounts do not amount to EUR 500,000 or more but of which the holder's share in the total average value of these accounts exceeds EUR 500,000 EUR).

If the tax on securities accounts is not paid by the financial intermediary, the Noteholder will have to declare and pay the said tax, unless he provides evidence that the tax has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint a tax on the securities accounts representative in Belgium, subject to certain conditions and formalities. Such representative will then be liable towards the Belgian Treasury for the tax on the securities accounts due and for complying with certain reporting obligations in that respect.

Prospective investors are advised to seek their own professional advice in relation to the tax on securities accounts.

The proposed financial transactions tax

The European Commission has published a proposal for a Directive for a common financial transactions tax. The Commission's proposal has a very broad scope and could, if introduced, apply to certain dealings involving the Notes.

The proposal currently stipulates that once the financial transactions tax enters into force, the participating Member States shall not maintain or introduce taxes on financial transactions other than the financial transactions tax (or VAT as provided in the Council Directive 2006/112/EC of November 28, 2006 on the common system of value added tax). For Belgium, the tax on stock exchange transactions and the tax on repurchase transactions should thus be abolished if and when the financial transactions tax were to enter into force. The proposal is still subject to negotiation between the participating Member States and therefore may be changed or aborted at any time.

Gift tax and inheritance tax

Belgian tax legislation provides both gift tax and inheritance tax.

The rates vary depending on the Region in which the donator or the deceased has/had his residence (Brussels Region, Flemish Region, Walloon Region).

Luxembourg Taxation

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Securities. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject as a result of the purchase, ownership and disposition of the Securities.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of similar nature refers to Luxembourg tax law and/or concepts only.

Withholding tax

Non-Resident holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon settlement, repurchase or exchange of the Securities held by non-resident holders of Securities.

Resident holders of Securities

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005 as amended (the **Law**) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon settlement, repurchase or exchange of Securities held by Luxembourg resident holders of Securities.

Under the Law, as from 1 January 2017, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a so-called residual entity (within the meaning of the amended Luxembourg laws of 21 June 2005 implementing the Savings Directive and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the "Territories"), as amended) established in a EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner are at present subject to a withholding tax of 20 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest or similar income under the Securities coming within the scope of the Law will be subject to withholding tax of 20 per cent.

Austrian Taxation

The following is a general overview of certain Austrian tax aspects in connection with the Notes. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Notes nor does it take into account the Noteholders' individual circumstances or any special tax treatment applicable to the Noteholder. It is not intended to be, nor should it be construed to

be, legal or tax advice. Prospective investors should consult their own professional advisors as to the particular tax consequences of the acquisition, ownership, disposition or redemption of the Notes.

This overview is based on Austrian law as in force when drawing up this Prospectus. The laws and their interpretation by the tax authorities and tax courts may change and such changes may also have retroactive effect. It cannot be ruled out that the Austrian tax authorities adopt a view different from that outlined below.

Individuals resident in Austria

Income from the Notes derived by individuals, whose domicile or habitual abode is in Austria, is subject to Austrian income tax pursuant to the provisions of the Austrian Income Tax Act (*Einkommensteuergesetz*). Interest income from the Notes is subject to a special income tax rate of 27.5%. The income tax for interest income generally constitutes a final taxation (*Endbesteuerung*) for individuals, irrespectively whether the Notes are held as private assets or as business assets. The Income will be subject to withholding tax if the Notes are kept or administrated by a paying agent (*auszahlende Stelle*) in Austria. However, if the income is not subject to withholding tax deduction, the taxpayer will have to include the interest income derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

Furthermore, any realized capital gain (*Einkünfte aus realisierten Wertsteigerungen*) from the Notes by individuals is subject to Austrian income tax at a rate of 27.5%. Realised capital gain means inter alia any income derived from the sale or redemption of the Notes. The tax base is, in general, the difference between the sale proceeds or the redemption amount and the acquisition costs, in each case including accrued interest. Expenses which are directly connected with income subject to the special tax rate are not deductible. For Notes held as private assets, the acquisition costs shall not include incidental acquisition costs. The Income will again be subject to withholding tax if the Notes are kept or administrated in a custodial institution (*depotführende Stelle*) or paying agent (*auszahlende Stelle*) in Austria. If the income from the capital gain is not subject to withholding tax deduction, the taxpayer will have to include the interest income derived from the Notes in his personal income tax return pursuant to the provisions of the Austrian Income Tax Act.

The Issuer does not assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Austrian corporations

Corporations seated in Austria or whose place of management is in Austria are subject to corporate income tax at a tax rate of 25%. This includes income from notes and realized capital gains form Notes.

If applicable, Austrian corporations holding Notes may declare exemption from withholding tax deduction by submitting a corresponding statement (*Befreiungserklärung*) to the Austrian custody bank and competent financial authority. With this statement the Austrian corporation has to declare its identity and has to confirm that the Notes are held as business assets. If such declaration is not submitted all income from the Notes will in general be subject to withholding tax deduction. Such withheld tax may be set off with the corporate income tax.

Again, the Issuer does not assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Non-resident individuals

Income derived from the Notes by individuals who do not have a domicile of their habitual abode within Austria – are in principle subject to Austrian limited tax liability (non-resident taxation). but the individual may be eligible to apply for a refund to Austrian withholding tax on the basis of applicable double taxation treaties.

The Issuer does not assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Foreign corporations

Corporations who do not have their seat or place of management in Austria are subject to Austrian limited corporate income tax liability (non-resident taxation).

Income including capital gains derived from the Notes by corporations who do not have their corporate seat or their place of management in Austria ("*non-residents*") is in general not taxable in Austria provided that the income is not attributable to an Austrian permanent establishment.

Again, the Issuer does not assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) at source and is not obliged to make additional payments in case of withholding tax deductions at source.

Swedish Taxation

*The following is a summary of certain Swedish tax consequences of relevance to the purchase, holding and disposal of the Securities that are considered to be debt instruments and of Securities that are considered to be equity instruments. The summary is applicable to individuals and limited liability companies tax resident in Sweden (unless otherwise stated). The summary is based on the laws and practices currently in force in Sweden regarding the tax position of investors beneficially owning their Securities as capital assets and should be treated with appropriate caution. The summary does not address the participation exemption regime which may apply to limited liability companies. Neither does the summary address the rules on closely held corporations. Moreover, the summary does not address shares or other equity-related securities that are held on a so-called investment savings account (Sw. *investeringssparkonto*) and that are subject to special rules on standardised taxation. Particular rules may apply to certain taxpayers holding Securities. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Securities should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Securities and the receipt of dividend or interest thereon under the laws of their country of residence, citizenship or domicile.*

Individuals

In general, a payment to an individual of any amount that is considered to be dividend or interest for Swedish tax purposes, will be considered as capital income for Swedish tax purposes.

Individuals will also be subject to Swedish income tax on any capital gain on the sale of Securities. Redemption of the Securities is treated as a sale of Securities. The capital gain or loss is normally calculated as the difference between the sales proceeds, after deducting sales costs, and the tax basis. The tax basis for all shares of the same class and type is calculated together in accordance with the average cost method. Upon the sale of listed shares, the tax basis may alternatively be determined according to the standard method as 20 percent of the sales proceeds after deducting sales costs.

The tax rate for capital income is generally 30 per cent. However, for non-listed shares in certain companies only 5/6 of dividends and capital gains are taxable, i.e. the effective tax rate is 25 per cent.

This rule applies to shares in Swedish non-listed companies and to shares in foreign non-listed companies which are taxed in a similar way as Swedish corporations.

Capital losses on listed shares are fully deductible against taxable capital gains on shares and on other listed equity-related securities realised in the same year, except for units in securities funds or special funds which consist solely of Swedish receivables (*Sw. räntefonder*). With regards to non-listed shares, only 5/6 of the capital losses are deductible against such taxable capital gains on shares and other equity-related securities. Up to 70 per cent of capital losses on shares that cannot be offset in this way are deductible against other capital income. Capital losses on listed receivables, except for losses on government bonds (*Sw. premieobligationer*), are fully deductible. For capital losses on non-listed receivables, 70 per cent of the capital losses are deductible.

If there is a net loss in the capital income category, a tax reduction is allowed against municipal and national income tax, as well as against real estate tax and municipal real estate charges. A tax reduction of 30 percent is allowed on the portion of such net loss that does not exceed SEK 100,000 and of 21 percent on any remaining loss. Such loss cannot be carried forward to future fiscal years.

A Swedish payor is generally obliged to withhold preliminary income tax on payments of interest and dividends to individuals resident in Sweden and such deceased individuals' estates. The tax rate to be withheld is 30 per cent.

Limited Liability Companies

For a limited liability company, all income including taxable dividends and capital gains, is taxed as business income at a tax rate of 22 per cent. Capital gains and capital losses are calculated in the same manner as set forth above with respect to individuals. According to upcoming new legislation, based on a EU directive, the corporate income tax rate will be lowered to 21.4 per cent for business income year starting from 1 January 2019 and to 20.6 per cent for business income year starting from 1 January 2021.

Deductible capital losses on shares may only be deducted against capital gains on shares and other equity-related securities. Under certain circumstances such capital losses may also be deducted against capital gains in another company in the same group, provided that the companies can tax consolidate (*Sw. koncernbidragsrätt*). A capital loss that cannot be utilized during a given fiscal year may be carried forward and be off set against taxable gains on shares and other equity-related securities during subsequent fiscal years, without limitation in time. Capital losses on receivables are generally fully deductible.

Non-Swedish tax residents

Under Swedish law, payments of dividends, principal or interest on the Securities to a non-resident holder of Securities are not subject to tax in Sweden, unless such non-resident holder of Securities carries on a trade or business through a permanent establishment in Sweden to which the payment of dividends, principal or interest is attributable.

For shareholders not tax resident in Sweden that receive dividends on shares in a Swedish limited liability company, a Swedish withholding tax is normally payable. The general tax rate is 30 per cent but it may be reduced under applicable tax treaties. An anti avoidance provision applies. If the person entitled to the dividend holds shares under such conditions that an other party improperly is provided the benefit when making decisions on income tax or gain exemption from withholding tax, withholding tax will be charged on the transaction.

Swedish law does not impose withholding tax on payments of principal or interest to non-residents.

Under Swedish law, capital gain on a sale of Securities by a non-resident holder will not be subject to Swedish income tax unless the holder carries on a trade or business in Sweden through a permanent establishment to which the capital gain is attributable. However, individuals who are not resident in Sweden for tax purposes may be liable to capital gains taxation in Sweden upon disposal or redemption of certain financial instruments, depending on the classification of the particular financial instrument for Swedish income tax purposes, if they have been resident in Sweden or have lived permanently in Sweden at any time during the calendar year of disposal or redemption or the ten calendar years preceding the year of disposal or redemption. However, it should be noted that this rule may be limited by the applicable tax treaty.

Other Taxes

No stamp, issue, registration, transfer or similar taxes or duties are imposed in Sweden in connection with the issuance, purchase, disposal of the Securities. There is no VAT on transfer of the Securities in Sweden. Swedish law does not impose inheritance or gift taxes.

EU Savings Directive

Under the EU Savings Directive, member states are required to provide to the tax authorities of another member state details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other member state. The Swedish implementation of the EU Savings Directive entered into effect as of 1 July 2005.

EU Financial Transaction Tax

On the European Union level, negotiations are underway in order to implement a harmonized financial transaction tax which might have negative impact on the return on the Structured Products. To date, Sweden has been against the introduction of such a financial transaction tax.

Danish Taxation

General

The following is a brief summary of some important principles of Danish tax law that may be of relevance for Danish holders of Notes. The summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as professional dealers in securities) may be subject to special rules. The summary is based on Danish tax law as of 12 June 2018. The summary deals only with taxation in Denmark and not with foreign tax rules.

It should also be noted that the taxation of the Notes may change at any time as a result of new legislation, court practice or decrees issued by the relevant taxation authorities, potentially with retroactive effect. Investors interested in the Notes should consult their tax advisors with regard to any tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Notes.

Only a tax advisor is able to adequately assess the individual tax situation of a specific investor.

Depending on the terms under which the Notes may be redeemed, the Notes may be governed by the special provisions on structured notes in Section 29(3) of the Danish Act on Taxation of Debt, Debt Claims and Financial Contracts (in Danish: Kursgevinstloven) (the “Act”). Basically, this means that any income on the Notes is to be taxed according to a mark-to-market principle, i.e. taxation occurs on an accrual basis on the basis of the annual increase or decrease in the value of the Notes.

The below description includes both a description of the ordinary tax rules and the special provisions on structured notes.

Corporate holders of the Notes

Danish legal entities, subject to corporate tax liability, will be subject to tax at a flat rate of 22 % on any income derived from the Notes including interest. A net loss on the Notes would generally be tax deductible (certain exemptions apply for structured notes). Taxation applies on an accrual basis.

Individuals holders of the Notes

Individual holders of the Notes will be subject to tax on income derived from the Notes including interest, as capital income. Capital income is taxed at a marginal tax rate of 42%.

Gains and losses on Notes issued to individuals are generally included in the taxable income on a realised basis. The gain or loss will only be included in the taxable income when the net gain or loss for the year on debt claims, net gains/losses on debt denominated in foreign currency and gains/losses on investment certificates in bond-based investment funds subject to minimum taxation in total exceeds DKK 2,000.

However, for structured notes, taxation applies on an accrual basis with no minimum threshold and individuals may generally only deduct a capital loss on structured notes against gains on other financial instruments (such as structured notes) which relate to the same income year. Further losses may be carried forward and deducted against net gains on financial instruments in future income years. Moreover, certain additional exceptions apply regarding deduction of losses.

Investors holding The Notes via a pension scheme

Investors holding the Notes via a pension scheme will be taxed according to the mark-to-market principle, i.e. on an unrealized basis, at a flat rate of 15.3 % on the return pursuant to section 2 of the Pension Investment Returns Tax Act.

Withholding taxes

No deduction or withholding for or on account of Danish tax is required to be made on payments from the Issuer to Danish holders of the Notes.

VAT

No Danish value added tax is imposed on a transfer of the Notes.

Inheritance/Gift tax

Upon inheritance, a tax must be paid if the deceased person's residence is within Danish jurisdiction or if real estate is situated in Denmark. The tax rate for close relatives is 15 % and for other beneficiaries is 36.25 %, calculated on the basis of inheritance exceeding, in 2018, DKK 289,000. A non-separated spouse is not taxed on the inheritance.

Gifts are as a starting point taxed the same way as proceeds from inheritance. Gifts to a spouse are tax exempt. Gifts exceeding, in the year 2018, DKK 64,300 per year to close relatives are taxed at rate of 15 % whilst gifts to certain others relatives are taxed at 36.25 %. Gifts to other beneficiaries are taxable income for the beneficiaries if they are Danish residents for tax purposes.

Council Directive 2014/107/EU

Denmark has implemented the provisions of Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation.

Accordingly, Denmark is required to exchange information with the tax authorities of other member states relating to, inter alia, payments of interest (or similar income) paid by a person in Denmark to a person resident in another member state.

Croatian Taxation

The statements herein regarding taxation are based on the laws in force in Croatia as of the date of this Base Prospectus and are subject to any changes in law and/or entry into force of any relevant law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their interest in the Securities.

1. Taxation of individuals

Tax obligor is a natural person - income earner and heir to all tax obligations arising from income earned by the decedent until his death. The heir is at the same time tax obligor to income accrued from inherited sources of income.

Taxable sources of income are:

- (i) income from salaried employment,
- (ii) income from self-employment,
- (iii) income from property and property rights,
- (iv) income from capital,
- (v) income from insurance,
- (vi) other income.

Resident is a natural person whose residence or habitual abode is in the Republic of Croatia. Resident is also a natural person not having the place of residence or habitual abode in the Republic of Croatia and is employed with a governmental office of the Republic of Croatia and receives salary on that basis.

Non-resident is a natural person not having the place of residence or habitual abode in the Republic of Croatia and earning income in the Republic of Croatia which is taxable according to the Croatian Income Tax Act.

Taxable basis i.e. tax base:

- a. for a resident is the total amount of income gained from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the resident in the country and abroad (world income principle) less resident's personal allowance,
- b. for a non-resident is the total amount of income from salaried employment, self-employment, property and property rights, capital, income from insurance and other income gained by the non-resident in the country (domicile land principle) less non-resident's personal allowance.

Income from capital are deemed receipts from interests, withdrawals of assets and use of services charged against income of the current period, capital gains and shares in profit realised from allocation or option purchase of treasury shares, which are realised in the tax period, including dividends and shares in profit on the basis of shares in capital.

Amendments to the Croatian Income Tax Act, have introduced certain changes in relation to taxation of capital income. Namely, whilst under the earlier version of the Croatian Income Tax Act, income tax was payable only on interests realized on the basis of granted loans and facilities, including those realized through commission loans, currently applicable version of the Croatian Income Tax Act provides for wider list of earnings from interests being subject to taxation (at applicable rate as provided for in the Croatian Income Tax Act), including those realized under a) interests payable on securities (*vrijednosni papiri*), b) interest on HRK and foreign savings, c) revenues realized based on division of income of an investment fund in form of interest, if they are not taxed as profit shares on the basis of distribution of profit or income of an investment fund. However, the Croatian Income Tax Act provides for explicit statutory exemption, among others in case of default interest and interest realised through investment in the notes (being *obveznice* under applicable Croatian laws), regardless of the issuer and type of notes. As no guidance has been published by the Croatian Tax Authorities, potential interpretation of the said provisions by the Croatian Tax Authorities cannot be assessed.

As of 1 January 2016, pursuant to the Croatian Income Tax Act, capital income on the basis of capital gain represents a difference between the agreed selling price, i.e. revenue determined based on the market value of financial assets being disposed of and the purchase value.

Within the meaning of the foregoing paragraph, the following revenues are considered as revenues realized by disposal of financial assets (financial instruments and structured products), i.e. receipts from: (i) transferable securities (*vrijednosni papiri*) and structured products, including shares in companies and other associations whose shares may be disposed of similarly as shares in companies; (ii) money market instruments; (iii) units of joint ventures; (iv) derivatives; and/or (v) proportional value of liquidation estate in case of liquidation of an investment fund and other revenues realized from ownership shares in case of liquidation, cessation or withdrawal.

Within the meaning of the foregoing paragraphs, disposal of financial assets means sale, exchange, gift or other transfer, however does not include: (i) transfer of share from one pension fund to another; (ii) exchange of securities (*vrijednosni papiri*) with the equivalent securities of the same issuer, whereby the ratios among the holders and capital of issuer are not altered, as well as exchange of securities (*vrijednosni papiri*), i.e. financial instruments with other securities (*vrijednosni papiri*) or financial instruments, and acquisition of securities (*vrijednosni papiri*) or financial instruments in case of change of status changes, provided that in all these cases there is no cash flow and the sequence of acquisition of financial property is ensured (acquisition value shall be considered the value determined on the date of first acquisition of financial property); (iii) division of stocks of the same issuer, whereupon the share capital shall not be altered and there shall be no cash flow; (iv) exchange of shares among the investment sub-funds under the same umbrella fund, i.e. exchange of shares among the investment funds managed by the same management company, provided that the sequence of acquisition of financial property is ensured (acquisition value shall be considered the value determined on the date of first acquisition of financial property); and (v) repurchase of shares of the Croatian War Veterans' Fund.

Capital income from revenues from joint ventures shall be determined in the amount of realized yield, decreased for costs of management of investments, i.e. costs of management of investment fund assets (net yield), i.e. in case of discounted securities (*vrijednosni papiri*) and zero-coupon bonds, in the amount of difference between the purchase value at the moment of issue and realized value at maturity if the purchaser holds the security until its maturity. Capital income on the basis of capital gains realized through the investment of financial assets into portfolios, in line with the regulations applicable for capital markets, shall be determined in the moment of realization of yield from the portfolio decreased by the costs of portfolio management (net yield).

Capital income on the basis of capital gains shall not be taxed if disposal has been made between the spouses and first-degree relatives and other members of immediate family (as defined in the Croatian Income Tax Act), between the divorced spouses if disposal is in immediate connection with the divorce, inheritance of financial assets and if financial assets are disposed of after two years from the date of purchase, i.e. acquisition of the same.

If financial assets were acquired as a gift and disposed of in a period of two years from the date of acquisition, the person disposing the assets shall be determined the capital income in line with the Croatian Income Tax Act.

Capital losses may be deducted only from the income from capital gains which is realized in the same calendar year. Capital losses may be stated up to the amount of the tax basis.

Capital income realized in a foreign currency shall be calculated in HRK counter value by application of the middle exchange rate of the Croatian National Bank on the day of payment.

Specifically, as income from capital are deemed capital gains and gains from dividends and profit sharing on the basis of shares in the capital. Income tax payments on the basis of receipts from dividends or profit sharing on the basis of shares in capital and capital gains are payable at the rate of 12% without recognition of personal allowance referred to in Article 14 of the Croatian Income Tax Act. Dividend payments and payments on profit sharing on the basis of shares in capital are taxable at source, while the obligor of calculation, withholding and payment of tax for capital gains is the tax obligor acquirer of revenue from the country or from the abroad, if not provided to the contrary by an international treaty (or the company managing financial assets of the tax obligor or Central Depository and Clearing Company); for income from capital based on disposal of share in capital, a tax obligor and; a person disposing of financial assets in case of financial assets was acquired as a gift and disposed of in a period of two years from the date of acquisition. The company, payer of dividends or shares in profit is obliged to assess, withhold and pay tax simultaneously with the payments of dividends or profit. It should be noted that on top of income tax the income tax surcharge is levied which is defined in the city or municipal regulations depending on the place of residence or habitual abode of the tax obligor. The tax basis for surcharge tax is the assessed income tax and the payer of the receipts is obliged to assess, withhold and prepay tax simultaneously with the payment of receipts.

In a situation where the tax payer chose that Central Depository and Clearing Company shall keep records, calculate income and income tax and report to tax authorities thereof, the tax payer is obliged to deliver all data necessary for determination of income tax to Central Depository and Clearing Company. The general tax rules outlined above apply to the extent there are no limitations imposed under applicable double tax treaties. Source taxation may be obviated or reduced pursuant to the terms of an applicable double taxation treaty under the conditions as provided for in the applicable tax legislation.

If the resident receives income from capital from abroad, he is obliged to prepay tax at the applicable tax rate.

Inheritance and gift taxation

In accordance with Local Taxes Act and subject to any applicable double taxation treaty, any natural person or legal entity who inherits or receives gifts (including securities) with individual value higher than HRK 50,000.00 in the Republic of Croatia is under an obligation to pay Croatian tax in respect of such inheritance or gift at a rate of 4%. Certain exemptions with respect to application of the aforesaid tax are available in line with the Local Taxes Act.

EU Savings Directive

EU Savings Directive has been incorporated in the Croatian General Tax Act and has come into force on 1st July 2013.

The EU Saving Directive has been repealed by Council Directive (EU) 2015/2060 of 10 November 2015 which came into force on 1st January 2017.

No gross-up for taxes withheld

Purchasers of the Notes should note that neither the Issuer nor any other person will assume any liability for taxes withheld from payments under the Notes, nor make any additional payments in regard of these taxes, i.e. no gross-up will apply if a withholding tax is imposed.

EU Financial Transaction Tax

On the European Union level negotiations are underway in order to implement a harmonized financial transaction tax which might have a negative impact on the receipts deriving from the Notes.

Other Taxes

No stamp, issue or registration taxes or duties will be payable in Croatia in connection with the issuance, delivery or execution of the Notes.

Withholding tax rate is 15%, except for dividends and shares in profit for which the withholding tax rate is 12%, and 20% for all kinds of services paid to persons having their registered seat or place of actual administration or supervision in countries deemed tax havens or financial centres other than EU member states and countries with which the Republic of Croatia entered into and applies double tax treaties and which are included in the List of Countries issued by the Finance Minister and published on web pages of the Ministry of Finance and Tax Administration.

Croatian withholding tax can be reduced under and effective double tax treaty.

Finally, Council Directive 2003/49/EC of 3 June 2003 on a common system of taxation applicable to interest and royalty payments made between associated companies of different Member States and the Council Directive 90/435/EEC on the common system of taxation applicable in the case of parent companies and subsidiaries of different Member States, have been transposed to Croatian legal system.

Maltese Taxation

This information is being given solely for general information and does not constitute a substitute for legal or tax advice, and it does not purport to be exhaustive. Investors and prospective investors are recommended to seek professional advice as regards Maltese and any foreign tax legislation which may be applicable to the acquisition, holding and disposal of the Note. The below constitutes a summary of the anticipated tax treatment which may be applicable to the Noteholder and is based on the understanding that the Issuer is not tax resident in Malta. The below information is based on the interpretation of Maltese tax laws as at the date of this Structured Note Programme

General Taxation Principles

An individual who is resident and domiciled in Malta, or who is a resident non-domiciled individual, or vice-versa and who is married to an individual who is resident and domiciled in Malta, shall be subject to income tax, and certain capital gains, in Malta on a worldwide basis, wherever the income is arising, and whether the income is remitted to Malta or not.

An individual who is a resident but not domiciled in Malta, or vice versa, shall be subject to tax in Malta on the following:

- i) On income which arises in Malta e.g. interest on deposits with Maltese banks (though this may be subject to a 15% final withholding tax, in which case it would not be declared in the income tax return) and any employment income from employment exercised in Malta;
- ii) On certain capital gains which arise in Malta e.g. on certain sales of securities, such as shares or stocks, in Maltese companies;

- iii) On foreign income which is remitted (i.e. physically transferred) to Malta e.g. on foreign investment income paid directly into a Maltese bank account or which although not paid directly into Malta is remitted to Malta.

In terms of Maltese income tax legislation, tax is payable on the amount 'received in Malta', Maltese tax authorities interpret the terms 'received in Malta' and 'remitted to Malta' interchangeably. Foreign income which is not received in or remitted to Malta is not taxable in Malta and should not be declared in one's Maltese income tax return.

The concept of ordinary residence in Malta is one which is not defined under the provisions of the Income Tax Act, Chapter 123 of the Laws of Malta, but is one which has been adopted primarily from UK jurisprudence.

An individual may be said to be ordinarily resident in Malta when not just mere physical residence is established but when residence is present with some degree of continuity and frequency. Ordinary residence therefore signifies a person's voluntary intention to establish a regular physical presence, which presence is part of the regular order of a person's life.

Residence, on the other hand denotes the establishment of physical residence, usually for a period of at least one hundred and eighty three (183) days in a calendar year. The physical test is however not a stand-alone test in order for the residence criteria to be established. Various other criteria are also assessed in order to determine the presence or lack of residence, this would typically include; family ties, business ties, frequency of visits to the country, memberships in clubs or the like, reasons for visits.

The concept of domicile on the other hand is a distinguished concept from that of ordinary residence and residence. Maltese law does not define the concept of domicile however this concept is similar to what is found under UK law.

Domicile is not about physical presence in a jurisdiction but is about the indefinite and permanent intention to reside in a given jurisdiction. If the necessary intention to indefinitely reside in a country is present, then there may be a situation where one acquires a domicile of choice.

An individual who is neither resident nor domiciled in Malta is subject to tax in Malta on any income which is arising/generated in Malta, such as any interest which accrues in a Maltese bank account.

A company which is incorporated in Malta and which has its effective control and management in Malta shall be deemed to be an entity which is resident and domiciled in Malta and shall be liable to tax in Malta on a worldwide basis. A company which is incorporated in Malta but does not have its effective control and management in Malta, or vice versa, shall be taxable in Malta on income which arises in Malta and on a remittance basis.

Income Tax

In accordance with Maltese law, passive income received in the hands of the Noteholder shall be deemed to arise in the country where the payer is situated. We understand that the Issuer will not be situated in Malta, therefore the interest income will be subject to tax in Malta depending on the tax status of the Noteholder, and depending on whether such interest income is remitted/physically transferred to Malta.

Capital Gains

Capital gains or profit derived by the Noteholder from the transfer of the Note may be taxable in Malta depending on the tax status of the Noteholder. Securities which are subject to capital gains tax in Malta

include any shares and stocks which participate in any way in the profits of a company and whose return is not limited to a fixed rate of return. We understand that the Notes to be held by the Noteholder will not participate in any way in the profits derived by the Issuer and, on this basis, should not give rise to any capital gains implications in Malta.

Stamp Duty

The Transfer of the Note by the Noteholder may possibly be subject to stamp duty under the Duty on Documents and Transfers Act, Chapter 364 of the Laws of Malta, in the hands of the person acquiring the Note. However, if the Notes constitute financial instruments of a company quoted on a regulated market for the purposes of the Financial Markets Act (Chapter 345 of the Laws of Malta), the transfer of such Notes may be exempt from Maltese duty.

Greece Taxation

The following is a summary of certain key aspects of tax treatment by the Hellenic Republic ("Greece") at the date hereof in relation to the purchase, ownership and disposal of the Notes by holders that are beneficial owners of the Notes, whether or not they reside or maintain a permanent establishment in Greece for Greek tax purposes. This summary is of general nature and does not constitute a complete analysis of relevant matters. In particular, it is based on the provisions of tax laws currently in force in Greece and current administrative practice of the Greek tax authorities, without taking into account any developments or amendments after the date hereof, whether or not such developments or amendments have retroactive effect. A number of key matters pertaining to Greek taxation summarised below are governed by Greek Law 4172/2013 (on the taxation of income generated as of 1 January 2014), as amended by Laws 4223/2013, 4254/2014, 4316/2014 and 4549/2018 and interpreted by Ministerial Circular 1032/2015, and certain related matters are governed by the recently enacted Law 4387/2016 as amended and is currently in force. These laws, as they are still in force, were enacted recently and in some cases their provisions have not yet been interpreted or clarified by the competent departments of the Greek Ministry of Finance, in accordance with its past practice; consequently, they are subject to potential contrary or different future interpretations, guidelines or other forms of instruction that may be issued by the Greek Ministry of Finance in the form of circulars, ministerial decisions or other secondary legislation, and court interpretation.

As a result, this summary is a general guide and should be treated with appropriate caution and, therefore, potential investors should consult their own tax advisers as to Greek tax consequences of the purchase, ownership and disposal of the Notes.

Withholding and Income Tax

Non-resident holders of Notes

Holders of Notes who neither reside nor maintain a permanent establishment in Greece for Greek tax law purposes will not be subject to withholding tax in Greece with respect to principal, premium or interest payments under the Notes, or accrued (but unpaid) interest at the time of disposal of the Notes, as the case may be.

Resident holders of Notes

Holders of Notes who either reside or maintain a permanent establishment in Greece for Greek tax law purposes will be taxed as follows:

- **Individuals:** Interest payable under the Notes in favour of individuals who are Greek tax residents will be subject to income tax at the flat rate of 15 per cent. If interest payments to individual resident holders are effected through an intermediary Greek banking institution, a withholding of 15 per cent. may be applied, which will exhaust the individual's Greek tax liability.
- **Legal entities:** Interest payable under the Notes in favour of legal entities holding Notes, that are either Greek tax resident or maintain a permanent establishment in Greece for Greek tax law purposes, will be treated as part of their annual gross income taxed at the standard applicable corporate income tax (in their annual income tax return). If interest payments to such entities are effected through an intermediary Greek banking institution, a withholding of 15 per cent. may be applied, which will not exhaust the entire tax liability, but can be offset against the entities' final Greek income tax liability. The applicable tax rate for corporate income for the fiscal year 2017 is currently 29 per cent. for legal entities keeping double-entry books (including Société Anonymes, Limited Liability Companies and Private Capital Companies). Portfolio investment companies and real estate investment companies that are tax residents of Greece are no longer entitled to a withholding tax exemption on dividends earned in Greece, following the recent enactment of Law 4387/2016, and are, hence, subject to tax withholding at the applicable tax rates.

Any income tax payable as above by individuals or legal entities holding Notes that are tax residents of Greece can be reduced by the amount of tax they have paid in another country for the same income (foreign tax credit), subject to the provisions of the applicable tax treaty for the avoidance of double taxation between Greece and such other country. Such credit is available only up to the amount of the tax that would be payable in Greece. The same tax treatment applies to interest accrued (but unpaid) at the time of disposal of the Notes.

Capital gains realized from the transfer of the Notes

Non-resident holders of Notes

No Greek capital gains tax will apply to capital gains realised from the disposal of the Notes by holders that are not Greek tax residents and/or do not have a permanent establishment in Greece for tax purposes, provided that such gain is realised outside Greece.

Resident holders of Notes

Pursuant to recently-issued Ministerial Circular 1032/2015, any capital gains arising from the disposal of the Notes by individuals or legal entities that are Greek tax residents and/or have a permanent establishment in Greece for tax purposes are exempt from capital gains tax in Greece, provided that the securities issued in the European Union, the European Economic Area (EEA), or the European Free Trade Association (EFTA). In the event that the securities issued in third countries, then capital gains are subject to tax at a rate of 15 per cent.

Value Added Tax

No value added tax is payable in Greece upon disposal of the Notes.

Inheritance Tax and Taxation on Gifts

Inheritance tax

Notes will be subject to Greek inheritance tax in the event the deceased holder was a Greek resident or a Greek national. If, however, the Notes were located outside Greece and the deceased Greek national

holder of Notes had been residing outside Greece for at least ten successive years prior to his/her death, the Notes will generally be exempt from Greek inheritance tax (subject to certain limited exemptions).

Greek inheritance tax is calculated pursuant to progressive tax scales depending on the relationship between the heir and the deceased (a tax free amount may apply subject to certain conditions). In the event no family relationship exists between the heir and the deceased, inheritance tax rates are set on the basis of a progressive tax scale from 0 per cent. to 40 per cent., depending on the value of the Notes inherited.

Any foreign tax paid on the Notes in a country other than Greece may be credited against the relevant Greek tax liability, but the amount credited may not exceed the respective amount of Greek inheritance tax due on these Notes.

Gift tax

A gift of Notes is subject to Greek tax, if the holder of the Notes (donor) is a Greek national, or if the recipient thereof is a Greek national or resident. The rates of gift tax are the same as those for inheritance tax.

Stamp Duty

No Greek stamp duty applies to the issuance or transfer of the Notes.

EU Savings Directive

Pursuant to Council Directive 2003/48/EC, as amended by Directive 2014/48/EU of 24 March 2014 on taxation of savings income in the form of interest payments, Member States, including Greece, are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within their jurisdiction to a person resident in that other Member State. Greece has implemented the Directive 2015/2060/EU as of 1 January 2016 and, as a result, exchanges information with other Member States' tax authorities.

Cyprus Taxation

The following is a general summary of certain tax aspects of the Notes under Cyprus law and practice in force and applies as at the date of this Base Prospectus and does not purport to be a comprehensive description of all tax aspects relating to Notes. This summary does not analyse the tax position of the Issuer and it does not constitute, nor should it be construed as, tax or legal advice. Prospective investors should consult their tax and other professional advisers as to the specific tax consequences of acquiring, holding and disposing of Notes and of receiving interest on any Notes.

Introduction

In accordance with the provisions of the Income Tax Law, Law 118(I)/2002, as amended, (the “**Income Tax Law**”) a person, whether natural or legal, is liable to tax on its worldwide income on the basis of residency.

A person is Cyprus resident for the purposes of the Income Tax Law where (a) in the case of a natural person, that person is (i) present in Cyprus for a period (or periods in aggregate) in Cyprus excess of 183 days in a tax year; or (ii) not present in any other country for a period (or periods in aggregate) in excess of 183 days in a tax year and is not a tax resident in any such other country in respect of that tax year then, subject to satisfying certain conditions under the Income Tax Law, such person will be considered Cyprus tax resident; and (b) in the case of a company, its management and control is exercised in Cyprus. A tax year for the purposes of the Income Tax Law coincides with the calendar year.

A person, whether natural or legal, who is not a Cyprus tax resident for the purposes of the Income Tax Law, is taxed on income derived from sources in Cyprus or from a business activity which is carried out through a permanent establishment in Cyprus. A company is regarded as having a “*permanent establishment*” in Cyprus, if it has a fixed base of business through which it carries out its business fully or partially, including a management base, a branch or an office.

Interest Income

(i) Non-Cyprus Tax Residents

A person, whether natural or legal, who is not a Cyprus tax resident for the purposes of the Income Tax Law, as stated above, will not be liable for any income tax or for the special contribution defence tax, as described below. Payments of interest made by the Issuer to such non Cyprus tax resident persons will not be subject to any Cyprus withholding taxes.

(ii) Cyprus tax resident and domiciled individuals

Pursuant to the provisions of the Special Defence Contribution Law, Law 117(I)/2002, as amended, (the “**SDF Law**”) interest income received by or credited to a Cyprus tax resident and domiciled individual is subject to a special defence contribution levy at the rate of 30%. However, if interest received or credited by a Cyprus tax resident and domiciled individual, is considered to arise in the ordinary course of the

individual's business or considered closely connected with the carrying on of his or hers business, then it is treated as trading income and subject to income tax pursuant to the Income Tax Law and not under the SDF Law.

Cyprus tax resident companies that pay interest in respect of which special contribution defence tax is due by Cyprus tax resident individuals, are obliged to withhold the special contribution defence tax at source and remit the tax to the Cypriot tax authorities.

(iii) Cyprus tax resident companies

Any interest accruing or received by a Cyprus resident company which is considered to arise in the ordinary course of the business or is considered closely connected with the carrying on of its business, is subject only to (corporate) income tax at the rate of 12.5 %. The foregoing income is not liable to any tax under the SDF Law.

Interest income not arising in the ordinary course of business or not being considered closely connected thereto is exempt from (corporate) income tax and is subject to tax under the SDF Law at the rate of 30%.

Profit from the Disposal of the Notes

Any gains derived from the disposal of Notes by a Cyprus resident natural person or legal entity are exempt from income tax in Cyprus.

Any gain derived from the disposal of Notes is not subject to Cyprus income tax, irrespective of the trading nature of the gain, the number of Notes held or the period for which the Notes were held.

Further, other than as stated herein below, any gain derived from the disposal of Notes is also outside the scope of application of the Capital Gains Tax Law 52/1980, as amended.

Gain derived from the disposal of shares of companies, not listed in a recognised stock exchange, that hold, either directly or indirectly (through layer(s) of companies) immovable property(ies) situated in Cyprus is subject to capital gains tax at the rate of 20% on such gain. In particular, capital gains tax is payable:

- (i) on disposal of shares of company(ies) holding immovable property(ies) situated in Cyprus;
- (ii) on disposal of shares of company(ies) that directly or indirectly participate in company(ies) holding immovable property(ies) situated in Cyprus and at least 50% or more of the fair market value of such shares derives from the fair market value of the immovable property(ies) situated in Cyprus.

However, interest income is subject to the treatment set out above.

Stamp Duty

The Stamp Duty Law of 19(I)/1963, as amended, (the “Stamp Duty Law”) provides, inter alia, the following:

"4. (1) *every instrument specified in the First Schedule shall be chargeable with duty of the amount specified in the said Schedule as the proper duty therefore respectively if it relates to any asset situated in the Republic or to matter or things which shall be performed or done in the Republic irrespective of the place where the document is made.*"

Pursuant to the Stamp Duty Law, the stamp duty rates are as follows: (a) on agreements with value between € 5001 to € 170,000, for every amount of €1000 or part of the amount of € 1000, the stamp duty is € 1,50; and (b) for agreements with value more than € 170,000, for every amount of € 1000 or part of the amount of € 1000, the levy is € 2.00 with a cap of €20.000.

The issue of Notes by the Issuer will not be liable to stamp duty where the proceeds of the issue will remain outside Cyprus, will be utilised for purposes outside Cyprus and the obligation under such Notes will be repaid outside Cyprus.

Provided that the Notes are cleared and settled outside the Republic of Cyprus, i.e. through Euroclear and/or Clearstream, in Luxembourg and/or any other clearing and settlement system located outside the Republic of Cyprus, and further provided that originals of any document or instrument relating to the sale or transfer of Notes is not brought into the Republic of Cyprus, the sale or transfer of Notes, whether effected by residents or non residents of the Republic of Cyprus, will not attract stamp duty.

EU Savings Directive

The EU Savings Directive 2003/48, as amended by EU Directive 2014/107 on mandatory automatic exchange of information in the field of taxation, requires Member States, including Cyprus, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within their jurisdiction to a person resident in that other Member State, including, amongst other things, the name, address, tax identification number, account number or functional equivalent in the absence of an account number, and the name and identifying number (if any) of the Reporting Financial Institution. EU Directive 2014/107 has been implemented into Cypriot law by virtue of the enactment of Law 60(I)/2016.

Under EC Council Directive 2003/48 (EU Savings Directive) recently replaced by EC Council Directive 2014/107, Member States are required to provide to the tax authorities of another Member State details of certain payments of interest (or similar income) paid by a person within their jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period Austria (until 31 December 2016) is instead required to operate a withholding system at a withholding tax rate of 35 per cent. in relation to such payments unless during that period it elects otherwise. A number of non-EU countries and territories including Switzerland have adopted similar measures.

In particular, before the EU Savings Directive was replaced by EC Council Directive 2014/107 by means of 2015/2060, on 24 March 2014 the Council of the European Union adopted a Council Directive (the **Amending Savings Directive**) amending and broadening the scope of the requirements described above. Member States are required to adopt national rules for transposing the Amending Savings Directive by 1 January 2016 and to apply these new requirements from 1 January 2017. In particular, the changes expand the range of payments covered by the Savings Directive to include certain additional types of

income, and the application of a "look-through approach" to payments made via certain entities or legal arrangements (including trusts and partnerships) where certain conditions are satisfied, where an individual resident in a Member State is regarded as the beneficial owner of the payment for the purposes of the Amending Savings Directive. This approach may in some cases apply where the entity or legal arrangement is established or effectively managed outside of the European Union.

In addition, on 9 December 2014 the Council of the European Union adopted another Directive amending Directive 2011/16/EU on administrative cooperation in the field of taxation (together, the **Amended Administration Cooperation Directive**). The Amended Administration Cooperation Directive introduced an automatic exchange of information regime within the EU and is generally broader in scope than the Savings Directive (as amended by the Amending Savings Directive), save that it does not provide for a withholding regime. The Amended Administrative Cooperation Directive requires Member States to implement national legislation giving effect to the 2014 changes by 1 January 2015, which must apply from 1 January 2016.

On 8 December 2015, the European Council approved EU Council Directive 2015/2376 (the **Tax Transparency Package**) related to Council Directive 2014/107/EU amending Council Directive 2011/16/EU on the mandatory automatic exchange of information (the **Amending Directive on Administrative Cooperation**).

The Amending Directive on Administrative Cooperation provides for mandatory automatic exchange of information to a full range of income, including the automatic exchange of financial account information, in accordance with the Global Standard released by the OECD Council in July 2014. The Amending Directive on Administrative Cooperation is generally broader in scope than the EU Savings Directive and provides that in cases of overlap of scope, the Amending Directive on Administrative Cooperation prevails. In order to avoid dual reporting obligations, it has been proposed to repeal the EU Savings Directive.

On the basis of EU Directives mentioned above, Member States must adopt and publish laws, regulations and administrative provisions necessary to comply with the Amending Directive on Administrative Cooperation by 31 December 2016. They are required to apply these provisions from 1 January 2017.

The proposed European financial transactions tax

On 14 February 2013, the European Commission published a proposal (the **Commission Proposal**) for a Directive for a common financial transaction tax (**FTT**) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**).

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

On 27 January 2015, the Finance Ministers of Austria, Belgium, Estonia, France, Germany, Italy, Portugal, Slovakia, Slovenia and Spain issued a joint statement (the **Statement**) setting out their renewed commitment to agree on a directive implementing a financial transaction tax at the European Union level

(EU FTT). The 2015 Statement notes that the EU FTT should be taxed on the widest possible base and at low rates. The participating Member States reiterated their “*willingness to create the conditions necessary*” to implement the EU FTT on 1 January 2016.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

U.S. Foreign Account Tax Compliance Withholding

The Issuer and other financial institutions through which payments on the Notes are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, "foreign passthru payments" (a term not yet defined) made two years after the date of publication of final U.S. Treasury Regulations defining the term "foreign passthru payment", or later. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "grandfathering date," which is the date that is six months after the date on which final U.S. Treasury Regulations defining the term foreign passthru payment are filed with the Federal Register, or are issued on or before the grandfathering date and are materially modified after the grandfathering date, and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

While the Notes are in global form and held within the clearing systems, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. FATCA also may affect payment to any ultimate investor that is a financial institution not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose their custodians and intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Notes are discharged once it has paid the common depositary, or safekeeper, for the clearing systems (as bearer or registered holder of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through the hands of the clearing systems and custodians or intermediaries. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA withholding.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from payments on the Notes, none of the Issuer, any paying agent or any other person would, pursuant to the conditions of the Notes, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive a lesser amount than expected. Holders of Notes should consult their own tax advisers for a more detailed explanation of FATCA and how FATCA may apply to payments they receive under the Notes.

FATCA is particularly complex and its application to the Issuer, the Notes, and investors in the Notes is uncertain at this time. The application of FATCA to "foreign passthrough payments" on the Notes or to Notes issued or materially modified after the grandfathering date may be addressed in the relevant Final Terms or a supplement to the Base Prospectus, as applicable.

On 10 January 2014, representatives of the Governments of Italy and the United States signed an intergovernmental agreement to implement FATCA in Italy (the "IGA"). The IGA entered into force on 1st July 2014. The IGA ratification law entered into force on 8 July 2015 (Law No. 95 dated 18 June 2015, published in the Official Gazette – general series No. 155, on 7 July 2015). Under these rules, the Issuer, as a reporting financial institution, will be required to collect and report certain information in

repect of its account holdiers and investors to the Italian tax authorities, which would automatically exchange such information periodically with the U.S. Internal Revenue Service.

Please consider that if the Issuer or any other relevant withholding agent determines that withholding tax is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

SUBSCRIPTION AND SALE

In respect of a Tranche of Notes issued under the Programme, a Manager or Managers (if so specified in the applicable Final Terms) or any other person or persons may enter into an agreement with the Issuer setting out the basis on which such Notes are to be purchased or subscribed. It is expected that any such Manager(s) or person(s) will agree to comply with the restrictions and agreements set out below (provided that references to "Manager" in the text below shall be read to refer to "person" as appropriate).

United States

The Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. There will be no public offer of the Notes in the United States.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the Code and U.S. Treasury Regulations promulgated thereunder.

The Manager or, as the case may be, each Manager of an issue of Notes will be required to represent and agree, that it will not offer, sell or deliver Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by such Manager or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. The Manager or, as the case may be, each Manager will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

In addition, each issuance of Notes may be subject to such additional U.S. selling restrictions as the Issuer and the relevant Manager may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not applicable", each Manager has represented and agreed, and each further Manager appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- a) the expression "retail investor" means a person who is one (or more) of the following:
 - i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"); and
- b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Public Offer Selling Restriction under the Prospectus Directive

Pursuant to the Prospectus Directive and Article 37 of the Act on Public Offerings, securities of an issuer with its registered office in a Member State for which Poland is a host state may be offered in Poland in a public offering or admitted to trading on a regulated market in Poland upon completing the passporting procedure described in the Act on Public Offerings (which in particular would require a prior notification to the Polish Financial Supervision Authority (*Komisja Nadzoru Finansowego*) and a subsequent publication of an issue prospectus in accordance with the Act on Public Offerings). The Notes may only be offered in the Slovak Republic in compliance with Act No. 566/2001 on securities and investment services, as amended (the "**Act on Securities**"), and regulations valid in the Slovak Republic, including the regulations imposed by the National Bank of Slovakia (*Národná banka Slovenska*) as the competent supervising authority. The Act on Securities fully complies with the Prospectus Directive, as amended by the 2014 PD Amending Directive (Directive 2014/51/EU).

As a general rule, and unless stated otherwise in the Act on Securities, public offering of Notes (verejná ponuka cenných papierov) is prohibited without the prior publication of prospectus approved by the National Bank of Slovakia. For the purposes of the Act on Securities, public offering of Notes means any communication to a wider group of persons in any form and by any means, presenting sufficient information on the terms of the offer and the Notes to be offered, which enables an investor to decide to purchase or subscribe to these Notes. Public offering of Notes shall also be understood to include the placing of Notes through investment firms (obchodník s cennými papiermi) of foreign investment firms (zahraničný obchodník s cennými papiermi), provided that it is made in the manner mentioned in the previous sentence.

If the prospectus (and any supplements thereto) is approved by the competent supervisory authority of the Issuer's home Member State other than Slovak Republic and the Notes are to be offered to the public in Slovak Republic, the prospectus shall not be subject to approval by National Bank of Slovakia and the Issuers will need to have their prospectuses properly passported (unless the applicable Slovak rules provide for the exemption from the requirement to publish a prospectus).

Publication of a prospectus is not required, if the Notes are offered in accordance with Article 3 (2) of the Prospectus Directive as amended by the 2010 PD Amending Directive and Section 120 par. 3 of the Act on Securities to (i) qualified investors solely or (ii) fewer than 150 natural or legal persons per Member State other than qualified investors or (iii) in any other circumstances falling within Article 3 (2) of the Prospectus Directive as amended and Section 120 par. 3 of the Act on Securities, such as an offer addressed to investors who acquire Notes for a total consideration of at least EUR 100.000 per investor, Notes whose denomination per unit amounts to at least EUR 100.000 and Notes with an EU-wide total consideration of less than EUR 100.000 calculated over a period of 12 months.

Any subsequent resale of Notes which were previously the subject of one or more offers mentioned in the previous paragraph shall be regarded as a separate offer of Notes and may be subject to the prior publication of the prospectus. Requirement of prior publication of another prospectus does not apply to the subsequent resale of Notes or the final placement of Notes through financial intermediaries as long as a valid prospectus is available and the issuer or the person responsible for drawing up such a prospectus consents to its use by means of a written agreement.

The obligation to publish an approved prospectus shall not apply to (i) shares issued in substitution for shares of the same class already issued, if the issuing of such new shares does not involve any increase of the registered capital of the issuer, (ii) Notes offered in connection with a takeover by means of an exchange offer, provided that a document is available containing information which is regarded by the National Bank of Slovakia as being equivalent to that of the prospectus, (iii) Notes offered in connection with a takeover in exchange for other Notes or Notes offered, allotted or to be allotted in the case of merger, amalgamation or division, provided that a document is available, which contains information, that are regarded by the National Bank of Slovakia as equivalent to the information included in the prospectus, (iv) shares offered as a form of paying out the dividends, if such shares are of the same class as the shares in respect of which such dividends are paid, provided that a document is available, which contains information on the number and class of shares and reasons for and details of the offer of these Notes, and (v) Notes offered, allotted or to be allotted to existing or former members of statutory bodies, supervisory or management bodies or employees by their employer, or an affiliated undertaking, if their registered seat or head office is in the European Union and provided that a document is available, which contains information on the number and class of the Notes and the reasons for and details of the offer of these Notes.
